

Gigaset elements

**Note importanti sullo
starter kit Gigaset elements**

Note di sicurezza

Attenzione

Prima dell'uso leggere le note di sicurezza e il depliant "Primi passi" allegato.

	Utilizza solo l'alimentatore indicato sui dispositivi. Utilizza solo il cavo in dotazione per il collegamento LAN e collegalo solo alle prese previste.
	Inserisci solo le seguenti batterie: litio primario 3,0 Volt (tipo CR123A oppure CR17345). Le batterie visibilmente danneggiate devono essere cambiate.
	L'apparecchio può interferire con le apparecchiature elettromedicali. Osserva quindi le indicazioni presenti nell'ambiente in cui ti trovi, per esempio ambulatori. Se utilizzi dispositivi medici (per es. un pacemaker), informati presso il fabbricante del dispositivo. Là si possono ottenere anche informazioni su quanto i relativi dispositivi siano immuni da energie esterne ad alta frequenza.
	I dispositivi non sono protetti dagli spruzzi d'acqua. Non collocarli quindi in ambienti umidi come per es. bagni oppure locali doccia.
	Non utilizzare i dispositivi in ambienti a rischio di esplosione, come per es. stabilimenti in cui si producono vernici.
	Nel caso in cui la stazione base Gigaset elements, attuatori e sensori siano ceduti a terzi, allega anche il depliant allegato "Primi passi".
	Scollega i dispositivi difettosi e mandali in riparazione presso un centro di assistenza autorizzato, poiché potrebbero arrecare disturbo ad altri servizi radio.
	Le batterie non vanno nei rifiuti domestici. Presta attenzione alle norme locali per lo smaltimento dei rifiuti, che puoi chiedere presso il tuo Comune. Nota sullo smaltimento: Questo prodotto alla fine della sua vita utile non va smaltito tramite i normali rifiuti domestici, ma va portato ad un centro di vendita oppure presso un punto di raccolta per il riciclo di dispositivi elettrici ed elettronici conformemente al regolamento sulla restituzione, ritiro e smaltimento dei dispositivi elettrici ed elettronici (VREG). I materiali sono riciclabili in base alla loro etichettatura. Con il riutilizzo, il recupero dei materiali oppure altre forme di recupero dei dispositivi usati dai un importante contributo alla tutela dell'ambiente.

Note importanti su installazione e utilizzo

Utilizzo

Con lo starter kit Gigaset elements e l'App gratuita Gigaset elements è possibile ricevere notifiche Push su Smartphone predisposti per internet e accedere all'App Gigaset elements. Per poter utilizzare questa funzione, il cellulare deve essere collegato a Internet.

La funzionalità dello starter kit Gigaset elements viene verificata automaticamente dal sistema ad intervalli brevi e regolari. L'App Gigaset elements indica se il sistema funziona bene oppure se è stato rilevato un problema, ed è possibile venir informati direttamente tramite notifica Push oppure via e-mail. Le relative impostazioni possono essere effettuate nell'App Gigaset elements.

Prerequisiti

Per un utilizzo senza problemi dello starter kit Gigaset elements è necessario che la stazione base sia collegata tramite cavo LAN ad un router per Internet funzionante, sempre collegato a Internet.

Per poter utilizzare l'App gratuita Gigaset elements, l'App deve venir installata su uno Smartphone predisposto per Internet.

A causa dei continui sviluppi dei sistemi operativi Android e iOS, puoi verificare la compatibilità attuale QUI: www.gigaset-elements.com/it/compatibility

Per l'utilizzo del sistema è necessaria una registrazione a Gigaset elements. Può venir fatta sia nell'App Gigaset elements sia su www.gigaset-elements.ch. Note sulla protezione dei dati e sulle condizioni di utilizzo sono disponibili durante il processo di registrazione.

Installazione

La stazione base, il sensore della porta e il rilevatore di movimento devono essere collocati in ambienti chiusi e asciutti ad una temperatura compresa tra +5 °C e +45 °C.

