Overview

Handset

1 Display

2 Status bar (p. 69)
   Icons display current settings and operating status of the telephone

3 Display keys (p. 13)
   Various functions, depending on the operating situation

4 End call key, On/off key
   End call; cancel function;
   Go back one menu level
   Return to idle status
   Switch the handset on/off (in idle status)

5 Hash key / Lock key
   Lock/unlock the keypad (in idle status)
   Toggle between upper/lower case and digits (when inputting text)
   Insert a dialling pause

6 Recall key
   Consultation call (flash)

7 USB connection socket
   For data exchange between the handset and PC

8 Microphone

9 Star key
   Open special characters table (when inputting text)
   Switch from pulse dialling to tone dialling (for an existing connection)

10 Key 1
    Select answer machine/network mailbox

11 Control key / menu key (p. 12)
    Open a menu; navigate in menus and entry fields; access functions (depending on the situation)

12 Talk key / Handsfree key
   Accept call; dial number displayed; switch between receiver and handsfree mode
   Open the redial list
   Start dialling
   Press briefly
   Press and hold

13 Message key (p. 28)
   Access to the call and message lists;
   Flashes: new message or new call

14 Headset connection
   (2.5 mm jack)
**Base**

**Lights up:** The answer machine is activated. The number of saved messages is displayed.

**00 flashing:** The answer machine is recording a message.

**Flashing slowly:** There are new messages. The number of new messages is displayed.

**99 flashing quickly:** The answer machine is full.

**On/Off/Playback/Stop key:** Play back messages from answer machine or stop playback.

**Forward key:** Go to the next message.

**Back key:**
- During message playback > 5 sec.
  - Go to the start of the message: **Press and hold**
  - Go back 5 seconds: **Press briefly**
- During message playback > 5 sec.
  - Go to the start of the message: **Press briefly**
  - Skip to previous message during the time stamp playback: **Press briefly**

**Delete key:** Delete current message during playback.

**Volume keys:** Change speaker volume during message playback (– = quieter; + = louder).

If the answer machine is being operated from a handset or if it is recording a message (00 flashing), it cannot be operated from the base at the same time.

Procedures

Example: Switching Auto answer on/off

1. . . use ☐ to select ☑ Settings ☑ OK ☑ Telephony ☑ OK ☑ Auto Answer ☑ Change (☑ = on)

Step Follow this procedure

1. When in idle status press the centre of the control key. The main menu opens.
2. Navigate to the ☑ icon using the control key ☑. Select OK to confirm. The submenu Settings opens.
3. Select the Telephony entry using the control key ☑. Select OK to confirm. The submenu Telephony opens.
4. The function to switch Auto answer on/off appears as the first menu item.
5. Select Change to activate or deactivate. Function is activated ☑/deactivated ☐.
Safety precautions

Read the safety precautions and the user guide before use.

The device cannot be used in the event of a power failure. In case of a power failure it is also not possible to make emergency calls.

Emergency numbers cannot be dialled if the keypad/display lock is activated!

Use only rechargeable batteries that correspond to the specification (see list of permitted batteries www.gigaset.com/service). Never use a conventional (non-rechargeable) battery or other battery types as this could result in significant health risks and personal injury. Rechargeable batteries, which are noticeably damaged, must be replaced.

The handset must not be operated if the battery cover is open.

Do not use the devices in environments with a potential explosion hazard (e.g. paint shops).

The devices are not splashproof. For this reason do not install them in a damp environment such as bathrooms or shower rooms.

Use only the power adapter indicated on the device.

Whilst charging, the power socket must be easily accessible.

Remove faulty devices from use or have them repaired by our Service team, as these could interfere with other wireless services.

Do not use the device if the display is cracked or broken. Broken glass or plastic can cause injury to hands and face. Send the device to our Service department to be repaired.

Do not hold the rear of the handset to your ear when it is ringing or when speaker mode is activated. Otherwise you risk serious and permanent damage to your hearing.

The phone may cause interference in analogue hearing aids (humming or whistling) or cause them to overload. If you require assistance, please contact the hearing aid supplier.

Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment, e.g. doctor’s surgery. If you use a medical device (e.g. a pacemaker), please contact the device manufacturer. They will be able to advise you regarding the susceptibility of the device to external sources of high frequency energy (for the specifications of your Gigaset product see “Specifications”).
Getting started

Contents of the package

- One base
- One power adapter for the base
- One phone cable
- One handset
- One battery cover (rear cover for the handset)
- Two batteries
- One charging cradle incl. power adapter
- One user guide

Models with multiple handsets, per handset:

- One handset
- One charging cradle incl. power adapter
- Two batteries and one battery cover

The base station and charging cradle are designed for use in closed, dry rooms within a temperature range of +5 °C to +45 °C.

The device's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on furniture, contact marks on the surfaces cannot be completely ruled out.

Never expose the telephone to heat sources, direct sunlight or other electrical devices.

Protect your telephone from moisture, dust, corrosive liquids and vapours.

Base

- Insert the phone cable into the phone connection socket [1] at the rear of the base until it clicks into place.
- Insert the power cable from the power adapter into the other connection socket [2].
- Connect the power adapter [3]
- Connect the phone jack [4]

The network cable must **always be connected** in order to function, as the phone will not operate without a power supply.
Handset

Connecting the charging cradle

- Connect the flat plug of the power adapter [1].
- Plug the mains unit into your power socket [2].

To remove the plug from the charging cradle again:
- Disconnect the power adapter from the mains power supply.
- Press the release button [3].
- Pull out the plug [4].

Setting up the handset for use

The display is protected by a plastic film. ➤ Please remove the protective film!

Inserting the batteries

Only use rechargeable batteries, as this could otherwise result in significant health risks and personal injury. For example, the outer casing of the batteries could be destroyed or the batteries could explode. The device could also malfunction or be damaged as a result of using batteries that are not of the recommended type.

- Insert the batteries (for correct +/- direction, see diagram).
- Fit the battery cover from the top.
- Press the cover until it clicks into place.

To re-open the battery cover:
- Insert a fingernail into the notch at the top of the cover and slide it downwards.
Handset

Charging the batteries

- Charge the batteries fully prior to first use in the charging cradle or using a standard USB mains adapter.

The batteries are fully charged when the power icon disappears from the display.

- Batteries may heat up during charging. This is not dangerous.

Changing the display language

You can change the display language, if the telephone has been set to an incomprehensible language.

- Press the centre of the control key.
- Press the keys 9 and 5 slowly and successively... the language settings display appears, the set language (e.g. English) is highlighted ( = selected).
- To select a different language: Press the control key until the desired language is highlighted on the display, e.g. Francais press the key on the right directly underneath the display to activate the language.
- To revert to idle status: Press and hold the End call key.

Setting the date and time

Set the date/time so that the correct date and time can be assigned to incoming calls, and to enable the alarm to be used.

- Press the display key Time

or, if the date and time have already been set:

- 9 9 . . . use 4 to select Settings OK Date/Time OK

Batteries may heat up during charging. This is not dangerous.

After a time, the charging capacity of the batteries will decrease for technical reasons.

Handsets contained in the package have already been registered to the base. In the event that a handset is not registered however (indicated by "Please register handset"), register the handset manually (p. 48).
The active cursor position flashes \(\rightarrow\) . . . change cursor position with \(\leftarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\rightarrow\righ Getting to know your telephone

Using the telephone

Getting to know your telephone

Switch the handset on/off

Switch on:  ➔ When the handset is switched off, press and hold the End call key.
Switch off:  ➔ When the handset is in idle status, press and hold the End call key.

Lock/unlock the keypad

The keypad lock prevents any accidental use of the telephone.

Lock/unlock the keypad:  ➔ Press and hold
Keypad lock activated: the following symbol appears.

If a call is indicated on the handset, the keypad automatically unlocks and you can accept the call. It then locks again when the call is finished.

It is not possible to call emergency numbers either when keypad lock is activated.

Control key

The control key enables you to navigate the menus and input fields, and also to call up certain functions depending on the situation.

In the description below, the side of the control key (up, down, right, left) that you have to press in the different operating situations is marked in black, e.g. for "press right on the control key" or for "press the centre of the control key".

In idle status

Open the directory
Open the main menu
Open the list of handsets

In submenus, selection and entry fields

Confirm a function

During a conversation

Open the directory
Mute the microphone
Initiate an internal consultation call
Adjust the loudspeaker volume for receiver and handsfree mode
Getting to know your telephone

Display keys
The display keys perform a range of functions depending on the operating situation.

Display key icons → p. 69.

The display keys have a function preset by default in idle status. Change the assignment: → p. 59

Menu guidance
The functions of your telephone are displayed in a menu that consists of several levels. Menu overview → p. 71

Selecting/confirming functions
Confirm selection using OK or press the centre of the control key
One menu level back using Back
Change to idle status Press and hold
Switch function on/off using Change on / off
Activate/deactivate option using Select activated / not activated

Main menu
In idle status: Press the centre of the control key → . . . use the control key to select a submenu → OK

The main menu functions are shown in the display as icons. The icon for the selected function is highlighted in colour and the name of the associated function appears in the display header.
Getting to know your telephone

Submenus
The functions in the submenus are displayed as lists.
To access a function: use the control key to select a function OK
Return to the previous menu level:
- Press the display key Back
or
- Press the End call key briefly

Returning to idle status
- Press and hold the End call key

If a key is not pressed, after 2 minutes the display will automatically change to idle status.

