User guide online on your smartphone or tablet:
  Download the Gigaset Help app
Gigaset HX – the universal handset

With your Gigaset HX handset, you have purchased a high-quality, multifunctional and future-proof device.

You can use your handset with several different DECT bases.

On a Gigaset base

Connect your HX handset to a Gigaset base and use the many features with the quality you would expect from Gigaset.

If your Gigaset base is IP-compatible, you can also make broadband calls using your HX handset with the highest voice quality (HDSP).

In this guide, all functions that are available for your HX handset are detailed/described. The complete functionality with Gigaset bases is described in the guide relevant to your Gigaset system.

All Gigaset user guides can be found at www.gigaset.com/manuals or online on your smartphone or tablet:

download the Gigaset Help app from the app store or google play.

On a DECT/GAP telephone or router from another manufacturer

The handset also functions with DECT/GAP telephones from other manufacturers, of course, as well as DECT routers. Additional information can be found at www.gigaset.com/compatibility.

On DECT routers with CAT-iq 2.0

Your Gigaset HX handset is certified in accordance with the DECT/CAT-iq 2.0 standard. As a result, operation with a DECT router with CAT-iq functionality is possible.

Handset functions on a CAT-iq router (amongst others):

• full access to the central directory on the router as well as the local directory integrated in the handset,
• convenient calling and using of call lists,
• using several lines and call numbers *),
• enjoy broadband calls in guaranteed/certified HD-Voice™ quality.

Details can be found in the relevant user guide for your router.

Additional information regarding your HX handset can be found at www.gigaset.com/hx
Details regarding the functionality of the handset on various bases and routers can be found at www.gigaset.com/compatibility

*) The relevant scope of the function is dependent on the country, network and router
Overview

4 End call key, On/off key
End call; cancel function;
Go back one menu level
Return to idle status
Switch the handset on and off
(in idle status)

Procedures

Example: Switching Auto answer on/off

- . . . use 🔗 to select Settings 🔷 OK 🔷 Telephony 🔷 OK 🔷 Auto Answer 🔷 Change (☑ = on)

Step | Follow this procedure
--- | ---
- | When in idle status press the centre of the control key. The main menu opens.
- | Navigate to the icon using the control key 🔗. Select OK to confirm. The submenu Settings opens.
- | Select the Telephony entry using the control key 🔗. Select OK to confirm. The submenu Telephony opens.
- | The function to switch Auto answer on/off appears as the first menu item.
- | Select Change to activate or deactivate. Function is activated ☑ / deactivated ☐.
### Safety precautions

Read the safety precautions and the user guide before use.

The device cannot be used in the event of a power failure. In case of a power failure it is also **not** possible to make emergency calls.

Emergency numbers **cannot** be dialled if the keypad/display lock is activated!

Use only **rechargeable batteries** that correspond to the specification (see list of permitted batteries [www.gigaset.com/service](http://www.gigaset.com/service)). Never use a conventional (non-rechargeable) battery or other battery types as this could result in significant health risks and personal injury. Rechargeable batteries, which are noticeably damaged, must be replaced.

The handset must not be operated if the battery cover is open.

Do not use the devices in environments with a potential explosion hazard (e.g. paint shops).

The devices are not splashproof. For this reason do not install them in a damp environment such as bathrooms or shower rooms.

Use only the power adapter indicated on the device.

Whilst charging, the power socket must be easily accessible.

Remove faulty devices from use or have them repaired by our Service team, as these could interfere with other wireless services.

Do not use the device if the display is cracked or broken. Broken glass or plastic can cause injury to hands and face. Send the device to our Service department to be repaired.

Do not hold the rear of the handset to your ear when it is ringing or when speaker mode is activated. Otherwise you risk serious and permanent damage to your hearing.

The phone may cause interference in analogue hearing aids (humming or whistling) or cause them to overload. If you require assistance, please contact the hearing aid supplier.

Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment, e.g. doctor’s surgery. If you use a medical device (e.g. a pacemaker), please contact the device manufacturer. They will be able to advise you regarding the susceptibility of the device to external sources of high frequency energy (for the specifications of your Gigaset product see “Specifications”).
Getting started

Contents of the package

- One handset
- One battery cover
- Two batteries
- One charging cradle including power adapter
- One user guide

The charging cradle is designed for use in enclosed, dry rooms within a temperature range of +5 °C to +45 °C.

