**Safety precaution**

**Caution:**
Read the safety precaution and the instruction before use.
Explain the contents to your children and the potential hazards associated with using the telephone.

1. Only use the main adapter supplied.

2. Fit only the recommended rechargeable batteries of the same type! Do not use any other battery type or non-rechargeable batteries as this could result in significant health risks and personal injury.

3. Insert rechargeable batteries as indicated by their polarity symbols, and use them according to these instructions (polarity symbols can be seen in the handset’s battery compartments).

4. The operation of medical appliances may be affected. Be aware of the technical conditions in your particular environment, e.g. operation rooms.

5. The handset may cause an unpleasant humming noise in hearing aids.

6. Do not install the base station in bathrooms or showers. The handset and base are not waterproof.

7. Switch off your phone when onboard aircraft. Ensure that it cannot be switched on and again accidentally.

8. Do not use your phone in environments with a potential explosion hazard, e.g. auto paint shops.

9. If you give your Gigaset to someone else, make sure you also give them the operating manual.

10. Dispose of the batteries and phone in accordance with environmental regulations.
Preparing to use the phone

Installing the base

Connect the Base to power cord (220V) and phone cord, place the cords in the cord recesses.

Notice:
Using the phone in a dry and indoor environment.
Try to place the phone on the center of your house.
Keep the phone away from hot things or other electric appliances, and no sunshine allowed.
Try to keep the phone away from other wireless equipment.
Keep the phone away from dust and corrosive liquid and air.

Remind with friendliness:
Keep the power adapter connects with Base all the time, or the Handset can’t dialing out.

Inserting the battery and charging

Notice:
It’s recommended to use the batteries supplied by Gigaset, i.e. never use the conventional (non-rechargeable) battery or other type of battery, or it could cause significant damage to health or property. For example: the outer casing of the battery could be destroyed or the battery could explode. The phone could also malfunction or be damaged as a result of using batteries that are not of the recommended type.
Install the batteries as the polarity indicated in the case.
Closing the battery cover
Put the cover on the phone as indicated on the picture below, push the cover upward until click sound is heard, means the cover is fixed properly.

Open the cover
Push downward to open the cover.

First time battery charging
Put the handset on the charging cradle for charging. Please continue charging for more than 15 hours when first time using.

The battery icon will flash on the top right of the display.

Remind with friendliness:
- After the first time charging, the handset can be put on the charging cradle after talking/operation.
- The battery pack heats up during charging. This is normal and not dangerous.
- After a time, the battery capacity will decrease for technical reasons.

Registering Handset
Handset will auto register to base on first using.
If auto register failed, please do the operations as belowing.

Operations on Handset:
Press 菜单 ⇒ ▲ ▼ Select ADVANCED SET. OK
⇒ ▲ ▼ REGISTRATION OK ⇒ REGISTER HANDSET? OK
⇒ PLEASE CONFIRM REGISTRATION OK ⇒ HOLD BASE PAGE WAIT FOR BEEP

Operations on Base:
Hold Base Paging key until Beep ⇒ Input Handset Name OK
After registered successfully, the handset goes back to idle status. The and the handset number will display on the displayer.
You can register 4 handsets on 1 Base at most.
If fail to register, please repeat the operation above and try again.

Deregistering handsets
Notice: Don’t do this unless necessary!
Press 菜单 ⇒ ▲ ▼ Select ADVANCED SET. OK
⇒ ▲ ▼ DEREGISTRATION OK ⇒ MOVE TO BASE CONFIRM DREG OK
⇒ Deregistered
Handset will ask for registering after deregistered, otherwise you will not able to dial by handset.

Paging handsets
You can locate your handset using the base station.
Briefly press 对讲/呼叫 (paging) ⇒ PAGING EXTENSION?
⇒ Input the number of handset for paging, press * Key for all handsets.
Handset paged will ring, even if the ringer tone was switched off.
End paging:
briefly press 对讲/呼叫 (paging) key on the base station or key on handset.

Setting Time and Date
Press 菜单 ⇒ ▲ ▼ Select TIME SETTING OK ⇒ Input Time/Date OK
e.g.(only for reference):
Setting Time/Date to 2008-7-17 20:38
Enter TIME SETTING. Ordinal inputing: 203820080717 OK
Remind with friendliness:
You do not need to set Time/Date again on base, for handset will synchronize this setting to base automatically.
Basic Operations
Activating/Deactivating keypad lock
Long press R (handset) to toggle lock / unlock. LCD will display Ø.
It will unlock automatically while a call incoming. And Re-lock after talking.

Ringer OFF/ON
Long press P to turn off ringer tone.
Handset LCD will display 静音, Base LCD will display 免打扰
Long press P once again to turn on ringer.

Back to the idle
You can go back to the idle status by the following ways:
Press 退出 (Handset) back to the idle.
Press 退出 (Base) back to the idle.

Operating the menu
Your telephone’s functions are accessed from a menu with a number of levels--Main menu and sub-menu.
To open the main menu, press 菜单 with the handset in idle status.
Scroll to the required function with ▲ ▼ and press OK to access the function.

Correcting wrong inputs
Press 删除 (Handset/Base) to delete the latest inputs.

Scrolling to display long number
If a telephone number is more than 12 digits in Phonebook or Redial list,
LCD will display ►
You can use the 翻页 (Handset/Base) for scrolling to display next digits of the whole number.
Making calls

Making an external call
Enter the phone number then press c or d.

Or:
Press c or d and then enter number.

Remind with friendliness:
You can also dial out by using the number stored in phonebook or redial list.

Accepting a call
Press c or d to accept an incoming call.

If the handset is in the base and the AUTO ANSWER function is activated, the handset will take a call automatically when you lift it out of the cradle.