Entering text

Input position
- Use to select an entry field. A field is activated when the cursor is blinking inside it.
- Use to move the position of the cursor.

Correcting incorrect entries
- Delete characters to the left of the cursor: Press briefly
- Delete words to the left of the cursor: Press and hold

Entering letters/characters
Multiple letters and numbers are assigned to each key between and and the key. As soon as a key is pressed, the possible characters are displayed at the bottom of the display. The selected character is highlighted.
- Selecting letters/numbers: Press the key briefly several times in succession
- Switch between lower case, upper case and number entry mode: Press the hash key
When editing a directory entry, the first letter and each letter following a space is automatically in upper case.
- Entering special characters: Press the star key . . . use to navigate to the desired character

The availability of special characters depends on the character set of the handset → Appendix.
Making calls

Making calls

› . . . use \[Enter\] to enter the number  Briefly press the Talk key \[Talk\]
or
› Press and hold the Talk key \[Talk\]  . . . use \[Enter\] to enter the number
Cancel dialling:  Press the End call key \[End Call\]

Information for Calling Line Identification:  \(\rightarrow\) p. 20
If the display backlight is deactivated, you can re-activate it by pressing any key. Digit keys that are pressed appear in the display for pre-dialling, other keys have no further function.

Dialling from the directory

› . . . use \[Menu\] to open the directory  . . . use \[Enter\] to select an entry  press the Talk key \[Talk\]
If multiple numbers are entered:
› . . . use \[Menu\] to select a number  press the Talk key \[Talk\] . . . the number is dialled

For fast access (quick dial): Assign numbers from the directory to the digit or display keys.

Dialling from the redial list

The redial list contains the 20 numbers last dialled with the handset.
› Briefly press the Talk key \[Talk\] . . . the redial list is opened  . . . use \[Enter\] to select an entry  press the Talk key \[Talk\]
If a name is displayed:
› View . . . the number is displayed  . . . use \[Menu\] to browse numbers if necessary  . . . when the desired number is reached press the Talk key \[Talk\]

Managing entries in the redial list

Briefly press the Talk key \[Talk\] . . . the redial list is opened  . . . use \[Enter\] to select an entry

Options . . . possible options:
  Copy an entry to the directory:  \[Copy\] Copy to Directory  \[OK\]
  Copy the number to the display:
    \[Display number\]  \[OK\]  . . . use \[Save\] to amend or add numbers if necessary . . .
    \[Save\] to save as a new entry in the directory
  Delete the selected entry:  \[Delete\] Delete entry  \[OK\]
  Delete all entries:  \[Delete\] Delete List  \[OK\]
Making calls

Dialling from the call list

The call lists (p. 30) contain the most recent accepted, outgoing and missed calls.

- Use \( \) to select \( \) Call Lists \( \) OK \( \)
- Use \( \) to select a list \( \) OK \( \)
- Use \( \) to select an entry \( \)

Press the Talk key \( \)

The call lists can be displayed directly by pressing the display key \( \) Calls if the relevant function has been assigned to the display key.

The Missed calls list can also be opened by pressing the Message key \( \).

One touch call

A saved number is dialled by pressing any key. This allows children who are not yet able to enter a number to call a certain number, for example.

Activate one touch call mode:

- Use \( \) to select \( \) Additional Features \( \) OK \( \)
- Use \( \) to activate \( \) One Touch Call \( \) OK \( \)
- Use \( \) to enter the number \( \)
- Use \( \) to save \( \)

Make a one touch call: \( \) Press any key . . . the saved number is dialled

Cancel dialling: \( \) Press the End call key \( \)

End one touch call: \( \) Press and hold the End call key \( \)

Incoming calls

An incoming call is indicated by ringing, by a display on the screen and by the flashing Talk key \( \).

Accept a call:
- Press the Talk key \( \)
- If \( \) Auto Answer \( \) is activated: \( \) Remove the handset from the charging cradle
- Forward to the answer machine: \( \) (for calls to the fixed line number)
- Accept a call on the headset

Switch off ringtone: \( \) Silence . . . the call can be accepted for as long as it is shown on the display
Making calls

Information about the caller

The caller’s phone number is displayed. If the caller’s number is saved in the directory, the name is displayed.

⚠ The caller’s number will be transferred (☞ p. 20).

Accepting/rejecting call waiting

A call waiting tone indicates a call during an external call. The number or the name of the caller is displayed if the phone number is transferred.

• Reject a call: Options ➤ Reject waiting call ➤ OK
• Accept a call: Accept ➤ speak to the new caller. The previous call is placed on hold.
• End the call, resume the on-hold call: Press the End call key 📞.

Making internal calls

• Press briefly ➤ the handset list is opened, this handset is indicated by < ➤ use ➤ to select handset or Call all (group call) ➤ Press the Talk key 📞

⚠ Multiple handsets have been registered to the base station (☞ p. 48).

Fast access for group call:

• Press briefly ➤ or press and hold 📞

Internal calls to other handsets registered to the same base station are free of charge.

You hear the busy tone if:
• There is already an internal connection
• The handset being called is not available (deactivated, outside of range).
• The internal call is not accepted within 3 minutes.

Internal consultation call/internal transfer

Call an external participant and transfer the call to an internal participant or hold a consultation call with him or her.

• the list of handsets is opened ➤ use ➤ to select a handset or Call all ➤ OK ➤ the internal participant(s) are called ➤ possible options:

Hold a consultation call:
• Speak to the internal participant

Return to the external call:
• Options ➤ End active call ➤ OK
Making calls

Transfer the external call when the internal participant has answered:
  ▶ Announce an external call  ➤ Press the End call key
Transfer the external call before the internal participant answers:
  ▶ Press the End call key . . . the external call is forwarded immediately. If the internal participant does not answer or the line is busy, the external call will automatically return to you.
End the internal call if the internal participant does not answer or the line is busy:
  ➤ End . . . You return to the external call

Accepting/rejecting call waiting
An external call arriving during an internal call is indicated with a call waiting tone. If the number is transferred, you will see the number or the name of the caller on the display.

• Rejecting a call: ➤ Reject
  The call waiting tone is turned off. The call continues to be indicated on the other registered handsets.
• Accepting a call: ➤ Accept . . . Speak to the new caller, the previous call is placed on hold.

Internal call waiting during an external call
If an internal participant attempts to call you while you are involved in an external or internal call, this call is shown on the display (Call Waiting).

• End display: ➤ Press any key
• Accept the internal call: ➤ End your current call
  The internal call is indicated in the usual way. You can accept the call.

Listening in to an external call
You are conducting an external call. An internal participant can listen in to this call and take part in the conversation (conference).

⚠️ The Listening In function must be activated.

Activating/deactivating internal listening in

▷  ➤ ... use to select ➤ Settings  ➤ OK  ➤ Telephony  ➤ OK  ➤ Listening In  ➤ Change ( = on)

Internal listening in
The line is engaged with an external call. Your screen will display information to that effect. You can listen in to the external call.

▷ Press and hold . . . all participants will hear a signal tone

Ending listening in

▷ Press . . . all participants will hear a signal tone
Making calls

During a conversation

Handsfree mode
Activating/deactivating handsfree mode during a call, when establishing a connection and when listening to the answer machine:

- Press the handsfree key [Handsfree].

Placing the handset in the charging cradle during a call:

- Press and hold down the handsfree key [Handsfree] for a further 2 seconds.

Call volume
Applies to the current mode, handsfree mode or handset (or headset when the handset has a headset connection):

- Use [Volume] to set the volume [Save].

The setting is automatically saved after around 3 seconds, even if [Save] is not pressed.

Muting the microphone
When the microphone is switched off, callers will no longer hear you.

Switch the microphone on/off during a call: [Microphone].
Provider-specific functions (network services)

Provider-specific functions (network services)

Network services depend on the network (analogue fixed line network or IP telephony) and on the network provider (service provider) and must be requested from that provider if required. You will find a description of the features on your network provider's website or at one of their store branches.

If you require assistance, please contact your network provider.

Requesting network services may incur additional costs. Please consult your network provider.

Network services fall into two distinct groups:

- Network services that are activated when in idle status for the following call or all subsequent calls (for example, "calling anonymously"). These are activated/deactivated via the Select Services menu.
- Network services that are activated during an external call, (for example, "consultation call", "swapping between two callers"). These are made available during an external call either as an option or by using a display key (e.g. Ext. Call).

To activate/deactivate the features, a code is sent to the telephone network.

- After a confirmation tone from the telephone network, press .

It is not possible to reprogram the network services.

Calling Line Identification

During a call, the caller's number is transferred (CLI = Calling Line Identification) and may be displayed on the recipient's display (CLIP = CLI presentation). If the caller's number is withheld, it will not be displayed to the recipient. The call is made anonymously (CLIR = CLI Restriction).

Caller display for incoming calls

Calling Line Identification

The caller's phone number is displayed. If the caller's number is saved in the directory, the name is displayed.

