► Documentation relating to your base/router
Gigaset HX – the universal handset

With your Gigaset HX handset, you have purchased a high-quality, multifunctional and future-proof device.

You can use your handset with several different DECT bases.

On a Gigaset base

Connect your HX handset to a Gigaset base and use the many features with the quality you would expect from Gigaset.

If your Gigaset base is IP-compatible, you can also make broadband calls using your HX handset with the highest voice quality (HDSP).

In this guide, all functions that are available for your HX handset are detailed/described. The complete functionality with Gigaset bases is described in the guide relevant to your Gigaset system.

All Gigaset user guides can be found at www.gigaset.com/manuals

or online on your smartphone or tablet:
download the Gigaset Help app from AppStore or Google Play

On a DECT/GAP telephone or router from another manufacturer

The handset also functions with DECT/GAP telephones from other manufacturers, of course, as well as DECT routers. Additional information can be found at www.gigaset.com/compatibility.

On DECT routers with CAT-iq 2.0

Your Gigaset HX handset is certified in accordance with the DECT/CAT-iq 2.0 standard. As a result, operation with a DECT router with CAT-iq functionality is possible.

Handset functions on a CAT-iq router (amongst others):
• full access to the central directory on the router as well as the local directory integrated in the handset,
• convenient calling and using of call lists,
• using several lines and call numbers *),
• enjoy broadband calls in guaranteed/certified HD-Voice™ quality.

Details can be found in the relevant user guide for your router.

Additional information regarding your HX handset can be found at www.gigaset.com/hx

Details regarding the functionality of the handset on various bases and routers can be found at www.gigaset.com/compatibility

*) The relevant scope of the function is dependent on the country, network and router
Overview

5 End call key, On/off key
End call; cancel function;
Go back one menu level
Return to idle status
Switch the handset on/off
(in idle status)

6 Message key
Access to the calls and message lists;
Flashes: new message or new call

7 Profile key

Additional information

Regarding the telephone system, if the handset is connected to a Gigaset base:

→ User guide for your Gigaset telephone

Regarding the telephone system, if the handset is connected to another base/router:

→ Documentation regarding your base/your router

You can obtain all Gigaset user guides in PDF format:

→ www.gigaset.com/manuals

online:

→ Gigaset Help app for your smartphone or tablet
Illustration in the user guide

Example: Switching Auto answer on/off

1. Use to select Settings OK Telephony OK Auto Answer
2. Use Change ( = on )

Step Follow this procedure

1. When in idle status press the centre of the control key. The main menu opens.
2. Navigate to the icon using the control key .
3. Select OK to confirm. The submenu Settings opens.
4. Select the Telephony entry using the control key .
5. Select OK to confirm. The submenu Telephony opens.
6. The function to switch Auto answer on/off appears as the first menu item.
7. Select Change to activate or deactivate. Function is activated / deactivated .
Safety precautions

Read the safety precautions and the user guide before use.

Explain their content and the potential hazards associated with using the device to your children.

The device cannot be used in the event of a power failure. In case of a power failure it is also not possible to make emergency calls.

Emergency numbers cannot be dialled if the keypad/display lock is activated!

Do not use the devices in environments with a potential explosion hazard (e.g. paint shops).

The devices are not splashproof. For this reason do not install them in a damp environment such as bathrooms or shower rooms.

Use only the power adapter indicated on the device.

Use only rechargeable batteries that correspond to the specification (see "Specifications"). Never use a conventional (non-rechargeable) battery or other battery types as this could result in significant health risks and personal injury. Rechargeable batteries, which are noticeably damaged, must be replaced.

If you give your Gigaset to a third party, make sure you also give them the user guide.

Remove faulty devices from use or have them repaired by our Service team, as these could interfere with other wireless services.

Do not use the device if the display is cracked or broken. Broken glass or plastic can cause injury to hands and face. Send the device to our Service department to be repaired.

Do not hold the rear of the handset to your ear when it is ringing or when speaker mode is activated. Otherwise you risk serious and permanent damage to your hearing.

Your Gigaset is compatible with the majority of digital hearing aids on the market. However, perfect function with all hearing aids cannot be guaranteed.

The phone may cause interference in analogue hearing aids (humming or whistling) or cause them to overload. If you require assistance, please contact the hearing aid supplier.

Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment, e.g. doctor's surgery. If you use a medical device (e.g. a pacemaker), please contact the device manufacturer. They will be able to advise you regarding the susceptibility of the device to external sources of high frequency energy (for the specifications of your Gigaset product see "Specifications").
Getting started

Contents of the package

• One handset,
• One battery cover,
• Two batteries,
• One charging cradle incl. power adapter,
• One belt clip,
• One user guide

The charging cradle is designed for use in enclosed, dry rooms within a temperature range of +5 °C to +45 °C.
The device's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on furniture, contact marks on the surfaces cannot be completely ruled out.
Never expose the telephone to heat sources, direct sunlight or other electrical devices.
Protect your telephone from moisture, dust, corrosive liquids and vapours.

Connecting the charging cradle

Connect the flat plug of the power adapter 1.
Plug the power adapter into the power socket 2.

To remove the plug from the charging cradle again:
Disconnect the power adapter from the mains power supply.
Press the release button 3.
Pull out the plug 4.

Setting up the handset for use

The display is protected by a plastic film. Please remove the protective film!
Getting started

Inserting the batteries

Only use rechargeable batteries, as this could otherwise result in significant health risks and personal injury. For example, the outer casing of the batteries could be destroyed or the batteries could explode. The device could also malfunction or be damaged as a result of using batteries that are not of the recommended type.

Insert the batteries (for correct +/- direction, see diagram).

Fit the battery cover from the top.

Press the cover until it clicks into place.

To re-open the battery cover:

Insert a fingernail behind the notch at the top of the cover and slide it downwards.

Charging the batteries

Charge the batteries fully prior to first use in the charging cradle or using a standard USB mains adapter.

The batteries are fully charged when the power icon disappears from the display.

The battery may heat up during charging. This is not dangerous.

After a time, the charge capacity of the battery will decrease for technical reasons.

Attaching the belt clip

The handset has notches on each side for attaching the belt clip.

- Attaching the belt clip: Press the belt clip onto the back of the handset so that the tabs on the belt clip click into place in the notches.

- Removing the belt clip: Press the centre of the belt clip firmly with your right thumb. Push the nail of your left thumb up between the clip and the casing. Slide the clip upwards to remove.
Changing the display language
You can change the display language, if the telephone has been set to an incomprehensible language.

- Press the centre of the control key 🛎.
- Press the keys 📋 and 📌slowly and successively . . . the language settings display appears, the set language (e.g. English) is highlighted (☐ = selected).
- To select a different language: Press the control key 🛎 until the desired language is highlighted on the display, e.g. Français press the key on the right directly underneath the display to activate the language.
- To revert to idle status: Press and hold the End call key 🛲.

Registering the handset (depending on the base)

Registration must be initiated on the base station and on the handset. Both must be carried out within 60 secs.

On the base station

Gigaset base: Press and hold the Registration/Paging key on the base station (approx. 3 sec.).

Other base station/router: Information regarding the registration procedure ➔ Documentation regarding your base/your router

On the handset

- 📋 ➔ use 📌 to select ➔ Settings ➔ OK ➔ 🕵️‍♂️ Registration ➔ OK ➔ Register Handset ➔ OK . . . an available base is sought ➔ . . . if required: enter system PIN (default setting on Gigaset bases: 0000) ➔ OK

Once registration is complete, the handset returns to idle status. The internal number of the handset appears in the display, e.g. INT 1. If not, repeat the procedure.