Adjusting talking volume
You can press - + to adjust talking volume

Mute
Press 静音 to deactivate the microphone during the talk with external line.

Screen display MUTE ON
Press 静音 again to talk with external line again.

Ending a call
Press a to end a call.

Activating/deactivating Auto answer
When this function is activated, when a call arrives you can simply lift the handset out of the base without having to press the talk key c.

Press 菜单 → ▲ ▼ PERSONAL SET. OK → ▲ ▼ AUTO ANSWER OK

Select ON / OFF OK

Caller ID
Requirements: you have applied the CID service.
When you get a call, the caller’s phone number will be displayed on your handset.
The caller’s name and number will be both displayed if it is stored in the phonebook

Remark:
The phone was made according to the national standards. However sometimes the CID function can’t be displayed properly for the reason of some special using condition: e.g. connecting several phone on a single line or the PABX not a standard appliance. Please contact with your local telecom service supplier.
# Using the phonebook and lists

## Phonebook
You can save up to 50 phone numbers

Press  to open the phonebook in idle. Press ▲ ▼ to look for entries

### Add entry (HS/BS)

Press  → OK → ▲ ▼ Select ADD ENTRY OK → ENTER NAME OK

→ ENTER NUMBER OK

### Length of entry

Name: 15 letters

Phonebook number: 24 digits

### Dialling with the directory

Press  → ▲ ▼ Select an entry → Press  to dial.

### Edit entry (HS/BS)

Press  → ▲ ▼ Select EDIT ENTRY OK → EDIT NAME OK

→ EDIT NUMBER OK

### Delete entry (HS/BS)

Press  → ▲ ▼ Select DELETE ENTRY OK

→ ▲ ▼ Select an entry OK → DELETE? OK → DELETED

Please delete needless entries to keep up the phonebook storage

### Delete list (HS/BS)

Press  → ▲ ▼ Select DELETE LIST OK → DELETE? OK → DELETE ALL? OK → DELETED

### Redial list (HS/BS)

This list contains the 10 last dialled numbers.

Press  → ▲ ▼ Select a number → Press  to dial.

### CID List (HS/BS)

Press ▲ ▼ 来电 → ▲ ▼ Select a number → Press  to dial.

**Precondition:**

Had applied CID, and there are some incoming calls stored in the list.

Last 30 entries will be stored into the list.

**Setting to display ALL CALLS / MISSED CALL**

Press ▲ ▼ 菜单 → ▲ ▼ PERSONAL SET. OK → ▲ ▼ CALL LOGS OK

→ ▲ ▼ Select ALL CALLS / MISSED CALL OK

If you set missed call, only missed call will be stored into the list.
IP dialling

Store IP number
Press IP (LCD display the former record) ➔ Press IP again ➔ ENTER NAME OK ➔ ENTER NUMBER OK.

The method that input IP number below is for your reference since it may different from various cards.
1, Input the IP access number. E.g. 17910
2, Insert “P” by double press key # if necessary (such as a voice prompt interrupt).
e.g. 17910P1P(means insert an pause P, select Chinese language, then insert pause again)
3, Input IP number and Password, end with #.
e.g. 17910P1P229021699398#5800#
Press OK after all the input.

Remind with friendliness:
The IP dialling mentioned here refers to the function of the chargeable card, not the service that supplied by telecom

Using the IP dialling
There are three ways to dial with IP
1, Input a long distance number ➔ press IP
2, Select a number in phonebook/redial list ➔ press IP
3, Press or ➔ press IP ➔ input long distance number
Using several handsets

Intercom
Handsets that registered on the same base can talk each other without calling fee.

Calling handsets
Press 对讲 ▶ Input the number of Handset you want to call
(Handsets 1~4, Base 0, * for all)
The other Handset/Base answering the call by pressing 挂 or 进

Ending a call
Press 挂 to end the call.

Transfer an external call to other handset
During the talk with external call, press 对讲 ▶ press the handset number you want to transfer. You can press 挂 immediately or inform another handset before you end talk.

Internal consulting call
During the talk with external call, you can call another handset for consulting.
Press 对讲 ▶ press the handset number you want to consult with. Intercom builds up after another handset answering that call.
It will auto come back to the external talk when the intercom ends.

Conference call
You are conducting an external call. An internal caller can listen in on this call and take part in the conversation.
Precondition: The "CONFERENCE" function must be activated.

Activate/Deactivate conference call
Press 菜单 ▶ ▲ ▼ CONFERENCE OK ▶ ▲ ▼ Select ON / OFF OK

Start a conference call:
When you want to start a conference call during an external talk:
Press 挂 or 进 to start a conference call by other handset.
The external call remains if one of the handset leave the conference call by pressing 挂

Precondition: Set Network to PRIVATE NET and set a PABX PREFIX number.
Enter the phone number then press [ or ]

e.g.
Set PABX PREFIX number to 9
Enter 1234, Press [ or ] number dialled out is 1234
Enter 12345, Press [ or ] number dialled out is 9P12345

Caution:
PABX PREFIX will not implement if you press [ or ] and then enter number.
Appendix

Care
Wipe the base station and handset with a damp cloth (no solvents) or an antistatic cloth.
Never use a dry cloth. This can cause static.

Contact with liquid
If the handset has come into contact with liquid:
Switch off the handset and remove the battery pack immediately.
Allow the liquid to drain from the handset.
Pat all parts dry, then with the battery compartment open and the keypad facing down place
the handset in a dry, warm place for at least 72 hours (not in a microwave, oven etc.).
Do not switch on the handset again until it is completely dry.
When it has fully dried out, you will normally be able to use it again.