No Calling Line Identification

Instead of name and number, the following is displayed:

- **External**: No number has been transferred.
- **Withheld**: Caller has withheld Calling Line Identification.
- **Unavailable**: Caller has not authorised Calling Line Identification.
Provider-specific functions (network services)

**Calling Line Identification for outgoing calls**

**Switching Calling Line Identification on/off for all calls**
These settings apply to all registered handsets.

- ![ ] . . use ![ ] to select ![ ] Select Services ![ ] OK ![ ] All Calls Anonym. ![ ]
- ![ ] Change ( ![ ] = activated)

**Deactivating Calling Line Identification for the next call**

- use ![ ] to enter the number ![ ] Dial . . the connection is established without Calling Line Identification

---

**Call waiting during an external call**

During an **external** call, a call waiting tone indicates another external caller. If the number is being transferred, you will see the number or the name of the caller on the display.

Reject waiting caller:

- ![ ] Options ![ ] ![ ] Reject waiting call ![ ] OK . . the waiting caller hears the busy tone

Accept the waiting call:

- ![ ] Accept

Once you have accepted the waiting call, you can switch between the two callers (**"Call swapping"** ➔ p. 23) or speak to both simultaneously.

**Activating/deactivating call waiting**

- ![ ] . . use ![ ] to select ![ ] Select Services ![ ] OK ![ ] ![ ] Call Waiting ![ ] OK . . then
  - ![ ] Switch on/off: ![ ] ![ ] Status: . . use ![ ] to select On or Off
  - ![ ] Activate: ![ ] ![ ] Send

Call waiting is activated or deactivated for all registered handsets.
Provider-specific functions (network services)

Ringback

If busy/no answer
If a call recipient is unavailable, you can initiate a ringback.

- **If busy**: The ringback takes place as soon as the participant in question terminates the current call.
- **If no answer**: The ringback takes place as soon as the participant in question has made another call.

Initiate ringback

- Options ➤ Ringback ➤ OK ➤ Press the End call key

Cancelling ringback

- ➤ . . use ➤ to select ➤ Select Services ➤ OK ➤ Ringback Off ➤ OK . . You will receive a confirmation from the telephone network ➤ Press the End call key

You can only activate one ringback at a time. Activating a ringback will automatically cancel any ringback that is already active.

The ringback can only be received on the handset that activated the ringback.

If the ringback is indicated before you are able to cancel it: ➤ Press the End call key

Call divert

When diverting a call, the call is forwarded to another connection.

- ➤ . . use ➤ to select ➤ Select Services ➤ OK ➤ Call Divert ➤ OK . . then
  - Switch on/off: ➤ Status: . . use ➤ to select On or Off
  - Enter the number for call diverting:
    - ➤ To Phone Number ➤ . . use ➤ to enter the number
  - Set the time for call divert:
    - ➤ When ➤ . . use ➤ to select the time for call divert
      - All Calls: Calls are diverted immediately
      - No Answer: Calls are diverted if no one accepts the call within several rings.
      - When Busy: Calls are diverted if the line is busy.
  - Activate: ➤ Send

A connection is established to the telephone network . . a confirmation is sent from the telephone network ➤ Press the End call key

- Diverting calls may incur additional costs. Please consult your network provider.
Provider-specific functions (network services)

Calls with three participants

Consultation calls
Make another external call during an external call. The first call is placed on hold.

- **Ext. Call** .... use to enter the number of the second participant .... the active call is placed on hold and the second participant is called

If the second participant does not answer: **End**

**Ending a consultation call**

- **Options**  
  - **End active call**  
  - **OK** .... the connection to the first caller is reactivated

or

- Press the End call key .... a recall to the first participant is initiated

Call swapping
Switching between two calls. The other call is placed on hold.

- During an external call, dial the number of a second participant (consultation call) or accept a waiting caller .... the display shows the numbers and/or names of both call participants, the current participant is marked with .

- Use the control key to switch back and forth between participants

**Ending a currently active call**

- **Options**  
  - **End active call**  
  - **OK** .... the connection to the other caller is reactivated

or

- Press the End call key .... a recall to the first participant is initiated
Directory

The local directory is unique to the handset. However, it is possible to send entries to other handsets.

Opening the directory
- Briefly press \( \) in idle status
- or
- \( \) . . . use \( \) to select Directory \( \) OK

Directory entries

Number of entries: up to 400
Information: First name and surname, up to three telephone numbers, e-mail address, anniversary with alert, VIP ringtone with VIP icon, CLIP-picture
Length of the entries:
- Numbers: max. 32 digits
- First name, surname: max. 16 characters
- E-mail address: max. 64 characters

Creating an entry
- \( \) . . . use \( \) to switch between the entry fields and enter data for an entry:

Names/numbers:
- \( \) . . . use \( \) to enter first names and/or surnames, at least one number (personal, office, or mobile) and an e-mail address, if applicable

Anniversary:
- \( \) . . . use \( \) to activate/deactivate Anniversary \( \) . . . use \( \) to enter date and time \( \) . . . use \( \) to select type of alert (Visual only or a ringtone)

Caller Melody (VIP):
- \( \) . . . use \( \) to select the ringtone that will indicate a call from the participant . . . if a Caller Melody (VIP) has been assigned, the entry will appear in the directory with the VIP icon.

Caller Picture:
- \( \) . . . use \( \) to select a picture that is to be displayed during a call from the participant (Resource Directory).

Save entry: \( \) Save

Example

<table>
<thead>
<tr>
<th>New Entry</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>First Name:</td>
<td>Robert</td>
</tr>
<tr>
<td>Surname:</td>
<td></td>
</tr>
<tr>
<td>Phone (Home):</td>
<td>Abc</td>
</tr>
</tbody>
</table>

\( <C \) Save

The entry is only valid if it contains at least one number.
Searching for/selecting a directory entry

- . . use to browse searched names

or

- . . use to enter initial letters (max. 8 letters) . . the display jumps to the first name starting with these initial letters . . use to continue browsing to the desired entry, if needed

Displaying/changing an entry

- . . use to select entry . . use to select the field to be changed

or

- . . use to select an entry . . Options . . Edit entry . . OK

Deleting entries

Delete the selected entry: . . use to select an entry . . Options . . Delete entry . . OK

Delete all entries: . . Options . . Delete all . . OK . . Yes

Setting the order of the directory entries

Directory entries can be sorted by first name or surname.

- Options . . Sort by Surname / Sort by First Name

If no name was entered, the default telephone number is shown in the surname field. These entries appear at the beginning of the list, regardless of how the entries are sorted.

The sort order is as follows:

Space | Digits (0-9) | Letters (alphabetically) | Other characters.

Displaying the number of entries available in the directory

- Options . . Available Memory . . OK
Directory

Copying number to the directory

Copy numbers to the directory:
• From a list e.g. the call list or the redial listWhen dialling a number

The number is displayed or highlighted.

Press the display key or Options Copy to Directory OK ... possible options:
Create a new entry:
• <New Entry> OK ... use to select number type OK complete entry Save
Add number to an existing entry:
• ... use to select an entry OK ... use to select number type OK ... the number is entered or a prompt to overwrite an existing number is displayed ... if required, answer the prompt with Yes/No Save

Copying an entry/directory

The sending and receiving handset must both be registered to the same base station.
The other handset and the base station are able to send and receive directory entries.

An external call interrupts the transfer.

Caller pictures and sounds are not transferred. Only the date is transferred for an anniversary.

Both handsets support vCards:
• No entry with the name is available: a new entry is created.
• An entry with the name is already available: The entry is expanded to include the new numbers. If the entry contains more numbers than allowed by the recipient handset, a second entry is created with the same name.

The recipient handset does not support vCards:
A separate entry is created and sent for each number.

The sending handset does not support vCards:
A new entry is created on the receiving handset and the transferred number is added to the Phone (Home) field. If an entry with this number already exists, the copied number is discarded.

Copying individual entries
• ... use to select the desired entry Options Copy Entry OK ... to Internal OK ... use to select the receiving handset OK ... the entry is copied
Copy the next entry after successful transfer: Press Yes or No

Copying the entire directory
• Options Copy All OK ... to Internal OK ... use to select the receiving handset OK ... the entries are copied one after the other
Synchronising the phonebook with the PC address book
(Gigaset QuickSync)

The Gigaset QuickSync programme has been installed on the computer.
The handset is connected via a USB data cable to the computer.

Free download and further information at ➔ www.gigaset.com/quicksync
Message lists

Notifications about missed calls, messages on the answer machine/network mailbox and missed alarms are saved in the messages list.

As soon as a new message arrives, an advisory tone will sound. The Message key also flashes (if activated p. 29).

Icons for message types and the number of new messages are shown on the idle display.

Notification for the following message types is available:
- on the answer machine/network mailbox
- in the missed calls list
- in the missed alarms list

The icon for the network mailbox is always displayed, provided the number is stored in the telephone. The other lists are only displayed if they contain messages.

Display messages:
- Press the Message key . Messages lists that contain messages are displayed, Mailbox: is always displayed.
  - An entry is marked in **bold**: new messages are available. The number of new messages is shown in brackets.
  - An entry is **not** marked in bold: no new messages. The number of old messages is shown in brackets.
- Use to select a list OK ... the calls or messages are listed.
  - Network mailbox: The network mailbox number is dialled.
Activating/deactivating Message key flashing

Receipt of new messages is displayed by a flashing message key on the handset. This type of alert can be activated/deactivated for each message type.