A handset can be registered to up to four base stations.

Change of base: Select Base ➔ OK ➔ use 📌 to select base or Best Base ➔ Select (☐ = selected)

Best Base: The handset chooses the base station with the best reception as soon as it loses connection to the current base station.

De-registering the handset (depending on the base):

- De-register Handset ➔ OK . . . the handset being used is selected ➔ . . . use 📌 to select another handset if required ➔ OK . . . enter system PIN if required ➔ OK . . . Confirm de-registration with Yes

If the handset is still registered to other bases, it switches to the base with the best reception (Best Base).
Setting the date and time

Set the date/time so that the correct date and time can be assigned to incoming calls, and to enable the alarm to be used.

Date and time are set using the base. The date and time can also be set on an IP-compatible base via a time server on the network. If the base permits it, you can set the date and time manually using the handset.

Press the display key Time
or, if the date and time have already been set:

❯ Use to select Settings OK Date/Time OK

The active cursor position flashes change cursor position with . . . switch between cursor positions with Enter date:

❯ . . . using enter the day, month and year in 8-digit format, e.g., for 15/08/2015.

Enter time:

❯ . . . using enter hours and minutes in 4-digit format, e.g., for 07:15.

Save settings:

❯ Press the display key Save. . . . Saved is shown in the display and a confirmation tone sounds.

Return to idle status:

❯ Press and hold the End call key

The telephone is now ready for use.
Getting started

Connecting the headset

- Connect the headset with 2.5 mm jack to the left side of the handset.

or

- Connect headset via Bluetooth.

The headset volume corresponds with the setting for the receiver volume.

Connecting the USB data cable

For data exchange between the handset and PC:

- Connect the USB data cable with micro-USB plug into the USB socket at the bottom of the handset.

Connect the handset **directly** to the PC, **not** via a USB hub.
Getting to know your telephone

Using the telephone

Getting to know your telephone

Switching the handset on/off
Switch on:  ➤ Press and **hold** the End call key on the handset when switched off
Switch off: ➤ When the telephone is in idle status, press and **hold** the End call key

Locking/unlocking the keypad
The keypad lock prevents any accidental use of the telephone.
Lock/unlock the keypad: ➤ Press and **hold**
Keypad lock activated: the symbol appears in the display.

If a call is indicated on the handset, the keypad automatically unlocks and you can accept the call. It then locks again when the call is finished.
It is not possible to call emergency numbers either when keypad lock is activated.

Control key
The control key enables you to navigate the menus and input fields, and also to call up certain functions depending on the situation.

In the description below, the side of the control key (up, down, right, left) that you have to press in the different operating situations is marked in black, e.g. for "press right on the control key" or for "press the centre of the control key".

**In idle status**
Open the directory ➤ Press briefly
Open the list of available online directories (Gigaset GO-Box 100) or central directory of the base (e.g. CAT-iq base) ➤ Press and **hold**
Open the main menu ➤ or
Open the list of handsets ➤

**In submenus, selection and entry fields**
Confirm a function ➤
Getting to know your telephone

During a conversation
Open the directory
Open the list of available online directories (Gigaset GO-Box 100) or central directory of the base (e.g. CAT-iq base)
Mute the microphone
Initiate an internal consultation call
Adjust the loudspeaker volume for receiver and handsfree mode

Display keys
The display keys perform a range of functions depending on the operating situation.

Display key icons ➔ p. 56.

Menu guidance
The functions of your telephone are displayed in a menu that consists of several levels

The menu guidance depends on the base. Depending on the number and type of available functions, these may be provided in different menus, e.g. at top level or in a submenu.

Examples: Audio Settings may be in the top-level menu or in the Settings submenu, while Calendar may be in the Organizer menu or the Additional Features menu.
Getting to know your telephone

Select/confirm functions

Confirm selection using OK or press the centre of the control key.
One menu level back using Back
Change to idle display using Press and hold
Switch function on/off using Change on / off
Activate/deactivate option using Select activated / not activated

Main menu

In idle status: Press the centre of the control key ▶ ▶ . . . use the control key ▶ to select a submenu ▶ OK

The main menu functions are shown in the display as icons. The icon for the selected function is highlighted in colour and the name of the associated function appears in the display header.

Submenus

The functions in the submenus are displayed as lists.

To access a function: ▶ . . . use the control key ▶ to select a function ▶ OK

Return to the previous menu level:
▶ Press the display key Back
or
▶ Briefly press the End call key

Returning to idle status

▶ Press and hold the End call key

If no key is pressed, the display will automatically change to idle status after around 2 minutes.
Getting to know your telephone

Entering text

Input position
- Use to select an entry field. A field is activated when the cursor is blinking inside it.
- Use to move the position of the cursor.

Correcting incorrect entries
- Delete characters to the left of the cursor: Press briefly
- Delete words to the left of the cursor: Press and hold

Entering letters/characters
Multiple letters and numbers are assigned to each key between 2 and 9 and the 0 key. As soon as a key is pressed, the possible characters are displayed at the bottom of the display. The selected character is highlighted.
- Selecting letters/digits: Press the key briefly several times in succession
- Switch between lower case, upper case and number entry mode: Press the hash # key
  When editing a directory entry, the first letter and each letter following a space is automatically in upper case.
- Entering special characters: Press the star key * . . . use to navigate to the desired character Insert

The availability of special characters depends on the character set of the handset.
Making calls

Making a call

- ... use [ ] to enter the number  briefly press the Talk key [ ]
or
- press and hold the Talk key [ ]  ... use [ ] to enter the number

Cancel dialling:  briefly press the End call key [ ]

On a Gigaset GO-Box 100 or another IP-compatible Gigaset base

The connection is selected by the send connection (line) set for the handset. To use another line:
- press and hold the Talk key [ ]  ... use [ ] to select the line  Dial [ ]
  ... use [ ] to enter the number ... the number is dialled approximately 3 seconds after the last digit is entered

Dialling a number from the local directory

- ... use [ ] to open the directory  ... use [ ] to select an entry  briefly press the Talk key [ ]

If multiple numbers are entered:
- ... use [ ] to select the number  briefly press the Talk key [ ] ... the number is dialled

For fast access (quick dial): Assign numbers from the directory to the digit or display keys.

Dialling from a public/central directory

Depending on the base to which the handset is connected to, you can dial from a public directory, the Gigaset.net directory (e.g. Gigaset GO-Box 100) or a central directory on a CAT-iq base.
- press and hold [ ]

Further information  in the detailed user guide for your telephone
Making calls

Dialling from the redial list

The redial list contains the 20 numbers last dialled with the handset.

Briefly press the Talk key ... the redial list opens ... use to select an entry ... press the Talk key

If a name is displayed:

View ... the number is displayed ... use to browse numbers if necessary ... when the required number is reached press the Talk key

Managing entries in the redial list

Briefly press the Talk key ... the redial list opens ... use to select an entry ... Options ... possible options:

Copy an entry to the directory: Copy to Directory OK
Copy the number to the display:

Display number OK ... use to edit or add numbers if necessary ...
use to save as a new entry in the directory

Delete the selected entry: Delete entry OK
Delete all entries: Delete List OK
Set automatic redial:

Automatic Redial ... the selected number is automatically dialled at fixed intervals (at least every 20 secs). The handsfree key flashes, "open listening" is activated.

The participant answers: Press the Talk key ... the function is terminated
The participant does not answer: The call is interrupted after around 30 secs. The function is terminated after pressing any key or after ten unsuccessful attempts.