La portata si estende della stazione base si estende fino a 300 m all'aperto, fino a 50 m in ambienti chiusi.

Attenzione

Lo starter kit Gigaset elements non va mai esposto a fonti di calore o a raggi solari diretti e ad altri dispositivi elettrici e protetto da umidità, polvere, liquidi e vapori aggressivi.

Generalmente i piedini dei dispositivi non lasciano tracce sulle superfici di collocazione. Data la molteplicità di vernici e lucidi utilizzati per i mobili non si può tuttavia escludere che con il contatto restino tracce sulle superfici.

Gigaset elements door va incollato alla porta con le strisce adesive in dotazione.

Collocare Gigaset elements motion o con il supporto montato oppure con le strisce adesive in dotazione oppure montare a parete con le viti e i tasselli anch'essi in dotazione.

Nel depliant „Primi passi“ allegato viene descritto dove montare in modo ottimale il sensore di movimento. Il sensore di movimento non deve essere messo allineato a una finestra vicina, poiché i raggi solari entranti possono compromettere la funzionalità del sensore di movimento.

In caso di domande rivolgersi al Servizio Clienti di Gigaset elements.

Note sulle strisce adesive

- ◆ Incollare i sensori solo su superfici pulite, asciutte e libere da grassi il più possibile lisce e stabili.
- ◆ La tenuta ottimale della colla viene raggiunta dopo ca. 48 ore.
- ◆ Le strisce adesive sono previste per essere monouso.
- ◆ Utilizzare solo gli adesivi in dotazione.

Gigaset elements GmbH non è responsabile per eventuali danni alle superfici che si verifichino con l'incollatura, il montaggio e la collocazione così come con la rimozione dello starter kit Gigaset elements.

Servizio Clienti & Help

Passo dopo passo verso la soluzione con il Servizio Clienti di Gigaset elements.

Domande e risposte

In caso di domande durante l'utilizzo, trovi consigli per la soluzione in Internet all'indirizzo www.gigaset-elements.ch/faq

Contatta il nostro personale di servizio:

Non hai trovato la soluzione in „Domande & risposte“?
Siamo a tua disposizione ...

... via e-mail:

www.gigaset-elements.ch/contatto

Tieni la tua prova d'acquisto a portata di mano.

Se il dispositivo o l'accessorio non viene utilizzato secondo questa nota, le note del depliant "Primi passi" oppure il prodotto stesso, ciò può influire sulla garanzia (riparazione o sostituzione del prodotto).

Al fine di usufruire del diritto di garanzia, all'acquirente del prodotto viene chiesto di presentare la ricevuta che identifica la data di acquisto e il prodotto acquistato.

Concessione

La stazione base è dotata di un'interfaccia LAN (IEEE 802.3). A seconda dell'interfaccia della tua rete di telecomunicazione potrebbe essere necessario un modem aggiuntivo. Per ulteriori informazioni rivolgiti al tuo provider Internet.

Questi dispositivi sono previsti per l'utilizzo all'interno della Comunità Economica Europea e della Svizzera, in altri paesi a seconda della concessione nazionale. Ogni requisito specifico dei paesi è stato tenuto in debita considerazione.

Con la presente Gigaset elements GmbH dichiara che questo terminale è conforme ai requisiti essenziali e alle altre disposizioni pertinenti stabilite dalla Direttiva 1999/5/EC e 2011/65/EU.

Copia della dichiarazione CE di conformità, redatta ai sensi della Direttiva 1999/05/CE, è disponibile al seguente indirizzo Internet: www.gigaset.com/docs.

Essendo questo un prodotto generalmente internazionale la dichiarazione è scaricabile dall'area Customer Service - Download aprendo il file „International Declarations of Conformity“. Non è tuttavia possibile escludere che determinate varianti di prodotto siano dedicate all'Italia pertanto, se nel file precedente non trovate il documento relativo al modello che state cercando, aprite il file „Italian Declarations of Conformity“. Verificare la presenza di ciò che vi serve in entrambi i file.