In idle status:

- Press keys 123 4 5 6 7 8 9 0 .... the number 9 appears in the display .... use 0 1 2 3 4 5 6 7 8 9 to select the message type:
  - Messages on the network mailbox
  - Missed calls
  - Messages on the answer machine

.... the number 9 followed by the entry (e.g. 975) is displayed, the current setting for the select message type flashes in the entry field (e.g. 0) .... use 0 1 2 3 4 5 6 7 8 9 to set the action for the arrival of new messages:

  - The Message key flashes
  - The Message key does not flash

.... confirm selected setting with OK

or

.... return to idle display without making changes: Back
Call lists

The telephone saves different types of calls (missed, accepted and outgoing calls) in lists.

List entry

The following information is displayed in the list entries:

- The list type (in the header)
- Icon for the type of entry:
  - Missed calls
  - Accepted calls
  - Outgoing calls
  - Call on the answer machine
- Caller's number. If the number is stored in the directory, the name and number type (Phone (Home), Phone (Office), Phone (Mobile)) are shown instead. In the event of missed calls, the number of missed calls from this number is also shown in square brackets.
- Date and time of call (if set)

Opening the call list

Via the display key:
- Calls . . . use to select the list OK
Via the menu:
- . . . use to select Call Lists OK . . . use to select the list OK

Via the Message key (missed calls):
- Press the Message key Missed Calls: OK

Calling back a caller from the call list

- . . . use to select Missed Calls: OK

Additional options

- . . . use to select Call Lists OK . . . use to select list OK . . . possible options:
  - View an entry: . . . use to select entry View
  - Copy the number to the directory:
  - . . . use to select entry Options Copy to Directory
  - Delete an entry: . . . use to select entry Options Delete entry OK
  - Delete list: Options Delete List OK Yes

Local answer machine

Switching the answer machine on/off
The answer machine can be set to the following modes:

- **Answer & record**: The caller hears an announcement and is able to leave a message.
- **Answer only**: The caller hears an announcement but cannot leave a message.
- **Alternating**: The mode switches between Answer & record and Answer only at predetermined times.

*Switch on/off:*  
**Activation**: use \(\uparrow\) to select Answer Machine \(\rightarrow\) OK \(\rightarrow\) OK ... then

*Set mode:*  
**Mode**: use \(\uparrow\) to select mode

*Set the time for Alternating mode:*  
**Record from** or **Record until**: use \(\uparrow\) to enter hours/minutes in 4-digit format to set the start and end of the period. (The time must be set.)

*Save settings:*  
**Save**

Operation using the handset

Playing back messages

- Press and hold the \(1\text{sec}\) key

> Key 1 is assigned to the answer machine.

or

- Press the Message key \(\uparrow\) \(\rightarrow\) Answer Mach.: \(\rightarrow\) OK

or

- \(\uparrow\) \(\rightarrow\) \(\rightarrow\) to select Answer Machine \(\rightarrow\) OK \(\rightarrow\) Play Messages \(\rightarrow\) OK

The answer machine begins immediately with message playback. New messages are played back first.

Actions during playback

- Stop playback: \(2\) \(\rightarrow\) or use the display key: \(\rightarrow\) Options
- Continue playback: \(\uparrow\) Press \(2\) \(\rightarrow\) \(\rightarrow\) again or use the display key: \(\rightarrow\) Continue
- Go to the start of the current message: \(\uparrow\) Press key \(1\text{sec}\)
- Repeat the last 5 seconds of the message: \(\uparrow\) Press key \(4\)
- Skip to the next message: \(\uparrow\) Press \(\uparrow\) or key \(3\)
- Skip to previous message during the time stamp playback:  
  - Press \(\uparrow\) or key \(1\text{sec}\)
Local answer machine

- Skip to next message during the time stamp playback:  
  ▶ Press key 4
- Mark a message as "new": ▶ Press key *  
  or use the display key ▶ Options ▶ Mark as new ▶ OK
  An "old" message that has already been played back is displayed as a "new" message again.  
  The key on the handset flashes.
- Copying the phone number from a message to the directory: ▶ Options ▶ Copy to Directory ▶ complete entry using
- To delete a single message: ▶ Press Delete or key 0
- Delete all old messages: ▶ Options ▶ Delete old list ▶ OK ▶ Yes

Picking up a call from the answer machine

You can pick up a call while the answer machine is recording or is being operated remotely:  
▶ Press the Talk key or use display key Accept . . . recording is interrupted . . . speak to the caller
If three seconds of the message have already been recorded when you accept the call, the message is saved. The Message key on the handset flashes.

Forwarding an external call to the answer machine

An external call is indicated on the handset.  
The answer machine is activated, is not in use and still has enough memory.

▶ Press the display key ▶ . . . The answer machine starts immediately in answer and record mode and records the call. The set time for ring delay (p. 33) is ignored

Activating/deactivating two-way record

Pick up an external call with the answer machine:
▶ Inform the caller of the two-way recording ▶ Options ▶ Two-way Record ▶ OK . . . two-way recording is indicated in the display by an advisory text and placed in the answer machine list as a new message
End two-way recording: ▶ End

Activating/deactivating call screening

During recording of a message you can screen a call via the handset loudspeaker:  
Permanently switching call screening on/off:
▶ ▶ . . . use  to select Answer Machine ▶ OK ▶ Call Screening ▶ Change ( = on) . . . call screening is switched on/off for all registered handsets
Switching off call screening for the current recording:
▶ Press the display key Silence or the End call key ▶ . . . Pick up call using
Local answer machine

Operating when on the move (remote operation)
Access answer machine or switch answer machine on from another telephone (e.g. hotel, mobile phone).

⚠️ The system PIN is set to something other than 0000 and the other telephone has tone dialling (DTMF).

Switching on the answer machine
- Call the telephone connection and let it ring until the announcement "Please enter PIN" (approx. 50 seconds) ➡️ . . . use to enter the telephone’s system PIN within 10 seconds . . .
  - the answer machine is switched on, the remaining memory is announced, messages are played back

⚠️ Incorrect PIN is entered or entry takes too long (more than 10 seconds): The connection is interrupted. The answer machine will remain deactivated.

The answer machine cannot be deactivated remotely.

Checking the answer machine

⚠️ The answer machine is activated.

- Call the telephone connection ➡️ . . . during the announcement press key ➡️ . . . playback of the announcement is interrupted ➡️ Enter system PIN

You are informed whether any new messages have been recorded. Message playback begins.

The answer machine is operated using the following keys:

- During the time stamp playback: Skip to previous message.
- During message playback: Go to the start of the current message.

- Pause playback. Press again to resume.
- After a pause of approx. 60 seconds, the connection is ended.

- Go to the next message.

- Repeat the last 5 seconds of the message playback.

- During message playback: Delete current message.

- Change the status of a previously played back message to "new".

The next message starts to play. The remaining memory is announced at the end of the last message.
Local answer machine

Cancelling remote operation

- Press the End call key  or replace the receiver

The answer machine will terminate the connection under the following circumstances:
- The entered system PIN is incorrect.
- There are no messages on the answer machine.
- After the remaining memory announcement.

Settings

Recording a personal announcement/advisory message

The phone is supplied with pre-recorded announcements for announcement and advisory mode. If a personal announcement has not been recorded, the relevant pre-recorded announcement is used.

- use  to select Answer Machine  OK  Announcements  OK  . . . use  to switch between Record Announcement and Rec. Advisory Msg.  OK  OK  . . . record your announcement (at least 3 seconds) . . . possible options

Complete the recording and save:  End . . . the announcement is played back for you to check

Cancel the recording:  Press the End call key  or Back

Resume the recording:  OK

Repeat the recording:  New

Recording ends automatically if the maximum recording time of 170 seconds is exceeded or there is a break in speech for more than 2 seconds.

If the recording is cancelled, the default announcement is used.

The recording is cancelled or not started if the answer machine memory is full.
- Delete old messages . . . the answer machine switches back to Answer & record mode . . . repeat the recording, if needed

Listening to announcements/advisory messages

- use  to select Answer Machine  OK  Announcements  OK  . . . use  to switch between Play Announcement and Play Advisory Msg.  OK  . . . the announcement is played back . . . possible options:

Cancel playback:  Press the End call key  or Back

Cancel playback and record a new announcement:  New

If the answer machine’s memory is full, it will switch to Answer only mode.

- Delete old messages . . . the answer machine switches back to Answer & record . . . repeat any recording
Local answer machine

Deleting announcements/advisory messages

- use \( \rightarrow \) to select Answer Machine \( \rightarrow \) OK \( \rightarrow \) Announcements \( \rightarrow \) OK \( \rightarrow \) use \( \rightarrow \) to switch between Delete Announcement and Del. Advisory Msg. \( \rightarrow \) OK \( \rightarrow \) Yes

Once the announcement has been deleted, the relevant pre-recorded announcement is used again.

Setting recording parameters

- use \( \rightarrow \) to select Answer Machine \( \rightarrow \) OK \( \rightarrow \) Recordings \( \rightarrow \) OK \( \rightarrow \) then

  Maximum recording time:
  - Length: use \( \rightarrow \) to select timeframe

  Recording quality:
  - Quality \( \rightarrow \) use \( \rightarrow \) to switch between Long Play and Excellent (at higher quality, the max. recording time will decrease)

When should a call be picked up:

- Ring Delay \( \rightarrow \) use \( \rightarrow \) to select a time

Save settings:

- Save

The following apply when setting is Automatic:

- No new messages available: a call will be picked up after 18 seconds.
- New messages available: a call will be picked up after 10 seconds.

When checking messages remotely (p. 33) it is therefore apparent after 15 seconds that there are no new messages waiting. No call costs are incurred if the call is ended immediately.
Network mailbox

The network mailbox has been requested from the network provider.