Dialling from the call list

The call lists (p. 26) contain the most recent accepted, outgoing and missed calls.

... use to select Call Lists OK ... use to select a list OK ... use to select an entry ... press the Talk key

The call lists can be displayed directly by pressing the display key Calls if the relevant function has been assigned to the display key.

The Missed calls list can also be opened by pressing the Message key .
Making calls

Incoming calls
An incoming call is indicated by ringing, by a display on the screen and by the flashing Talk key. Accepting a call:

- Press the Talk key
- If Auto Answer is activated: Remove the handset from the charging cradle
- Forward to the answer machine (p. 45):
- Accept a call on the headset

Switch off ringtone: Silence . . . the call can be accepted for as long as it is shown on the display
Making calls

During a conversation

Handsfree mode
Activating/deactivating handsfree mode during a call, when establishing a connection and when listening to the answer machine:
- Press the handsfree key \[ \text{Handsfree} \].

Placing the handset in the charging cradle during a call:
- Press and hold down the handsfree key \[ \text{Handsfree} \] \[ \text{Handsfree} \] ... Place the handset in the charging cradle \[ \text{Handsfree} \] \[ \text{Handsfree} \] ... hold \[ \text{Handsfree} \] for a further 2 seconds

Call volume
Applies to the current mode (handsfree, receiver or headset):
- Press the volume keys + / – or \[ \text{Volume} \] \[ \text{Volume} \] ... use + / – or \[ \text{Volume} \] \[ \text{Volume} \] to set the volume \[ \text{Save} \].

The setting is automatically saved after around 3 seconds, even if \text{Save} is not pressed.

Muting the microphone
When the microphone is switched off, callers will no longer hear you.
Switch the microphone on/off during a call: \[ \text{Press} \].
Making calls

Local answer machine
(only on Gigaset bases with local answer machine)

Switching the answer machine on/off:

1. Press the Function key, then use  to select Answer Machine ∨ OK ∨ Activation ∨ OK ∨ Use to select an answer machine (if there are several) ∨ Change ∨ Use to select On or Off ∨ Save

Playing back messages:

Press the Message key, then use  to select an answer machine (if there are messages for several answer machines) ∨ OK

   - OK
   - OK
   - New

Cancel the recording:  
- OK
Local handset directory

Local handset directory

The local directory is unique to the handset. However, it is possible to send entries to other handsets (p. 24).

Information about online directories (e.g. on a Gigaset GO-Box 100) or central directories on CAT-iq bases ➔ user guide of the base.

Opening the directory

Briefly press in idle status

Directory entries

Number of entries: up to 500
Information: First name and surname, up to three telephone numbers, anniversary with alert, VIP ringtone with VIP icon
Length of the entries: Numbers: max. 32 digits
First name, surname: max. 16 characters

Creating an entry

Briefly press ➔ ➔ New Entry ➔ OK ➔ . . . use ➔ to switch between the entry fields and enter data for an entry:

Names/numbers:
. . . use ➔ to enter first names and/or surnames, at least one number (personal, office, or mobile) and an e-mail address, if applicable

Anniversary:
. . . use ➔ to activate/deactivate Anniversary ➔ . . . use ➔ to enter date and time ➔ . . . use ➔ to select type of alert (Visual only or a ringtone)

Caller Melody (VIP):
. . . use ➔ to select the ringtone that will indicate a call from the participant . . . if a Caller Melody (VIP) has been assigned, the entry will appear in the directory with the VIP icon.

Save entry: ➔ Save

The entry is only valid if it contains at least one number.

Searching for/selecting a directory entry

Briefly press ➔ . . . use ➔ to browse searched names
or
Briefly press ➔ . . . use ➔ to enter initial letters (max. 8 letters) . . . the display jumps to the first name starting with these initial letters ➔ . . . use ➔ to continue browsing to the desired entry, if needed

Scroll through directory: ➔ ➔ Press and hold ➔
Local handset directory

Displaying/Changing an Entry
- Use ▼ to select entry ▶ View ▶ Use ▼ to select the field to be changed ▶ Edit

or
- Use ▼ to select an entry ▶ Options ▶ Edit entry ▶ OK

Deleting Entries
Delete the selected entry: ▼ ▼ Use ▼ to select an entry ▶ Options ▶ Delete entry ▶ OK
Delete all entries: ▼ ▼ Options ▶ Delete List ▶ OK ▶ Yes

Setting the Order of the Directory Entries
Directory entries can be sorted by first name or surname.
- Options ▶ Sort by Surname / Sort by First Name
If no name was entered, the default telephone number is shown in the surname field. These entries appear at the beginning of the list, regardless of how the entries are sorted.
The sort order is as follows:
Space | Digits (0-9) | Letters (alphabetically) | Other characters.

Displaying the Number of Entries Available in the Directory

Add number to an existing entry:
- Use ▼ to select an entry ▶ OK ▶ Use ▼ to select number type ▶ OK ... the number is entered or a prompt to overwrite an existing number is displayed ▶ ... if required, answer the prompt with Yes/No ▶ Save
Local handset directory

Copying an entry/directory

⚠️ The sending and receiving handset must both be registered to the same base station.
The other handset and the base station are able to send and receive directory entries.

An external call interrupts the transfer.
Caller pictures and sounds are not transferred. Only the date is transferred for an anniversary.

Both handsets support vCards:
• No entry with the name is available: a new entry is created.
• An entry with the name is already available: The entry is expanded to include the new numbers. If the entry contains more numbers than allowed by the recipient handset, a second entry is created with the same name.

The recipient handset does not support vCards:
A separate entry is created and sent for each number.

The sending handset does not support vCards:
A new entry is created on the receiving handset and the transferred number is added to the Phone (Home) field. If an entry with this number already exists, the copied number is discarded.

Copying individual entries

⋮ use ⋅ to select the desired entry ⋅ Options ⋅ Copy Entry ⋅ OK ⋅ ⋅ to Internal ⋅ OK ⋅ ⋅ use ⋅ to select the receiving handset ⋅ OK ⋅ ⋅ the entry is copied

Copy the next entry after successful transfer: ⋅ Press Yes or No

Copying the entire directory

⋮ Options ⋅ Copy List ⋅ OK ⋅ ⋅ to Internal ⋅ OK ⋅ ⋅ use ⋅ to select the receiving handset ⋅ OK ⋅ ⋅ the entries are copied one after the other

Information about copying directory entries using Bluetooth can be found in the detailed user guide for the Gigaset S850 at www.gigaset.com/manuals

Synchronising the phonebook with the PC address book (Gigaset QuickSync)

⚠️ The Gigaset QuickSync programme has been installed on the computer.
The handset is connected via Bluetooth or via a USB data cable to the computer.

Free download and further information at www.gigaset.com/ quicksync

24
Message lists

Notifications about missed calls, messages on the answer machine/network mailbox and missed alarms are saved in the messages list.

As soon as a new message arrives, an advisory tone will sound. The Message key also flashes (if activated). Icons for message types and the number of new messages are shown on the idle display.

Notification for the following message types is available:

- on the answer machine/network mailbox
- in the missed calls list
- in the missed alarms list

The icon for the network mailbox is always displayed, provided the number is stored in the telephone. The other lists are only displayed if they contain messages.

Display messages:

- Press the Message key. Messages lists that contain messages are displayed, Mailbox: is always displayed.
  
  An entry is marked in bold: new messages are available. The number of new messages is shown in brackets.
  
  An entry is not marked in bold: no new messages. The number of old messages is shown in brackets.

- use to select a list OK the calls or messages are listed

  Network mailbox: The network mailbox number is dialled.