The device's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on furniture, contact marks on the surfaces cannot be completely ruled out.

Never expose the telephone to heat sources, direct sunlight or other electrical devices.

Protect your telephone from moisture, dust, corrosive liquids and vapours.

Connecting the charging cradle

- Connect the flat plug of the power adapter [1].
- Plug the mains unit into your power socket [2].

To remove the plug from the charging cradle again:

- Disconnect the power adapter from the mains power supply.
- Press the release button [3].
- Pull out the plug [4].

Availability and operation of the functions may differ on your telephone.
Getting started

Setting up the handset for use
The display is protected by a plastic film. Please remove the protective film!

Inserting the batteries

Only use rechargeable batteries, as this could otherwise result in significant health risks and personal injury. For example, the outer casing of the batteries could be destroyed or the batteries could explode. The device could also malfunction or be damaged as a result of using batteries that are not of the recommended type.

- Insert the batteries (for correct +/- direction, see diagram).
- Fit the battery cover from the top.
- Press the cover until it clicks into place.

To re-open the battery cover:
- Insert a fingernail behind the notch at the top of the cover and slide it downwards.

Charging the batteries

- Charge the batteries fully prior to first use in the charging cradle.

The batteries are fully charged when the power icon disappears from the display.

Batteries may heat up during charging. This is not dangerous.

After a time, the charge capacity of the battery will decrease for technical reasons.
Getting started

Changing the display language
You can change the display language, if the telephone has been set to an incomprehensible language.

➤ Press the centre of the control key ．
➤ Press the keys 6 and 5 slowly and successively . . . the language settings display appears, the set language (e.g. English) is highlighted ( = selected).
➤ To select a different language: ➤ Press the control key  until the desired language is highlighted on the display, e.g. Francais ➤ press the key on the right directly underneath the display to activate the language.
➤ To revert to idle status: ➤ Press and hold the End call key ．

Registering the handset (depending on the base)

Registration must be initiated on the base station and on the handset.
Both must be carried out within 60 secs.

On the base / router

Gigaset base: ➤ Press and hold the Registration/Paging key on the base station (approx. 3 sec.).

Other base station/router: ➤ Information regarding the registration procedure ➔ Documentation regarding your base/your router.

On the handset

➤ ．．． use  to select Settings ➔ OK ➔ Registration ➔ OK ➔ Register Handset ➔ OK . . . an available base is sought ➔ . . . if required: enter system PIN (default setting on Gigaset bases: 0000) ➔ OK

Once registration is complete, the handset returns to idle status. The internal number of the handset appears in the display, e.g. INT 1. If not, repeat the procedure.

A handset can be registered to up to four base stations.

➤ ．．． use  to select Settings ➔ OK ➔ Registration ➔ OK ➔

Change of base: ➤ Select Base ➔ OK ➔ . . . use  to select base or Best Base ➔ Select ( = selected)

Best Base: The handset chooses the base station with the best reception as soon as it loses connection to the current base station.

De-registering the handset (depending on the base):

➤ De-register Handset ➔ OK . . . the handset being used is selected ➔ . . . use  to select another handset if required ➔ OK . . . enter system PIN if required ➔ OK . . . Confirm de-registration with Yes
If the handset is still registered to other bases, it switches to the base with the best reception (Best Base).
Setting the date and time

Set the date/time so that the correct date and time can be assigned to incoming calls, and to enable the alarm to be used.

Date and time are set using the base. The date and time can also be set on an IP-compatible base via a time server on the network.

If the base permits it, you can set the date and time manually using the handset.

- Press the display key Time
- or, if the date and time have already been set:

  - use π to select Settings → OK → Date/Time → OK

The active cursor position flashes → change cursor position with π → switch between cursor positions with π

Enter date:
- using π enter the day, month and year in 8-digit format.

Enter time:
- using π enter hours and minutes in 4-digit format.

Save settings:
- Press the display key Save. → Saved is shown in the display and a confirmation tone sounds.

Return to idle status:
- Press and hold the End call key π

The telephone is now ready for use.

Availability and operation of the functions may differ on your telephone.
Getting to know your telephone

Using the telephone

Getting to know your telephone

Switch the handset on/off
Switch on: When the handset is switched off, press and hold the End call key.
Switch off: When the handset is in idle status, press and hold the End call key.