Entering a number

- Use to select Answer Machine OK Network Mailbox OK
- Use to enter or amend the network mailbox number Save

To activate/deactivate the network mailbox use the phone number and a function code of your network provider. Please contact the network provider if you require any further information.

Playing back messages

- Press and hold 1
- Key 1 has been assigned to the network mailbox.

or

- Press the Message key Network Mailbox OK

or

- Use to select Answer Machine OK Play Messages OK

Listen to announcement out loud: Press the handsfree key

Set fast access for the answer machine

It is possible to call a network mailbox or the telephone's local answer machine directly by pressing key 1.

Assigning key 1, changing assignment

Settings for the fast access are device-specific. A different answer machine can be assigned to key 1 on each registered handset.

- Use to select Answer Machine OK Set Key 1 OK
- Use to select answer machine Select (= selected)

Return to idle status: Press and hold the End call key

Network mailbox

If no number has yet been saved for the network mailbox:

- Use to make a change in the line Network Mailbox Save
- Use to enter the number of the network mailbox Save
- Press and hold the End call key (idle status)
Additional functions

Calendar

You can remind yourself of up to 30 appointments.
In the calendar, the current day is outlined in white; on days with appointments, the numbers are displayed in colour. When a day is selected, it will be outlined in colour.

Saving appointments to the calendar

- Use to select Organizer, OK, Calendar, OK. Use to select desired day, OK.

Switch on/off:
- Activation: Use to select On or Off

Enter date:
- Date: The selected day has been pre-set. Use to enter new date

Enter time:
- Time: Use to enter hours and minutes of the appointment

Set name:
- Text: Use to enter a description of the appointment (e.g. evening meal, meeting)

Set alarm tone:
- Signal: Use to select the melody of the reminder alarm or deactivate the acoustic signal

Save appointment: Save

If an appointment has already been entered: Enter information for the appointment.

Notification of appointments/anniversaries

Anniversaries are transferred from the directory and displayed as an appointment. An appointment/anniversary is displayed in idle status and the selected ringtone plays for 60 seconds as a notification.
- Acknowledge and stop the reminder: Press the display key OFF

During a call, a reminder is indicated on the handset once with an advisory tone on the handset.
Calendar

Displaying missed appointments/anniversaries

The following appointments and anniversaries are saved in the Missed Alarms list:
• The appointment/anniversary call was not acknowledged.
• The appointment/anniversary was notified during a phone call.
• The handset was switched off at the time of the appointment/anniversary.

The last 10 entries are stored. The icon and the number of new entries are shown in the display. The most recent entry appears at the top of the list.

Opening the list

 Press the Message key Missed Alarms: OK . . . use to browse through the list of any appointments

or

 . . . use to select Organizer OK Missed Alarms OK

Each entry is displayed with the number or name, date and time. The most recent entry appears at the top of the list.
• Delete an appointment/anniversary: Delete

Displaying/changing/deleting stored appointments

 . . . use to select Organizer OK Calendar OK . . . use to select day OK . . . the appointment list is displayed . . . use to select date . . . possible options:
Display appointment details:
• View . . . The appointment settings are displayed
Change appointment: View Edit
or Options Edit entry OK
Activate/deactivate appointment:
• Options Activate/Deactivate OK
Delete appointment: Options Delete entry OK
Delete all appointments for a day:
• Options Delete all Appoints. OK Yes
Alarm clock

Activating/deactivating the alarm clock and setting the wake-up time

- Use to select Organizer OK Alarm Clock OK ... then
  - Switch on/off: Use to select On or Off
  - Setting the wake-up time: Use to enter hours and minutes
  - Set days: Use to switch between Monday-Friday and Daily
  - Set the volume: Use to set volume in 5 levels or select crescendo (increasing volume)
  - Set alarm: Use to select a ringtone for the alarm
  - Save settings: Use to save the settings

When the alarm clock is activated, the icon and the wake-up time are displayed in idle display.

Alarm

An alarm is shown on the display and indicated by the selected ringtone melody. The alarm sounds for 60 seconds. If no key is pressed, the alarm is repeated after 5 minutes. After the second repetition, the alarm call is deactivated for 24 hours.

During a call, the alarm is only indicated by a short tone.

Switching off /repeating the alarm after an interval (snooze mode)

Deactivate the alarm: Press OFF

Repeat the alarm (snooze mode): Press Snooze or any key ... the alarm is switched off and repeated after 5 minutes.
Baby monitor

When the baby monitor is switched on, the stored (internal or external) destination number is called as soon as a defined noise level is exceeded in the vicinity of the handset. The alarm to an external number is cancelled after approximately 90 seconds.

You can answer the alarm using the **Two Way Talk** function. This function is used to switch the loudspeaker of the handset located in the baby’s room on or off.

In baby monitor mode, incoming calls are only indicated on the display (without ringtone). The display backlight is reduced to 50%. Advisory tones are deactivated. All keys are locked, with the exception of the display keys and the ability to press the centre of the control key.

If you accept an incoming call, the baby monitor mode is suspended for the duration of the call, but the function **remains** activated. The baby monitor mode is not deactivated by switching the handset off and on again.

The handset should be positioned 1 to 2 metres away from the baby. The microphone must point towards the baby.

Activating the function reduces the operating time of your handset. For that reason, place the handset in the charging cradle if necessary.

The baby monitor is activated 20 seconds after switching on.

The answer machine for the destination number must be switched off.

After switching on:

- Test sensitivity.
- Test the connection, if the alarm is being forwarded to an external number.

**Activating and setting the baby monitor**

- Use **Additional Features** to select **Baby Monitor**
- Then

  - **Switch on/off:**
    - **Activation:** use **On** or **Off**
  
  - **Enter destination:**
    - **Send alarm to:** use **External** or **Internal**
    
    - **External:** use **Number** to select number or select a number from the directory:
    
    - **Internal:** use **Handset** to select the handset
  
  - **Activate/deactivate two-way talk:**
    - **Two Way Talk**
    
  - **Set microphone sensitivity:**
    - **Sensitivity** to select **High** or **Low**
  
  - **Save settings:**

The destination number is displayed in idle display when the baby monitor is activated.
Baby monitor

Deactivate baby monitor / cancel alarm

Deactivate the baby monitor: ▶ In idle status press the display key OFF
Cancel the alarm: ▶ Press the End call key during an alarm

Deactivate the baby monitor remotely

⚠️ The alarm is forwarded to an external destination number.
⚠️ The receiving phone supports tone dialling.

▶ Accept alarm call ▶ Press keys

The baby monitor is deactivated and the handset is in idle status. The baby monitor settings on the handset (e.g. no ringtone) will remain activated until you press the display key OFF.

Reactivate baby monitor with the same number: ▶ . . . Activation to switch back on ( p. 40) ▶ Save
ECO DECT

The device range is set to maximum as default. This guarantees the best connection between the handset and the base station. In idle status, the handset will not function (as it is not transmitting). Only the base station will maintain contact with the handset via a low wireless signal. During a call, the transmission power automatically adapts to the distance between the base station and handset. The smaller the distance to the base, the lower the radiation.

To reduce the radiation further:

Reducing radiation by up to 80%

- Use the settings to select ECO DECT and then select Maximum Range. Change the setting to "off".

The range is also reduced with this setting. It is not possible to use a repeater to increase the range.

Deactivating radiation in idle status

- Use the settings to select ECO DECT and then select No Radiation. Change the setting to "on".

To benefit from the advantages of the setting No Radiation, all registered handsets must support this feature.

If the setting No Radiation is activated and a handset is registered to the base that does not support this feature, No Radiation is automatically deactivated. As soon as this handset is de-registered, No Radiation will automatically be re-activated.

The wireless connection will only be established for an incoming or outgoing call and the connection will be delayed by about 2 seconds.

In order that a handset can establish a wireless connection with the base station more quickly for an incoming call, it must "listen" to the base station more often, i.e. scan the environment. This increases power consumption and reduces the standby and talk-time of the handset.

When No Radiation is activated, there will be no range display/range alarm on the handset. Contactability can be tested by attempting to establish a connection.

- Press and hold the Talk key. The ringing tone will sound.

Further information can be found at www.gigaset.com.
Protection against unwanted calls

Time control for external calls

Enter a time period during which the handset should suspend ringing to indicate external calls e.g. during the night.

Example

<table>
<thead>
<tr>
<th>Time Control</th>
</tr>
</thead>
<tbody>
<tr>
<td>For external calls:</td>
</tr>
<tr>
<td>On</td>
</tr>
<tr>
<td>Suspend ring. from:</td>
</tr>
<tr>
<td>22:00</td>
</tr>
<tr>
<td>Suspend ring. until:</td>
</tr>
<tr>
<td>07:00</td>
</tr>
<tr>
<td>Back</td>
</tr>
</tbody>
</table>

The time control only applies to the handset for which the setting is configured. The telephone will continue to ring for numbers that have been assigned to a VIP group in the directory.

Protection from anonymous callers

The handset will not ring if callers' numbers are not revealed. This setting can be applied to only one or to all registered handsets.