The messages list contains an entry for each of the handset’s answer machines ( p. 45 / p. 51).
Call lists

The telephone saves different types of calls (missed, accepted and outgoing calls) in lists.

List entry
The following information is displayed in the list entries:
- The list type (in the header)
- Icon for the type of entry:
  - Missed calls,
  - Accepted calls,
  - Outgoing calls,
  - Call on the answer machine
- Caller's number. If the number is stored in the directory, the name and number type (Phone (Home), Phone (Office), Phone (Mobile)) are shown instead. In the event of missed calls, the number of missed calls from this number is also shown in square brackets.
- Connection by which the call was received/made
- Date and time of call (if set)

Opening the call list
Via the display key: 
  - Calls > ... use to select the list > OK
Via the menu: 
  - > ... use to select Call Lists > OK > ... use to select the list > OK
Via the Message key (missed calls):
  - Press the Message key Missed Calls: > OK

Calling back a caller from the call list
  - > ... use to select Call Lists > OK > ... use to select list > OK > ... use to select entry > Press the Talk key

Additional options
  - > ... use to select Call Lists > OK > ... use to select list > OK ... possible options:
    - View an entry: > ... use to select entry > View
    - Copy the number to the directory:
    - > ... use to select entry > Options > Copy to Directory
    - Delete an entry:
    - > ... use to select entry > Options > Delete entry > OK
    - Delete list:
    - > Options > Delete List > OK > Yes
Additional functions

The functions actually available on your telephone and how they are operated depends on the base/router to which the handset is registered.
The following description applies to a Gigaset GO-Box 100. The procedure required for your telephone may differ from the procedures described here.

Additional information
Regarding the telephone system, if the handset is connected to a Gigaset base:

→ User guide for your Gigaset telephone

Regarding the telephone system, if the handset is connected to another base/router:

→ Documentation regarding your base/your router

You can obtain all Gigaset user guides in PDF format: ➔ www.gigaset.com/manuals

online: ➔ Gigaset Help app for your smartphone or tablet
Sound profiles

The telephone has 3 sound profiles for adapting the handset to the environmental conditions: Profile Loud, Profile Silent, Profile Personal

Use to switch between the profiles ... the profile is changed straight away without a prompt.

The profiles are set as follows by default:

<table>
<thead>
<tr>
<th>Default setting</th>
<th>Profile Loud</th>
<th>Profile Silent</th>
<th>Profile Personal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ringtone</td>
<td>On</td>
<td>Off</td>
<td>On</td>

Activate alert tone for an incoming call for Profile Silent: after switching to Profile Silent press the display key Beep ... the icon appears in the status bar.

Changes to the settings listed in the table:

- apply in the Loud and Silent profiles as long as the profile is not changed.
- are permanently saved in Profile Personal for this profile.

The set profile remains set when switching the phone off and back on.
Calendar

You can remind yourself of up to 30 appointments.
In the calendar, the current day is outlined in white; on days with appointments, the numbers are displayed in colour. When a day is selected, it will be outlined in colour.

Saving appointments to the calendar

➤ Date and time have been set.

➤ . . use to select Organizer ➤ OK ➤ Calendar ➤ OK ➤ . . use to select desired day ➤ OK ➤ . . .

Switch on/off:
➤ Activation: . . use to select On or Off
Enter date:
➤ Date ➤ . . the selected day has been pre-set ➤ . . use to enter new date
Enter time:
➤ Time ➤ . . use to enter hours and minutes of the appointment
Set name:
➤ Text ➤ . . use to enter a description of the appointment (e.g. evening meal, meeting)
Set alarm tone:
➤ Signal ➤ . . use to select the melody of the reminder alarm or deactivate the acoustic signal
Enter information for the appointment:
➤ . . use to successively select Date, Time, Text and Signal ➤ . . use or to set the relevant value ➤ Save

Save appointment: ➤ Save

If an appointment has already been entered: ➤ <New Entry> ➤ OK ➤ . . Then enter information for the appointment.

Availability and operation of the functions may differ on your telephone.
Calendar

Notification of appointments/anniversaries
Anniversaries are transferred from the directory and displayed as an appointment. An appointment/anniversary is displayed in idle status and the selected ringtone plays for 60 seconds as a notification.

- Acknowledge and stop the reminder: Press the display key **OFF**
- Permanently modify the ringtone volume: Press the volume keys **+ / -** during the reminder

During a call, a reminder is indicated on the handset once with an advisory tone on the handset.

Displaying missed appointments/anniversaries
The following appointments and anniversaries are saved in the Missed Alarms list:

- The appointment/anniversary call was not acknowledged.
- The appointment/anniversary was notified during a phone call.
- The handset was switched off at the time of the appointment/anniversary.

The last 10 entries are stored. The icon and the number of new entries are shown in the display. The most recent entry appears at the top of the list.

Opening the list
- Press the Message key **Missed Alarms**: OK [ . . . use **to browse through the list of any appointments**

or

- [ . . . use **to select** Organizer OK [Missed Alarms OK

Each entry is displayed with the number or name, date and time. The most recent entry appears at the top of the list.

- Delete an appointment/anniversary: **Delete**

Displaying/changing/deleting stored appointments
- [ . . . use **to select** Organizer OK [Calendar OK [ . . . use **to select day** OK . . . the appointment list is displayed [ . . . use **to select date** . . . possible options:
  - Display appointment details:
    - **View** . . . The appointment settings are displayed
  - Change appointment:
    - **View** [Edit
    - or [Options [Edit entry OK

    - [Options [Activate/Deactivate OK
  - Delete appointment:
    - [Options [Delete entry OK
  - Delete all appointments for a day:
    - [Options [Delete all Appoints. OK [Yes

Availability and operation of the functions may differ on your telephone.
Alarm clock

Activating/deactivating the alarm clock and setting the wake-up time

- Use \( \text{Organizer} \text{ OK } \text{ Alarm Clock} \text{ OK} \) to select the alarm clock.
- Use \( \text{Time} \) to enter hours and minutes.
- Use \( \text{Occurrence} \) to switch between Monday-Friday and Daily.
- Set the volume using \( \text{Volume} \) to set volume in 5 increments or select crescendo (increasing volume).
- Set the alarm using \( \text{Melody} \) to select a ringtone for the alarm.
- Enter alarm data using \( \text{Time} \text{ Occurrence} \text{ Volume} \text{ Melody} \) to successively select Time, Occurrence, Volume and Melody.
- Use \( \text{Save} \) to set the relevant value.

When the alarm clock is activated, the icon \( \text{Alarm} \) and the wake-up time are displayed in idle display.

Alarm

An alarm is shown on the display and indicated by the selected ringtone melody. The alarm sounds for 60 seconds. If no key is pressed, the alarm is repeated after 5 minutes. After the second repetition, the alarm call is deactivated for 24 hours.

During a call, the alarm is only indicated by a short tone.

Switching off /repeating the alarm after an interval (snooze mode)

Deactivate the alarm: \( \text{OFF} \)
Repeat the alarm (snooze mode): \( \text{Press Snooze} \) or any key ... the alarm is switched off and repeated after 5 minutes.

Availability and operation of the functions may differ on your telephone.
Baby monitor

When the baby monitor is switched on, the stored (internal or external) destination number is called as soon as a defined noise level is exceeded in the vicinity of the handset. The alarm to an external number is cancelled after approximately 90 seconds.

You can answer the alarm using the Two Way Talk function. This function is used to switch the loudspeaker of the handset located in the baby’s room on or off.