In caso di dubbi o problemi potete richiedere la dichiarazione CE telefonando al Servizio Clienti.

Condizioni di garanzia

Al consumatore (cliente) viene accordata dal produttore una garanzia alle condizioni di seguito indicate lasciando comunque impregiudicati i diritti di cui è titolare:

- ◆ In caso i dispositivi nuovi e i relativi componenti risultassero viziati da un difetto di fabbricazione e/o di materiale entro 24 mesi dalla data di acquisto, Gigaset elements si impegna, a sua discrezione, a riparare o sostituire gratuitamente il dispositivo con un altro più attuale. Per le parti soggette a usura (per esempio tastiera, alloggiamento) la validità della garanzia è di 6 mesi dalla data di acquisto.
- ◆ La garanzia non vale se il difetto è stato provocato da un utilizzo non conforme e/o se non ci si è attenuti ai manuali d'uso.
- ◆ La garanzia non può essere estesa a parti di consumo come le batterie al litio utilizzate in alcuni dispositivi. In questo caso non si tratta di batterie ricaricabili ma di batterie monouso che dopo l'utilizzo vanno sostituite con batterie nuove.
- ◆ La garanzia non può essere estesa a prestazioni (quali installazioni, configurazioni, download di software) effettuate dal concessionario o dal cliente stesso. Manuali e software eventualmente forniti su supporto a parte sono esclusi dalla garanzia.
- ◆ Per ottenere il riconoscimento della garanzia è necessario conservare un documento fiscalmente valido comprovante la data di acquisto. I difetti di conformità devono essere denunciati entro il termine di due mesi dal momento della loro constatazione.
- ◆ I dispositivi o i componenti resi a fronte di una sostituzione a Gigaset elements diventano di proprietà di Gigaset elements.
- ◆ La presente garanzia è valida per tutti gli apparecchi acquistati in Svizzera.
La garanzia è rilasciata da Gigaset elements GmbH, Hansaallee 299, D-40549 Düsseldorf.
- ◆ Da questa garanzia di prodotto sono esclusi ulteriori o altri diritti. Gigaset elements non è responsabile per eventuali interruzioni di funzionamento del dispositivo, mancato guadagno, perdita di dati, danni a software supplementari installati dal cliente o perdita di altre informazioni. La tutela degli stessi spetta al cliente. Inoltre Gigaset elements non è responsabile dei danni risultanti per dati e/o segnali non correttamente inviati, elaborati, visualizzati, inoltrati o per qualsiasi motivo non trasmessi. Ciò vale in particolare ma non limitatamente se i componenti che hanno causato il non corretto invio, elaborazione, visualizzazione oppure inoltro dei dati e/o segnali, non sono stati fatti da Gigaset elements oppure se il non corretto invio, elaborazione, visualizzazione oppure inoltro non rientrano nella sfera di influenza di Gigaset.
- ◆ Questa garanzia di prodotto non pregiudica i diritti legali del cliente. In particolare l'esclusione di responsabilità non si applica, nella misura in cui la responsabilità è obbligatoria, per es. ai sensi della legge sulla responsabilità dei prodotti, in caso di dolo, di colpa grave a causa di lesione della vita, del corpo o della salute oppure per violazione di obblighi contrattuali essenziali. La domanda di risarcimento per l'infrazione di obblighi contrattuali essenziali è tuttavia limitata ai danni tipici di contratto e prevedibili, a meno che non causati da dolo o colpa grave oppure se vi è responsabilità per lesione della vita, del corpo o della salute oppure ai sensi della legge sulla responsabilità del prodotto. Una modifica delle regole di onere della prova a scapito del cliente non è collegata con le disposizioni di cui sopra.
- ◆ La prestazione eseguita in garanzia non prolunga il periodo di garanzia.
- ◆ Nei casi non coperti da garanzia, Gigaset elements si riserva il diritto di addebitare al cliente le spese relative alla sostituzione o riparazione. Gigaset elements informerà il cliente in proposito.