For one handset

Example

| Settings |
| OK |
| Ringtones (Handset) |
| OK |
| Time Control |
| OK |

Switch on/off:

use [ ] to select On or Off

Enter time:

use [ ] to switch between Suspend ring. from and Suspend ring. until . . . use [ ] to enter start and end in 4-digit format

Save:

[ ] Save

For all handsets

Save settings: [ ] Save

Example

| Settings |
| OK |
| Telephony |
| OK |
| Anonymous Calls |
| Edit ( = on) |

Protection Mode:

No Protection
Anonymous calls are indicated in the same way as identified numbers

Silent Call
The telephone will not ring and the incoming call will only appear in the display.

Block Call
The telephone will not ring and the incoming call will not appear in the display. The caller will hear the busy tone.
Protection against unwanted calls

Black list
When the black list function is activated, calls from black list numbers are not indicated or are only indicated in the display. These settings apply to all registered handsets.

Displaying/editing the black list

- Use [ ] to select [ ] Settings [ ] OK [ ] Telephony [ ] OK [ ] Black List [ ] Edit [ ] Blocked Numbers [ ] OK
  
  The list of blocked numbers is displayed. Possible options:

  Delete an entry: [ ] ... use [ ] to select an entry [ ] Delete ... the entry is deleted

Transferring a number from a call list to the black list

- Use [ ] to select [ ] Call Lists [ ] OK [ ] ... use [ ] to select Accepted calls / Missed calls [ ] OK [ ] ... use [ ] to select entry [ ] Options [ ] Copy to Blacklist [ ] OK

Setting the protection mode

- Use [ ] to select [ ] Settings [ ] OK [ ] Telephony [ ] OK [ ] Black List [ ] Edit [ ] Protection Mode [ ] OK [ ] ... use [ ] to select desired protection:
  
  **No Protection** All calls are indicated, including from callers whose numbers are on the black list.
  
  **Silent Call** The telephone will not ring and the incoming call will only appear in the display.
  
  **Block Call** The telephone will not ring and the incoming call will not appear in the display. The caller will hear the busy tone.

  Save settings: [ ] Save

Switch off ringtone when in charging cradle

The handset will not ring when placed in the charging cradle. The call is only indicated on the display.

- Use [ ] to select [ ] Settings [ ] OK [ ] Audio Settings [ ] OK [ ] Ringtones (Handset) [ ] OK [ ] Silent Charging [ ] Change ( [ ] = ringtone is switched off when in charging cradle)
Resource Directory

Sounds for ringtones and images that can be used as caller pictures (CLIP pictures) or as a screensaver are saved in the handset’s resource directory. A range of monophonic and polyphonic sounds and pictures have been pre-set but further images and sounds can be downloaded using a PC (→ Gigaset QuickSync).

Media types:

<table>
<thead>
<tr>

If insufficient memory is available, you must delete one or more pictures or sounds before others can be saved.

Manage CLIP pictures/sounds

- Use → to select Resource Directory → OK → possible options:
  - View CLIP-picture: Use → to select Caller Pictures → OK → use → to select picture → View → the selected picture is displayed
  - Play sound: Use → to select Sounds → OK → use → to select sound → the selected sound is played
  - Set volume: Use → to select volume → OK → use → to select
  - Rename picture/sound: Use → to select Select Caller Pictures / Sounds → OK → use → to select sound/image → Options → Rename → use → to delete name, use → to enter new name → Save → the entry is saved with the new name
  - Delete picture/sound: Use → to select Select Caller Pictures / Sounds → OK → use → to select sound/picture → Options → Delete entry → the selected entry is deleted

The relevant options are not available if a picture/sound cannot be deleted.

Check memory

Display the available memory for screensavers and CLIP-pictures.

- Use → to select Resource Directory → OK → Capacity → OK → the percentage of available memory is displayed
Additional functions using the PC interface

The Gigaset QuickSync program has been installed on the computer.
Free to download at ➔ www.gigaset.com/quicksync

QuickSync functions:
• Sync the handset’s directory with Microsoft® Outlook®
• Upload CLIP-pictures (.bmp) from the computer to the handset
• Upload pictures (.bmp) as screensavers from the computer to the handset
• Upload sounds (ringtone melodies) from the computer to the handset
• Update firmware
• Cloud synchronisation with Google™

◆ Connecting the handset with the computer via a USB data cable.

Connect the handset directly to the PC, not via a USB hub.

Transferring data
◆ Launch the Gigaset QuickSync program on the computer.
The message Data transfer in progress is shown on the display during data transfer between the handset and PC. During this time, it is not possible to enter any data using the keypad and incoming calls are ignored.

Carrying out a firmware update
◆ Connect the telephone and the PC using a USB data cable ➔ Launch Gigaset QuickSync ➔ Establish connection to the handset
◆ Start firmware update in Gigaset QuickSync … Information about this can be found in Gigaset QuickSync help feature
The update process may take up to 10 minutes (not including download time).

Do not interrupt the process and do not remove the USB data cable.

The data are first downloaded from the online update server. The time required for this depends on Internet connection speed.
The display on your telephone is switched off and the Message key [ ] and the Talk key [ ] will flash.
Once the update is complete, your telephone will automatically restart.

46
Additional functions using the PC interface

Procedure in the event of an error
If the update procedure fails or the telephone no longer functions properly after the update, repeat the update procedure:

- End the Gigaset QuickSync program on the PC
- Remove the USB data cable from the telephone
- Remove the battery
- Replace the battery

- Carry out the firmware update again as described above

If the update procedure fails more than once or it is no longer possible to connect to the PC, carry out the Emergency Update:

- End the Gigaset QuickSync program on the PC
- Remove the USB data cable from the telephone
- Remove the battery
- Press and hold keys 4 and 6 at the same time with the forefinger and middle finger
- Replace the battery
- Release keys 4 and 6 . . . the Message key and the Talk key will flash alternately
- Carry out the firmware update as described above

Always save pictures and sounds uploaded onto the handset on the PC, as they are deleted during an Emergency Update.
Multiple handsets

Expanding the functionality of the telephone

Multiple handsets
Up to six handsets can be registered to the base station.
Each registered device is assigned an internal number (1 – 6) and an internal name (INT 1 – INT 6). The number or name assigned can be changed.
If all internal numbers have already been assigned at the base station: de-register a handset that is no longer needed.

Registering the handset
A handset can be registered on up to four base stations.

Registration must be initiated on the base station and on the handset.
Both must be carried out within 60 secs.

On the base station
Press and hold the Registration/Paging key on the base station (approx. 3 secs)

On the handset
. . . use to select Settings OK Registration OK Register
. . . use to select the base station (if the handset has already been registered to four base stations) OK . . . an available base station is sought . . . Enter system PIN (default setting: 0000) OK

Once registration is complete, the handset returns to idle status. The internal number of the handset appears in the display, e.g. INT 1. If not, repeat the procedure.

Maximum possible number of handsets registered to the base station (all internal numbers assigned): The handset with the highest internal number is replaced by the new one. If this is not possible, because a conversation is being held on this handset, for example, the message No available internal number is given. De-register a handset that is no longer required and repeat the registration procedure.
Multiple handsets

Registering a handset to multiple base stations

Your handset can be registered to up to four base stations. The active base station is the base station to which the handset was last registered. The other base stations remain saved in the list of available base stations.

- Use Down to select Settings OK Registration OK Select Base OK

- Possible options:

  - **Change active base station:**
    - Use Down or Best Base to select base station
    - Select ( = selected)
    - **Best Base:** The handset chooses the base station with the best reception as soon as it loses connection to the current base station.

  - **Change name of a base station:**
    - Use Down to select a base station
    - Select ( = selected)
    - Name
    - Change name
    - Save

De-registering the handset

- Use Down to select Settings OK Registration OK De-register Handset OK

- The handset being used is selected

- Use Down to select a different handset if desired

- OK

- Enter system PIN if desired

- OK

- Confirm de-registration with Yes

If the handset is still registered to other bases, it switches to the base with the best reception (Best Base).

Locating a handset (Paging)

- Briefly press the Registration/paging key on the base station.

All handsets will ring at the same time (“paging”), even if ringtones are switched off. Exception: handsets on which the baby monitor is activated.

Ending the search

- Briefly press the registration/paging key on the base station

  - Press the End call key on the handset

  - Press the display key Silence on the handset

  - No action. After approx. 30 seconds, the paging call will end automatically.
Changing the handset name and internal number

When registering multiple handsets, they will automatically be assigned the names "INT 1", "INT 2" etc. Each handset will automatically be assigned the lowest unassigned internal number. The internal number is shown as the name of the handset on the display e.g. INT 2. You can change the names and the numbers of handsets. The name must not exceed 10 characters in length.

¤  The list of handsets is opened, the current handset is highlighted with <  . . . use  to select a handset  . . . possible options:
   - Edit name:  Options  Rename  OK  . . . use  to delete the current name  . . . use  to enter a new name  OK
   - Edit number:  Options  Edit Handset No.  OK  . . . use  to select a number  Save

Repeater

A repeater increases the receiving range between the Gigaset handset and the base station. The registration procedure for a repeater depends on the version of the repeater being used.

• Repeater without encryption, e.g. Gigaset repeater prior to Version 2.0
• Repeater with encryption, e.g. Gigaset repeater later than Version 2.0

Further information about the Gigaset repeater can be found in the repeater user guide and at www.gigaset.com.