In baby monitor mode, incoming calls are only indicated on the display (without ringtone). The display backlight is reduced to 50%. Advisory tones are deactivated. All keys are locked, with the exception of the display keys and the ability to press the centre of the control key.

If you accept an incoming call, the baby monitor mode is suspended for the duration of the call, but the function remains activated. The baby monitor mode is not deactivated by switching the handset off and on again.

The handset should be positioned 1 to 2 metres away from the baby. The microphone must point towards the baby.

Activating the function reduces the operating time of your handset. For that reason, place the handset in the charging cradle if necessary.

The baby monitor is activated 20 seconds after switching on.

The answer machine for the destination number must be switched off.

After switching on:
- Test sensitivity.
- Test the connection, if the alarm is being forwarded to an external number.

Activating and setting the baby monitor

- ➤ ... use ▼ to select Additional Features ➤ OK ➤ Baby Monitor ➤ OK ... then

Switch on/off:
- Activation: ... use ▼ to select On or Off

Enter destination:
- ➤ Send alarm to ➤ ... use ▼ to select External or Internal
  - External: ➤ Number ➤ ... use ▼ to select number or select a number from the directory: ➤
  - Internal: ➤ Handset ➤ Change ➤ ... use ▼ to select the handset ➤ OK

Activate/deactivate two-way talk:
- ➤ Two Way Talk ➤ ... use ▼ to select On or Off

Set microphone sensitivity:
- ➤ Sensitivity ➤ ... use ▼ to select High or Low

Save settings: ➤ Save

The destination number is displayed in idle display when the baby monitor is activated.
Deactivate baby monitor/cancel alarm

Deactivate the baby monitor: ▶ In idle status press the display key OFF
Cancel the alarm: ▶ Press the End call key during an alarm

Deactivate the baby monitor remotely

The alarm is forwarded to an external destination number.
The receiving phone supports tone dialling.

▶ Accept alarm call ▶ Press keys
The baby monitor is deactivated and the handset is in idle status. The baby monitor settings on the handset (e.g. no ringtone) will remain activated until you press the display key OFF.

Reactivate baby monitor with the same number: ▶ . . . Activation to switch back on ( p. 32) ▶ Save
Protection against unwanted calls

Protection against unwanted calls

Time control for external calls

Date and time have been set.

Enter a time period during which the handset should suspend ringing to indicate external calls e.g. during the night.

- use to select Settings OK Audio Settings OK Ringtones (Handset) OK Time Control OK then
- use to select On or Off
- use to switch between Suspend ring. from and Suspend ring. until
- use to enter start and end in 4-digit format

Save: Save

Example

<table>
<thead>
<tr>
<th>Time Control</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>For external calls:</td>
<td></td>
</tr>
<tr>
<td>On</td>
<td></td>
</tr>
<tr>
<td>Suspend ring. from:</td>
<td>22:00</td>
</tr>
<tr>
<td>Suspend ring. until:</td>
<td>07:00</td>
</tr>
</tbody>
</table>

The time control only applies to the handset for which the setting is configured.

The telephone will continue to ring for numbers that have been assigned to a VIP group in the directory.

Protection from anonymous callers

The handset will not ring if callers' numbers are not revealed. This setting can be applied to only one or to all registered handsets.

For one handset

- use to select Settings OK Audio Settings OK Ringtones (Handset) OK Anon. Calls Silent Edit (= on) then the call is only signalled on the display

For all handsets

(only on some Gigaset bases)

- use to select Settings OK Telephony OK Anonymous Calls Edit (= on) then use to select Protection Mode:
  - No Protection: Anonymous calls are indicated in the same way as identified numbers
  - Silent Call: The telephone will not ring and the incoming call will only appear in the display.
  - Block Call: The telephone will not ring and the incoming call will not appear in the display. The caller will hear the busy tone.

Save settings: Save
Black list
(only on some Gigaset bases)
When the black list function is activated, calls from black list numbers are not indicated or are only indicated in the display. These settings apply to all registered handsets.

Transferring a number from a call list to the black list
- Use \( \text{ } \) to select Call Lists \( \text{ } \) OK \( \text{ } \) Use \( \text{ } \) to select Accepted calls/Missed calls \( \text{ } \) OK \( \text{ } \) Use \( \text{ } \) to select entry \( \text{ } \) Options \( \text{ } \) Copy to Blacklist \( \text{ } \) OK

Displaying/editing the black list
- Use \( \text{ } \) to select Settings \( \text{ } \) OK \( \text{ } \) Telephony \( \text{ } \) OK \( \text{ } \) Black List \( \text{ } \) Edit \( \text{ } \) Blocked Numbers \( \text{ } \) OK ... the list of blocked numbers is displayed ... possible options:
  - Create an entry: \( \text{ } \) New \( \text{ } \) Use \( \text{ } \) to enter a number \( \text{ } \) Save
  - Delete an entry: \( \text{ } \) Use \( \text{ } \) to select an entry \( \text{ } \) Delete ... the entry is deleted

Setting the protection mode
- Use \( \text{ } \) to select Settings \( \text{ } \) OK \( \text{ } \) Telephony \( \text{ } \) OK \( \text{ } \) Black List \( \text{ } \) Edit \( \text{ } \) Protection Mode \( \text{ } \) OK ... use \( \text{ } \) to select desired protection:
  - No Protection All calls are indicated, including from callers whose numbers are on the black list.
  - Silent Call The telephone will not ring and the incoming call will only appear in the display.
  - Block Call The telephone will not ring and the incoming call will not appear in the display. The caller will hear the busy tone.

Save settings: \( \text{ } \) Save

Switch off ringtone when in charging cradle
The handset will not ring when placed in the charging cradle. The call is only indicated on the display.
- Use \( \text{ } \) to select Settings \( \text{ } \) OK \( \text{ } \) Audio Settings \( \text{ } \) OK \( \text{ } \) Ringtones (Handset) \( \text{ } \) OK \( \text{ } \) Silent Charging \( \text{ } \) Change \( \text{ } \) \( \text{ } \) = ringtone is switched off when in charging cradle

Availability and operation of the functions may differ on your telephone.
Resource Directory

Resource Directory

Sounds for ringtones and images that can be used as caller pictures (CLIP pictures) or as a screensaver are saved in the handset’s resource directory. A range of monophonic and polyphonic sounds and pictures have been pre-set but further images and sounds can be downloaded using a PC (Gigaset QuickSync).

Media types:

<table>

    - Options ✿ Delete entry ✿ the selected entry is deleted

The relevant options are not available if a picture/sound cannot be deleted.

Check memory

Display the available memory for screensavers and CLIP-pictures.

- Use ✿ to select Additional Features ✿ Resource Directory ✿ OK ✿ Capacity ✿ OK
  - the percentage of available memory is displayed
Bluetooth

The handset is able to use Bluetooth™ to communicate wirelessly with other devices that also use this technology, e.g. for connecting a Bluetooth headset.

Bluetooth is activated and the devices have been registered to the handset.

The following devices can be connected:
• A Bluetooth headset
  e.g. Gigaset ZX530 (www.gigaset.com/zx530)
  or Gigaset ZX830 (www.gigaset.com/zx830)

The headset features the Headset or Handsfree Profile. If both profiles are available, the handsfree profile is used to communicate.

It may take 5 seconds to establish a connection, whether a call is accepted using the headset or transferred to the headset, or a call is made from the headset.
• Up to 5 data devices (PCs, tablets or mobile phones) for the transmission of address book entries as a vCard or for the exchange of data with the computer.
  In order for telephone numbers to be used further, the area code (international and local area code) must be saved to the telephone.