Per l'adempimento della garanzia contattare il Servizio Clienti di Gigaset elements:

www.gigaset-elements.ch/contatto

Cura

Pulisci il dispositivo con un panno umido oppure antistatico.

Non utilizzare solventi e panni in microfibra.

Non utilizzare mai un panno asciutto: c'è il rischio di cariche elettrostatiche.

In alcuni casi il contatto del dispositivo con sostanze chimiche può portare a modifiche della superficie. A causa della varietà di sostanze chimiche presenti sul mercato non è stato possibile testare tutte le sostanze.

I danni alle superfici lucide possono essere eliminati con attenzione con i lucidi per display.

Contatto con liquidi

Se uno dei componenti è venuto a contatto con liquidi:

- 1 Staccare il dispositivo dall'alimentazione elettrica oppure togliere le batterie.**
- 2 Lasciar defluire il liquido dal dispositivo.**
- 3 Asciugare tutte le parti con un panno.**
- 4 Conservare il dispositivo per almeno 72 ore in un luogo caldo e asciutto (**non**: forno a microonde, forno normale, etc.).**
- 5 Riattivare il dispositivo solo quando asciutto.**

Una volta asciugato completamente, in molti casi sarà possibile rimettere in funzione il **dispositivo**.

Open Source Software

Generale

Il tuo dispositivo Gigaset elements contiene tra l'altro software Open Source soggetto a diverse condizioni di licenza. La concessione dei diritti di utilizzo in relazione all'Open Source Software, che va al di là del funzionamento del dispositivo nella forma prodotta da Gigaset elements GmbH, è regolata nelle condizioni di licenza dell'Open Source Software. Le relative condizioni di licenza sono stampate alla fine di questo capitolo nella loro forma originale.

Note sulle licenze e il copyright

Il tuo dispositivo Gigaset elements contiene tra l'altro Open Source Software soggetto a GNU General Public License (GPL) oppure GNU Lesser General Public License (LGPL). Le relative condizioni di licenza sono stampate alla fine di questo capitolo nella loro forma originale. Il relativo codice sorgente può essere scaricato da Internet all'indirizzo www.gigaset.com/opensource. Entro tre anni dalla data di acquisto del prodotto è possibile richiedere il relativo codice sorgente a Gigaset elements GmbH a proprie spese.

Utilizza per questo le modalità di contatto indicate all'indirizzo www.gigaset-elements.com/contatto.

Il tuo dispositivo Gigaset elements contiene tra l'altro Gigaset elements FreeRTOS, versione 7.0.1. Entro tre anni dalla data di acquisto del prodotto è possibile richiedere il relativo codice sorgente a Gigaset elements GmbH. Utilizza per questo le modalità di contatto indicate all'indirizzo www.gigaset-elements.com/contatto.

Gigaset si riserva il diritto di modificare le caratteristiche tecniche del prodotto e il contenuto del presente documento senza preavviso.

Original SSLeay License

Copyright (C) 1995-1998 Eric Young (eay@cryptsoft.com)

All rights reserved.

This package is an SSL implementation written by Eric Young (eay@cryptsoft.com).

The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are aheared to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, Ihash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed. If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgement: "This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)" The word 'cryptographic' can be left out if the rouines from the library being used are not cryptographic related :-).

4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement: "This product includes software written by Tim Hudson (tjh@cryptsoft.com)"

THIS SOFTWARE IS PROVIDED BY ERIC YOUNG ``AS IS'' AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE AUTHOR OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

The licence and distribution terms for any publically available version or derivative of this code cannot be changed. i.e. this code cannot simply be copied and put under another distribution licence [including the GNU Public Licence.]

cr16boot (armboot), Linux kernel, BusyBox:

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.> Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'.

This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than 'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program 'Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989

Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.