Repeater without encryption

Activate Maximum Range/deactivate No Radiation

¤  . . . use  to select  Settings  OK  ECO DECT  OK  Maximum Range  Change ( = on)  No Radiation  Change ( = off)

Deactivate encryption

¤  . . . use  to select  Settings  OK  System  OK  Encryption  Change ( = deactivated)

Registering a repeater

¤  Connect the repeater to the mains power supply  Press and hold the Registration/paging key on the telephone base station (min. 3 secs)  . . . the repeater is automatically registered

It is possible to register more than one Gigaset repeater.
Operation with a router

Repeater with encryption

Encryption is activated (default setting).

Registering a repeater

- Connect the repeater to the mains power supply
- Press and hold the Registration/paging key on the telephone base station (min. 3 secs) . . . the repeater is automatically registered

Up to 2 repeaters may be registered.

The ECO DECT function Maximum Range is activated and the No Radiation function is deactivated. The settings cannot be changed whilst the repeater is registered.

As soon as a repeater is registered, it will appear in the repeater list under

- Settings ➤ System ➤ Repeater

De-registering a repeater

- ➤ . . . use to select
- ➤ Settings ➤ OK ➤ System ➤ OK ➤ Repeater ➤ OK ➤ . . . use to select repeater ➤ De-reg. ➤ Yes

Operation with a router

When operating on the analogue connection of a router, any echoes that may occur can be reduced by activating XES mode 1 (XES = eXtended Echo Suppression).

If the XES mode 1 does not sufficiently suppress the occurring echoes: activate XES mode 2.

- ➤ . . . press one of the following keys
  - 0 ➤ OK Normal mode
  - 1 ➤ OK XES mode 1
  - 2 ➤ OK XES mode 2

If there are no problems with echoes, the normal mode (factory settings) should be activated.
Operation with a PABX

To find out which settings are required for a PABX, please refer to the PABX user guide.

Setting Tone or Pulse dialling mode

- Use [ ] to select Settings [ ] OK [ ] Telephony [ ] OK [ ] Dialling Mode [ ] OK [ ] ... Use [ ] to select Tone or Pulse [ ] Select ( = selected)

Setting the flash time

- Use [ ] to select Settings [ ] OK [ ] Telephony [ ] OK [ ] Recall [ ] OK [ ] ... Possible flash times are listed [ ] Use [ ] to select flash time [ ] Select ( = selected)

Saving an access code (outside line code)

Setting the access code (e.g. "0") for dialling using the fixed line network.

- Use [ ] to select Settings [ ] OK [ ] Telephony [ ] OK [ ] Access Code [ ] OK [ ] ... Then

Fixed line network: Access external line with: Use [ ] to enter or change access code, max. 3 digits

Rule: For [ ] ... Use [ ] to select when the access code should be dialled

Call Lists: The access code will only prefix numbers from a list (list of answered calls, list of missed calls, answer machine list).

All calls: The access code prefixes all numbers dialled.

Off: The access code is deactivated and does not prefix any telephone number.

Save: Save

Setting pauses

- Use [ ] [ ] [ ] [ ] [ ] [ ] [ ] to enter or change access code, max. 3 digits

Pause after line seizure: 1 sec [ ] 6 [ ] 1 [ ] OK

3 secs [ ] 6 [ ] 2 [ ] OK

7 secs [ ] 6 [ ] 3 [ ] OK

Pause after Recall key: 800 ms [ ] 2 [ ] 1 [ ] OK

1600 ms [ ] 2 [ ] 2 [ ] OK

3200 ms [ ] 2 [ ] 3 [ ] OK

Dialling pause (pause after access code): 1 sec [ ] [ ] 1 [ ] 1 [ ] 1 [ ] OK

2 secs [ ] [ ] 1 [ ] 1 [ ] 2 [ ] OK

3 secs [ ] [ ] 1 [ ] 1 [ ] 3 [ ] OK

6 secs [ ] [ ] 1 [ ] 1 [ ] 4 [ ] OK
Operation with a PABX

To enter dialling pause when dialling:
- Press and hold the hash key ... a P appears in the display.

Switching temporarily to tone dialling (Tone)
After dialling the external number or after establishing the connection:
- Press the Star key briefly.
After the call ends, pulse dialling is automatically reactivated.
Handset

Adjusting the telephone settings

Handset

Changing the language

▷ [ ] [ .. use ( ) to select Settings OK ( ) Language OK ] .. use ( ) to select language OK Select ( = selected)

If the handset has been set to an incomprehensible language:

▷ [ ] [ .. Press the keys [9 5] slowly one after the other .. use ( ) to select the correct language .. press the right display key

Display and keypad

Screensaver

A digital or analogue clock and a range of pictures can be selected to be displayed as a screensaver when in idle status.

▷ [ ] [ .. use ( ) to select Settings OK ( ) Display & Keypad OK ] ( ) Screensaver Edit ( = on) .. then

Switch on/off: Activation: .. use ( ) to select On or Off
Select screensaver: Selection .. use ( ) to select a screensaver (Digital Clock / Analog Clock / <Pictures> / Slideshow)

View screensaver: View
Save selection: Save

The screensaver is activated approx. 10 seconds after the display has changed to idle status.

End screensaver

▷ Press the End call key ( ) briefly .. the display changes to idle status

Large font

Show text and icons in call lists and in the directory in a larger size in order to improve legibility. Only one entry is shown in the display and names are abbreviated if necessary.

▷ [ ] [ .. use ( ) to select Settings OK ( ) Display & Keypad OK ( ) Large Font Change ( = on)
Handset

**Colour scheme**

You can choose from a range of colour combinations for the display.

- Use Settings \(\Rightarrow\) Display & Keypad \(\Rightarrow\) Colour Schemes \(\Rightarrow\) Select \(\Rightarrow\) to select the desired colour scheme.

**Display backlight**

The display backlight always illuminates when the handset is taken out of the base station/charging cradle or when a key is pressed. Any digit keys that are pressed appear on the display for pre-dialling.

Switch the display backlight on/off when in idle status:

- Use Settings \(\Rightarrow\) Display & Keypad \(\Rightarrow\) Display Backlight \(\Rightarrow\) OK \(\Rightarrow\) then

  - In Charger: use \(\Rightarrow\) to select On or Off

  - Out of Charger: use \(\Rightarrow\) to select On or Off

Save selection: Use Save

The handset's standby time may be significantly reduced if the display backlight is switched on.

**Keypad illumination**

- Use Settings \(\Rightarrow\) Display & Keypad \(\Rightarrow\) Key Illumination \(\Rightarrow\) Change \(\Rightarrow\) = on

**Activating/deactivating automatic keypad lock**

Automatically lock the keypad when the handset has been in idle status for around 15 seconds.

- Use Settings \(\Rightarrow\) Display & Keypad \(\Rightarrow\) Auto Keypadlock \(\Rightarrow\) Change \(\Rightarrow\) = on

**Activating/deactivating Auto Answer**

When set to Auto Answer, the handset accepts an incoming call as soon as it is removed from the charging cradle.

- Use Settings \(\Rightarrow\) Telephony \(\Rightarrow\) Auto Answer \(\Rightarrow\) Change \(\Rightarrow\) = on

Regardless of the Auto Answer setting, the connection ends as soon as you place the handset back in the charging cradle. Exception: Press and hold the handsfree key \(\Rightarrow\) for a further 2 seconds while placing the handset in the charging cradle.
Handset

Changing the earpiece and handsfree volume
You can set the volume of the earpiece and speaker at 5 levels independently of each other.

During a conversation

›  Handset Volume ➤ ... use  to select volume ➤ Save ... the setting is saved

i Without saving, the setting is automatically saved after around 3 seconds.

In idle status

›  ➤ ... use  to select ➤ Settings ➤ OK ➤ Audio Settings ➤ OK ➤ Handset Volume ➤ OK ... then

System

Changing the system PIN
Secure the telephone’s system settings with a system PIN. You have to enter the system PIN when you register or de-register a handset, change local network settings, perform a firmware update or reset the phone to default settings.

Change the telephone’s 4-digit system PIN (default setting: 0000):

- Use \( \text{Settings} \) \( \text{OK} \) \( \text{System} \) \( \text{OK} \) \( \text{System PIN} \) \( \text{OK} \) to select settings.
- Use \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) to enter the current PIN (if other than 0000).
- Use \( \text{Save} \) to enter new system PIN.

Resetting system PIN
Resetting the base station to the original PIN 0000:
- Unplug the network cable from the base station.
- Press and hold the Registration/Paging key on the base station.
- At the same time reconnect the network cable to the base station.
- Press and hold the key for at least 5 secs... the base station is reset and the system PIN is set to 0000.

- All handsets are de-registered and must be re-registered. All settings are returned to default settings.

Restoring the phone to default settings
When the settings are reset:
- the date and time are retained,
- handsets are still registered,
- the system PIN is retained,
- Maximum Range is activated and No Radiation is deactivated.
- Use \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) to select settings.
- Use \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) \( \text{\#\#\#\#} \) to enter system PIN.
- Use \( \text{Save} \) to enter new system PIN.
- Use \( \text{Yes} \) to enter system PIN.
- The base station is restarted. The restart takes around 10 seconds.