Operating Bluetooth devices ➔ device user guides

Activating/deactivating Bluetooth mode

Use ➔ to select Additional Features ➔ OK ➔ Bluetooth ➔ OK

Activation ➔ Change (فحـى — activated)

If the local area code is still not saved: ➔ use ➔ to enter local area code ➔ OK

When in idle status, the activated Bluetooth mode is indicated on the handset by the icon.

Availability and operation of the functions may differ on your telephone.
Bluetooth

Registering Bluetooth devices

The distance between the handset in Bluetooth mode and the active Bluetooth device (headset or data device) should not exceed 10 m.

The registration of a headset overwrites a previously registered headset.

If a headset is to be registered that is already registered with a different device, this connection must be deactivated before registering.

- Use ✓ to select Additional Features ➤ Bluetooth ➤ OK ➤ Search for Headset / Search Data Device ➤ OK...
- The search starts (may take up to 30 seconds)...
- The names of found devices are displayed...
  - Possible options:

Register device:

- Options ➤ Trust Device ➤ OK...
  - Use ✓ to enter the PIN of the Bluetooth device to be registered ➤ OK...
  - The device is added to the list of known devices.

Display information about a device:

- Use ✓ to select a device, if applicable ➤ View...
  - The device name and device address are displayed.

Repeat search:

- Options ➤ Repeat Search ➤ OK

Cancel search:

- Cancel

Editing the list of known (trusted) devices

Open the list

- Use ✓ to select Additional Features ➤ Bluetooth ➤ OK ➤ Known Devices ➤ OK...
  - The known devices are listed, an icon indicates the type of device:

- Bluetooth headset
- Bluetooth data device

If a device is connected, the relevant icon is shown in the display header instead of ●.

Edit an entry

- Use ✓ to select Additional Features ➤ Bluetooth ➤ OK ➤ Known Devices ➤ OK...
  - Use ✓ to select entry...
  - Possible options:

View an entry:

- View...
  - The device name and device address are displayed ➤ Press OK to go back

De-register a Bluetooth device:

- Options ➤ Delete entry ➤ OK

Edit name:

- Options ➤ Edit Name ➤ OK...
  - Use ✓ to edit name ➤ Save

If an active Bluetooth device is de-registered, it may try to re-connect as a "non-registered device".
Additional functions using the PC interface

Rejecting/accepting a non-registered Bluetooth device

If a Bluetooth device that is not registered in the list of known devices tries to connect to the handset, a prompt will appear asking you to enter the PIN of the Bluetooth device (Bonding).

Reject:  Briefly press the End call key.  
Accept:  . . . use to enter the PIN of the Bluetooth device to be accepted  OK  . . . Wait for PIN confirmation  . . . then  
Add the device to the list of known devices:  Yes  
Use the device temporarily:  No  . . . the Bluetooth connection can be used, as long as the device is located within transmission range or until it is switched off.

Changing the Bluetooth name of the handset

The handset is shown by this name on another Bluetooth device.

. . . use to select  Additional Features  OK  Bluetooth  OK  Own Device  OK  . . . the name and the device address are shown  Change  . . . use to change the name  Save

Additional functions using the PC interface

The Gigaset QuickSync program has been installed on the computer.
Free to download at  www.gigaset.com/quicksync

QuickSync functions:
• Sync the handset's directory with Microsoft® Outlook®
• Upload CLIP-pictures (.bmp) from the computer to the handset
• Upload pictures (.bmp) as screensavers from the computer to the handset
• Upload sounds (ringtone melodies) from the computer to the handset
• Update firmware
• Cloud synchronisation with Google™
• Connecting the handset to the computer via Bluetooth or via a USB data cable.

Connect the handset directly to the PC, not via a USB hub.

Availability and operation of the functions may differ on your telephone.
**Additional functions using the PC interface**

**Transferring data**

Data transfer using Bluetooth:
- The computer has Bluetooth capability.
- A USB data cable is not plugged in. If a USB data cable is plugged in during an existing Bluetooth connection, the Bluetooth connection is interrupted.

Launch the **Gigaset QuickSync** program on the computer.
The message **Data transfer in progress** is shown on the display during data transfer between the handset and PC. During this time, it is not possible to enter any data using the keypad and incoming calls are ignored.

**Carrying out a firmware update**

- Connect the telephone and the PC using a **USB data cable**
- Launch **Gigaset QuickSync**
- Establish connection to the handset
- Start firmware update in **Gigaset QuickSync**
  
  Information about this can be found in **Gigaset QuickSync** help feature

The update process may take up to 10 minutes (not including download time).

The data are first downloaded from the online update server. The time required for this depends on Internet connection speed.

The display on your telephone is switched off and the Message key ⭕ and the Talk key ⏰ will flash.

Once the update is complete, your telephone will automatically restart.
Additional functions using the PC interface

Procedure in the event of an error
If the update procedure fails or the telephone no longer functions properly after the update, repeat the update procedure:

- End the **Gigaset QuickSync** program on the PC
- Remove the USB data cable from the telephone
- Remove the battery
- Replace the battery

- Carry out the firmware update again as described above

If the update procedure fails more than once or it is no longer possible to connect to the PC, carry out the **Emergency Update**:

- End the **Gigaset QuickSync** program on the PC
- Remove the USB data cable from the telephone
- Remove the battery

- Press and hold keys 4 and 6 at the same time with the forefinger and middle finger
- Replace the battery

- Release keys 4 and 6... the Message key and the Talk key will flash alternately

- Carry out the firmware update as described above

Always save pictures and sounds uploaded onto the handset on the PC, as they are deleted during an **Emergency Update**.

Availability and operation of the functions may differ on your telephone.
Setting the handset

Changing the language

- Use 
  - to select Settings OK 
  - Language OK 
  - use 
  - to select language 
  - Select ( ) selected

If the handset has been set to an incomprehensible language:

- Press the keys ( ) slowly one after the other 
  - use 
  - to select the correct language 
  - press the right display key

Display and keypad

Screensaver

A digital or analogue clock, Info Services and a range of pictures can be selected to be displayed as a screensaver when in idle status.

- Use 
  - to select Settings OK 
  - Display & Keypad OK 
  - Screensaver ( ) = on

Switch on/off:
- Activation: use 
  - to select On or Off

Select screensaver:
- Selection use 
  - to select a screensaver (Digital Clock / Analog Clock / Info Services / (<Pictures> / Slideshow))

View screensaver:
- View

Save selection:
- Save

The screensaver is activated approx. 10 seconds after the display has changed to idle status.

- All pictures from the Screensaver folder of the Resource Directory are available to select.

End screensaver

- Briefly press the End call key ( ) . . . the idle display appears

Notes on displaying Info Services

(only on a Gigaset GO-Box 100 or other Gigaset-IP base)

Info Services are activated via the web configurator.

The telephone is connected to the Internet.

The type of info service available to your phone is set on the Internet on the Gigaset.net server. Changing the setting p. 77.

If no information is currently available, the digital time (Digital Clock) is displayed instead until information is available again.

Availability and operation of the functions may differ on your telephone.
Setting the handset

Activating/deactivating the information ticker

(only on a Gigaset GO-Box 100 or other Gigaset-IP base)

The text information from the Internet that is set for the screensaver Info Services can be displayed as a scrolling message in the idle display.

![Image]

The ticker starts as soon as the telephone changes to idle status. If a message is shown in the idle display, the information ticker is not displayed.

Large font

Show text and icons in call lists and in the directory in a larger size in order to improve legibility. Only one entry is shown in the display and names are abbreviated if necessary.

![Image]

Colour scheme

The display may appear in a range of colour combinations.

![Image]

Display backlight

The display backlight always illuminates when the handset is taken out of the base station/charging cradle or when a key is pressed. Any digit keys that are pressed appear on the display for pre-dialling.

Switch the display backlight on/off when in idle status:

![Image]

Backlight in the charging cradle:

![Image]

Backlight when not in the charging cradle:

![Image]

Save selection:

![Image]

The handset's standby time may be significantly reduced if the display backlight is activated.

Switching the keypad illumination on/off

![Image]
Setting the handset

**Activating/deactivating automatic keypad lock**
Automatically lock the keypad when the handset has been in idle status for around 15 seconds.

- Press , use to select Settings, OK, Display & Keypad, OK, Auto Keypadlock, Change (on)

**Activating/deactivating Auto Answer**
When set to Auto Answer, the handset accepts an incoming call as soon as it is removed from the charging cradle.

- Press , use to select Settings, OK, Telephony, OK, Auto Answer, Change (on)

Regardless of the Auto Answer setting, the connection ends as soon as you place the handset back in the charging cradle. Exception: Press and hold the handsfree key for a further 2 seconds while placing the handset in the charging cradle.

**Changing the earpiece and speaker volume**
You can set the volume of the earpiece and speaker at 5 levels independently of each other.

- Changes are only saved permanently in Profile Personal.

**During a conversation**
- Press the volume keys / on the right side of the handset
  
  or

- Handset Volume, use to select volume, Save... the setting is saved

- The setting is automatically saved after around 3 seconds without saving.

**In idle status**
- Press , use to select Settings, OK, Audio Settings, OK, Handset Volume, OK... then

  For the earpiece:  Earpiece: use to set the volume
  For the speaker:  Speaker, use to set the volume
  Save settings:  Save

Availability and operation of the functions may differ on your telephone.
Setting the handset

**Earpiece and handsfree profile**

Select earpiece and handsfree profiles to adapt the telephone as much as possible to the surroundings. Check which is the most comfortable for you and the other party.

- Press and use to select Settings OK Audio Settings OK Acoustic Profiles OK Earpiece Profiles / Handsfree Profiles OK . . . use to select profile Select ( = selected)

Earpiece Profiles: High or Low (default settings)
Handsfree Profiles: Profile 1 (default settings) . . . Profile 4

**Ring tones**

**Ringtone volume**

Volume can be set at 5 levels or crescendo (increasing volume).

- Press and use to select Settings OK Audio Settings OK Ringtones (Handset) OK Volume OK . . . use to select For internal calls and alarms or External Calls . . . use to set volume Save

Example

<table>
<thead>
<tr>
<th>Volume</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>For internal calls and alarms:</td>
<td></td>
</tr>
<tr>
<td>&lt;</td>
<td>&gt;</td>
</tr>
<tr>
<td>External Calls:</td>
<td></td>
</tr>
<tr>
<td>&lt;</td>
<td>&gt;</td>
</tr>
<tr>
<td>Back</td>
<td>Save</td>
</tr>
</tbody>
</table>

When the telephone rings, you can permanently change the ringtone volume using the volume keys (louder) or (quieter).

Changes are only saved in Profile Personal.

**Ringtone melody**

Set a variety of ringtones for internal and external calls for every available send/receive connection of the telephone (Landline, IP1) or set the same ringtone for All calls.

- Press and use to select Settings OK Audio Settings OK Ringtones (Handset) OK Melodies OK . . . use to select he connection . . . use to select the ringtone/melody in each case Save

**Activating/deactivating the ringtone**

Deactivating the ringtone permanently

- Use the key to set Profile Silent . . . the icon appears in the status bar

Availability and operation of the functions may differ on your telephone.
Setting the handset

Activating the ringtone permanently
- Use the key to set Profile Loud or Profile Personal

Deactivating the ringtone for the current call
- Press Silence or the End call key

Switching the alert tone (beep) on/off
Switch on an alert tone (beep) instead of the ringtone:
- ...Press the Profile key to select Profile Silent ...press Beep within 3 seconds ...the following icon appears in the status bar

Switching off the alert tone: ...Press the Profile key to change profile

Activating/deactivating advisory tones
The handset notifies acoustically about different activities and statuses. These advisory tones can be activated/deactivated independently of each other.
- ...use to select Settings OK Audio Settings OK Advisory Tones OK ...then
  Tone when keys are pressed:
  - Key Tones: ...use to select On or Off
  Confirmation/error tone after making entries, advisory tone when a new message has been received:
  - Confirmation ...use to select On or Off
  Warning tone when there are fewer than 10 minutes of talktime remaining (every 60 seconds):
  - Battery ...use to select On or Off
  Warning tone when the handset is moved out of range of the base station:
  - Out of Range: ...use to select On or Off
  Save settings:
    - Save

There is no battery warning when the baby monitor is activated.
Fast access to numbers and functions

Number keys: It is possible to assign a number from the directory to the keys 0 and 2 to 9.

Display keys: The left and right display keys have a function preset by default, but the keys can be re-assigned.

You can then dial the number or start the function by simply pressing a key.

Assigning a number to digit keys (quick dial)

A number has not yet been assigned to the digit key.

- Press and hold the digit key
- Briefly press the digit key

Press the display key QuickDial

The directory opens.

- . . . use ↑ to select an entry
- . . . use ≤ to select a number if necessary
- . . . the entry is saved to the digit key

If the entry in the directory is deleted later, this will not affect the assignment of the digit key.

Dialling a number

- Press and hold the digit key... the number is dialled immediately
- Briefly press the digit key... the number/name (possibly in abbreviated form) is shown on the left display key... press the display key... the number is dialled

Changing the digit key assignment

- Briefly press the digit key
- Change... the directory is opened... possible options:

Change the assignment:

- . . . use ↑ to select an entry
- . . . select a number if required

Delete the assignment:

- Clear Key

Availability and operation of the functions may differ on your telephone.
Setting the handset

Assigning display keys, changing assignments

Press and hold the left or right display key in idle status... the list of possible key assignments is opened. Use to select function... possible options:

- Quick Dial: Assign a number from the directory to the display key
- Baby Monitor: Set and activate/deactivate baby monitor
- Alarm Clock: Set and activate/deactivate the alarm clock
- Calendar: Open calendar
- One Touch Call: Set up one touch call
- Bluetooth: Open Bluetooth menu
- Redial: Show redial list

Service Hotline: 0818 200 033 (6.6561 Ct./Call)

Please have your proof of purchase ready when calling.

Please note that if the Gigaset product is not sold by authorised dealers in the national territory the product may not be fully compatible with the national telephone network. It is clearly specified on the box near the CE mark for which country/countries the equipment has been developed. If the equipment is used in a manner inconsistent with this advice or with the instructions of the manual and on the product itself, this may have implications on the conditions for warranty or guarantee claims (repair or exchange of product).