All handsets are de-registered and must be re-registered. All settings are returned to default settings.
Questions and answers

Appendix

Questions and answers
Possible solutions are available online at ➔ www.gigaset.com/service

Troubleshooting

The display is blank.
• The handset is not activated. ➔ Press and hold 0
• The battery is empty. ➔ Charge the battery or replace it

"No Base" flashes on the display.
• The handset is outside the range of the base station. ➔ Move the handset closer to the base station
• The base is not activated. ➔ Check the base station power adapter
• The base station’s range is reduced because Maximum Range is deactivated.
  ➔ Activate Maximum Range or reduce the distance between the handset and base station

"Please register handset" flashes on the display.
• The handset has not yet been registered or was de-registered due to the registration of an additional hand-
  set (more than 6 DECT registrations). ➔ Re-register the handset

The handset does not ring.
• The ringtone is deactivated. ➔ Activate ringtone
• Call forwarding is set. ➔ Deactivate call forwarding
• The phone does not ring if the caller has withheld his number.
  ➔ Activate the ringtone for anonymous calls.
• The phone does not ring during a specific period or for certain numbers.
  ➔ Check the time control for external calls

No ringtone/dial tone from the fixed line network.
• Incorrect phone cable. ➔ Please always use the phone cable supplied or ensure that the pin connections
  are correct when purchasing from a retailer.

The connection always terminates after approx. 30 seconds.
• A repeater (earlier than Version 2.0) has been activated or deactivated. ➔ Switch the handset off and back
  on again.

Error tone sounds after system PIN prompt.
• You have entered the wrong system PIN. ➔ Repeat the process, reset the system PIN to 0000 if required
Forgotten system PIN.
  ➔ Reset the system PIN to 0000

The other party cannot hear you.
• The handset is “muted”. ➔ Activate the microphone again

Some of the network services do not work as specified.
• Features are not enabled. ➔ Contact the network provider for details.
Questions and answers

The caller's number is not displayed.
• Calling Line Identification (CLI) is not enabled for the caller. ▶ The caller should ask the network provider to enable Calling Line Identification (CLI).
• Calling Line Identification Presentation (CLIP) is not supported or enabled by the network provider. ▶ Ask the network provider to enable Caller Line Identification Presentation (CLIP).
• The telephone is connected via a PABX or a router with an integrated PABX (gateway) that does not transmit all information.
  ▶ Reset the system: Briefly pull out the power plug. Reinsert the plug and wait until the device restarts.
  ▶ Check the settings on the PABX and activate phone number display, if necessary. To do this, search for terms such as CLIP, calling line identification, telephone number identification, caller ID, ... in the system user guide or ask the system manufacturer.

You hear an error tone when keying in (descending tone sequence).
• Action has failed/invalid input. ▶ Repeat the process. Read the display and refer to the user guide if necessary.

You cannot listen to messages on the network mailbox.
• Your PABX is set to pulse dialling. ▶ Set your PABX to tone dialling.

No time is specified for a message in the call list.
• Date/time are not set. ▶ Set the date/time.

Answer machine

No time is specified for a message in the call list.
• Date/time are not set. ▶ Set the date/time

The answer machine reports "Invalid PIN" during remote operation.
• You have entered the wrong system PIN. ▶ Repeat input of system PIN
• The system PIN is still set to 0000. ▶ Set the system PIN to something other than 0000.

The answer machine is not recording any messages/has switched to answer only mode.
• The memory is full. ▶ Delete old messages ▶ Listen to new messages and then delete

Please have your proof of purchase ready when calling.

Please note that if the Gigaset product is not sold by authorised dealers in the national territory the product may not be fully compatible with the national telephone network. It is clearly specified on the box near the CE mark for which country/countries the equipment has been developed. If the equipment is used in a manner inconsistent with this advice or with the instructions of the manual and on the product itself, this may have implications on the conditions for warranty or guarantee claims (repair or exchange of product). In order to make use of the warranty, the product purchaser is asked to submit a receipt which proves the date of purchase (date from which the warranty period starts) and the type of goods that have been purchased.

Guarantee Certificate - United Kingdom and Ireland
Without prejudice to any claim the user (customer) may have in relation to the dealer or retailer, the customer shall be granted a manufacturer’s Guarantee under the conditions set out below:

• In the case of new devices and their components exhibiting defects resulting from manufacturing and/or material faults within 24 months of purchase, Gigaset Communications shall, at its own option and free of charge, either replace the device with another device reflecting the current state of the art, or repair the said device. In respect of parts subject to wear and tear (including but not limited to, batteries, keypads, casing), this warranty shall be valid for six months from the date of purchase.

• This Guarantee shall be invalid if the device defect is attributable to improper care or use and/or failure to comply with information contained in the user manuals. In particular claims under the Guarantee cannot be made if:
  • The device is opened (this is classed as third party intervention)
  • Repairs or other work done by persons not authorised by Gigaset Communications.
  • Components on the printed circuit board are manipulated
  • The software is manipulated
  • Defects or damage caused by dropping, breaking, lightning or ingress of moisture. This also applies if defects or damage was caused by mechanical, chemical, radio interference or thermal factors (e.g.: microwave, sauna etc.)
  • Devices fitted with accessories not authorised by Gigaset Communications
Manufacturer's advice

• This Guarantee shall not apply to or extend to services performed by the authorised dealer or the customer themselves (e.g. installation, configuration, software downloads). User manuals and any software supplied on a separate data medium shall be excluded from the Guarantee.
• The purchase receipt, together with the date of purchase, shall be required as evidence for invoking the Guarantee. Claims under the Guarantee must be submitted within two months of the Guarantee default becoming evident.
• Ownership of devices or components replaced by and returned to Gigaset Communications shall vest in Gigaset Communications.
• The guarantee applies to new devices purchased in the European Union. For Products sold in the United Kingdom and in the Republic of Ireland the Guarantee is issued by: Gigaset Communications UK Limited, 2 White Friars, Chester, CH1 1NZ.
• Any other claims resulting out of or in connection with the device shall be excluded from this Guarantee. Nothing in this Guarantee shall attempt to limit or exclude a Customers Statutory Rights, nor the manufacturer's liability for death or personal injury resulting from its negligence.
• The duration of the Guarantee shall not be extended by services rendered under the terms of the Guarantee.
• Insofar as no Guarantee default exists, Gigaset Communications reserves the right to charge the customer for replacement or repair.
• The above provisions do not imply a change in the burden of proof to the detriment of the customer. To invoke this Guarantee, please contact the Gigaset Communications helpdesk. This number is also to be found in the accompanying user guide.

Exclusion of liability

Your handset’s display consists of pixels. Each pixel consists of three sub-pixels (red, green, blue). It may be the case that a sub-pixel is missing or has a colour deviation.
A warranty claim is only valid if the maximum number of permitted pixel errors is exceeded.

<table>
<thead>
<tr>
<th>Description</th>
<th>Maximum number of permitted pixel errors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colour illuminated sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Dark sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Total number of coloured and dark sub-pixels</td>
<td>1</td>
</tr>
</tbody>
</table>

Signs of wear on the display and casing are excluded from the warranty.

Manufacturer’s advice

Authorisation
This device is intended for analogue phone lines in the UK and on the Irish network. Country-specific requirements have been taken into consideration.
Hereby, Gigaset Communications GmbH declares that the radio equipment type Gigaset CL660A is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address: www.gigaset.com/docs.
This declaration could also be available in the "International Declarations of Conformity" or "European Declarations of Conformity" files.
Therefore please check all of these files.
Manufacturer's advice

Environment

Our environmental statement
We at Gigaset Communications GmbH are aware of our social responsibility. That is why we actively take steps to create a better world. In all areas of our business – from product planning and production to sales and waste of disposal – following our environmental conscience in everything we do is of utmost importance to us. Learn more about our earth-friendly products and processes online at www.gigaset.com.

Environmental management system
Gigaset Communications GmbH is certified pursuant to the international standards ISO 14001 and ISO 9001.
- ISO 14001 (Environment): Certified since September 2007 by TÜV SÜD Management Service GmbH.
- ISO 9001 (Quality): Certified since 17/02/1994 by TÜV SÜD Management Service GmbH.

Disposal
Batteries should not be disposed of in general household waste. Observe the local waste disposal regulations, details of which can be obtained from your local authority.
All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
This crossed-out wheeled bin symbol on the product means the product is covered by the European Directive 2012/19/EU.
The correct disposal and separate collection of your old appliance will help prevent potential negative consequences for the environment and human health. It is a precondition for reuse and recycling of used electrical and electronic equipment.
For more detailed information about disposal of your old appliance, please contact your local council refuse centre or the original supplier of the product.

Care
Wipe the device with a damp cloth or an antistatic cloth. Do not use solvents or microfibre cloths.
Never use a dry cloth; this can cause static.
In rare cases, contact with chemical substances can cause changes to the device's exterior. Due to the wide variety of chemical products available on the market, it was not possible to test all substances.
Impairments in high-gloss finishes can be carefully removed using display polishes for mobile phones.

Contact with liquid
If the device comes into contact with liquid:
1. Disconnect the power supply.
2. Remove the batteries and leave the battery compartment open.
3. Allow the liquid to drain from the device.
4. Pat all parts dry.
5. Place the device in a dry, warm place for at least 72 hours (not in a microwave, oven etc.) with the battery compartment open and the keypad facing down (if applicable).
6. Do not switch on the device again until it is completely dry.
When it has fully dried out, you will normally be able to use it again.
Technical data

Batteries
Technology: 2 x AAA NiMH
Voltage: 1.2 V
Capacity: 750 mAh

Handset operating times/charging times
The operating time of your Gigaset depends on the capacity of the battery, its age and the way it is used. (All times are maximum possible times.)

<p>| | |</p>