In order to make use of the warranty, the product purchaser is asked to submit a receipt which proves the date of purchase (date from which the warranty period starts) and the type of goods that have been purchased.
Guarantee Certificate United Kingdom

Without prejudice to any claim the user (customer) may have in relation to the dealer or retailer, the customer shall be granted a manufacturer's Guarantee under the conditions set out below:

- In the case of new devices and their components exhibiting defects resulting from manufacturing and/or material faults within 24 months of purchase, Gigaset Communications shall, at its own option and free of charge, either replace the device with another device reflecting the current state of the art, or repair the said device. In respect of parts subject to wear and tear (including but not limited to, batteries, keypads, casing), this warranty shall be valid for six months from the date of purchase.
- This Guarantee shall be invalid if the device defect is attributable to improper treatment and/or failure to comply with information contained in the user guides.
- This Guarantee shall not apply to or extend to services performed by the authorised dealer or the customer themselves (e.g. installation, configuration, software downloads). User guides and any software supplied on a separate data medium shall be excluded from the Guarantee.
- The purchase receipt, together with the date of purchase, shall be required as evidence for invoking the Guarantee. Claims under the Guarantee must be submitted within two months of the Guarantee default becoming evident.
- Ownership of devices or components replaced by and returned to Gigaset Communications shall vest in Gigaset Communications.
- This Guarantee shall apply to new devices purchased in the European Union. For Products sold in the United Kingdom the Guarantee is issued by: Gigaset Communications UK Limited, 2 White Friars, Chester, CH1 1NZ.
- Any other claims resulting out of or in connection with the device shall be excluded from this Guarantee. Nothing in this Guarantee shall attempt to limit or exclude a Customers Statutory Rights, nor the manufacturer's liability for death or personal injury resulting from its negligence.
- The duration of the Guarantee shall not be extended by services rendered under the terms of the Guarantee.
- Insofar as no Guarantee default exists, Gigaset Communications reserves the right to charge the customer for replacement or repair.
- The above provisions does not imply a change in the burden of proof to the detriment of the customer. To invoke this Guarantee, please contact the Gigaset Communications telephone service. The relevant number is to be found in the accompanying user guide.

Guarantee Certificate Ireland

Without prejudice to any claim the user (customer) may have in relation to the dealer or retailer, the customer shall be granted a manufacturer's Guarantee under the conditions set out below:

- In the case of new devices and their components exhibiting defects resulting from manufacturing and/or material faults within 24 months of purchase, Gigaset Communications shall, at its own option and free of charge, either replace the device with another device reflecting the current state of the art, or repair the said device. In respect of parts subject to wear and tear (including but not limited to, batteries, keypads, casing), this warranty shall be valid for six months from the date of purchase.
- This Guarantee shall be invalid if the device defect is attributable to improper care or use and/or failure to comply with information contained in the user manuals. In particular claims under the Guarantee cannot be made if:
  - The device is opened (this is classed as third party intervention)
  - Repairs or other work done by persons not authorised by Gigaset Communications.
  - Components on the printed circuit board are manipulated
  - The software is manipulated
  - Defects or damage caused by dropping, breaking, lightning or ingress of moisture. This also applies if defects or damage was caused by mechanical, chemical, radio interference or thermal factors (e.g.: microwave, sauna etc.)
  - Devices fitted with accessories not authorised by Gigaset Communications
Service (Customer Care)

- This Guarantee shall not apply to or extend to services performed by the authorised dealer or the customer themselves (e.g. installation, configuration, software downloads). User manuals and any software supplied on a separate data medium shall be excluded from the Guarantee.
- The purchase receipt, together with the date of purchase, shall be required as evidence for invoking the Guarantee. Claims under the Guarantee must be submitted within two months of the Guarantee default becoming evident.
- Ownership of devices or components replaced by and returned to Gigaset Communications shall vest in Gigaset Communications.
- This Guarantee shall apply to new devices purchased in the European Union. For Products sold in the Republic of Ireland the Guarantee is issued by Gigaset Communications UK Limited, 2 White Friars, Chester, CH1 1NZ.
- Any other claims resulting out of or in connection with the device shall be excluded from this Guarantee. Nothing in this Guarantee shall attempt to limit or exclude a Customers Statutory Rights, nor the manufacturer’s liability for death or personal injury resulting from its negligence.
- The duration of the Guarantee shall not be extended by services rendered under the terms of the Guarantee.
- Insofar as no Guarantee default exists, Gigaset Communications reserves the right to charge the customer for replacement or repair.
- The above provisions does not imply a change in the burden of proof to the detriment of the customer.

To invoke this Guarantee, please contact the Gigaset Communications helpdesk. This number is also to be found in the accompanying user guide.

Exclusion of liability

Your handset’s display consists of pixels. Each pixel consists of three sub-pixels (red, green, blue). It may be the case that a sub-pixel is missing or has a colour deviation.
A warranty claim is only valid if the maximum number of permitted pixel errors is exceeded.

<table>
<thead>
<tr>
<th>Description</th>
<th>Maximum number of permitted pixel errors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colour illuminated sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Dark sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Total number of coloured and dark sub-pixels</td>
<td>1</td>
</tr>
</tbody>
</table>

Signs of wear on the display and casing are excluded from the warranty.
Manufacturer's advice

Authorisation
This device is intended for use worldwide. Use outside the European Economic Area (with the exception of Switzerland) is subject to national approval.
Country-specific requirements have been taken into consideration.
We, Gigaset Communications GmbH, declare that this device meets the essential requirements and other relevant regulations laid down in Directive 1999/5/EC.
The EC declaration of your country according to 1999/5/EC can be found at: www.gigaset.com/docs.
This declaration could also be available in the “International Declarations of Conformity” or “European Declarations of Conformity” files.
Therefore please check all of these files.

CE 0682

Environment
Our environmental statement
We at Gigaset Communications GmbH are aware of our social responsibility. That is why we actively take steps to create a better world. In all areas of our business – from product planning and production to sales and waste of disposal – following our environmental conscience in everything we do is of utmost importance to us.

Learn more about our earth-friendly products and processes online at www.gigaset.com.

Environmental management system
Gigaset Communications GmbH is certified pursuant to the international standards ISO 14001 and ISO 9001.
ISO 14001 (Environment): Certified since September 2007 by TÜV SÜD Management Service GmbH.
ISO 9001 (Quality): Certified since 17/02/1994 by TÜV SÜD Management Service GmbH.

Disposal
Batteries should not be disposed of in general household waste. Observe the local waste disposal regulations, details of which can be obtained from your local authority.
All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

This crossed-out wheeled bin symbol on the product means the product is covered by the European Directive 2002/96/EC.
The correct disposal and separate collection of your old appliance will help prevent potential negative consequences for the environment and human health. It is a precondition for reuse and recycling of used electrical and electronic equipment.
For more detailed information about disposal of your old appliance, please contact your local council refuse centre or the original supplier of the product.
Manufacturer’s advice

Care
Wipe the device with a damp cloth or an antistatic cloth. Do not use solvents or microfibre cloths.

Never use a dry cloth; this can cause static.

In rare cases, contact with chemical substances can cause changes to the device’s exterior. Due to the wide variety of chemical products available on the market, it was not possible to test all substances.

Impairments in high-gloss finishes can be carefully removed using display polishes for mobile phones.

Contact with liquid ⚠️

If the device comes into contact with liquid:

1. Disconnect the power supply.
2. Remove the batteries and leave the battery compartment open.
3. Allow the liquid to drain from the device.
4. Pat all parts dry.
5. Place the device in a dry, warm place for at least 72 hours (not in a microwave, oven etc.) with the battery compartment open and the keypad facing down (if applicable).
6. Do not switch on the device again until it is completely dry.

When it has fully dried out, you will normally be able to use it again.
Technical data

Batteries

Technology: 2 x AAA NiMH
Voltage: 1.2 V
Capacity: 750 mAh

Handset operating times/charging times

The operating time of your Gigaset depends on the capacity of the battery, its age and the way it is used. (All times are maximum possible times.)

<table>
<thead>
<tr>
<th>Handset operating times/charging times</th>
<th>300/180 *</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standby time (hours)</td>
<td>300/180 *</td>
</tr>
<tr>
<td>Talktime (hours)</td>