Lock/unlock the keypad
The keypad lock prevents any accidental use of the telephone.
Lock/unlock the keypad: Press and hold
Keypad lock activated: the following symbol appears.

If a call is indicated on the handset, the keypad automatically unlocks and you can accept the call. It then locks again when the call is finished.
It is not possible to call emergency numbers either when keypad lock is activated.

Control key
The control key enables you to navigate the menus and input fields, and also to call up certain functions depending on the situation.

In the description below, the side of the control key (up, down, right, left) that you have to press in the different operating situations is marked in black, e.g. for "press right on the control key" or for "press the centre of the control key".

In idle status
Open the directory Press briefly
Open the list of available online directories (Gigaset GO-Box 100) Press and hold
or central directory of the base (e.g. CAT-iq base)
Open the main menu
Open the list of handsets

In submenus, selection and entry fields
Confirm a function
Getting to know your telephone

**During a conversation**
- Open the directory
- Open the list of available online directories (Gigaset GO-Box 100)
- or central directory of the base (e.g. CAT-iq base)
- Mute the microphone
- Initiate an internal consultation call
- Adjust the loudspeaker volume for receiver and handsfree mode

**Display keys**
The display keys perform a range of functions depending on the operating situation.

Display key icons ➔ p. 43.

**Menu guidance**
The functions of your telephone are displayed in a menu that consists of several levels.

The menu guidance depends on the base. Depending on the number and type of available functions, these may be provided in different menus, e.g. at top level or in a submenu.

Examples: **Audio Settings** may be in the top-level menu or in the **Settings** submenu, while **Calendar** may be in the **Organizer** menu or the **Additional Features** menu.

**Selecting/confirming functions**
- Confirm selection using OK or press the centre of the control key
- One menu level back using Back
- Change to idle status Press and hold
- Switch function on/off using Change on / off
- Activate/deactivate option using Select activated / not activated
Getting to know your telephone

Main menu
In idle status: ▶ Press the centre of the control key ◀ ▶ ... use the control key ◀ to select a submenu ▶ OK

The main menu functions are shown in the display as icons. The icon for the selected function is highlighted in colour and the name of the associated function appears in the display header.

Submenus
The functions in the submenus are displayed as lists.
To access a function: ▶ ... use the control key ◀ to select a function ▶ OK
Return to the previous menu level:
▶ Press the display key Back
or
▶ Press the End call key ◀ briefly

Returning to idle status
▶ Press and hold the End call key ◀

If a key is not pressed, after 2 minutes the display will automatically change to idle status.
Getting to know your telephone

**Entering text**

**Input position**
- Use ▼ to select an entry field. A field is activated when the cursor is blinking inside it.
- Use ▲▼ to move the position of the cursor.

**Correcting incorrect entries**
- Delete characters to the left of the cursor: ▼<C ▼ Press briefly
- Delete words to the left of the cursor: ▼<C ▼ Press and hold

**Entering letters/characters**
Multiple letters and numbers are assigned to each key between 2 and 9 and the 0 key. As soon as a key is pressed, the possible characters are displayed at the bottom of the display. The selected character is highlighted.
- Selecting letters/numbers: ▼ Press the key briefly several times in succession
- Switch between lower case, upper case and number entry mode: ▼ Press the hash key # ▼

When editing a directory entry, the first letter and each letter following a space is automatically in upper case.
- Entering special characters: ▼ Press the star key *. . . use ▼ to navigate to the desired character ▼ Insert

The availability of special characters depends on the character set of the handset.
Making calls

Making a call

- Use \( \text{ } \) to enter the number \( \text{briefly} \) press the Talk key \( \text{ } \)

or

- Press and hold the Talk key \( \text{ } \) Use \( \text{ } \) to enter the number

Cancel dialling: \( \text{ } \) Press the End call key \( \text{ } \)

On a Gigaset GO-Box 100 or another IP-compatible Gigaset base

The connection is selected via the send connection (line) set for the handset. To use another line:

- Press and hold the Talk key \( \text{ } \) Use \( \text{ } \) to select the line \( \text{Dial} \)

  Use \( \text{ } \) to enter the number \( \text{the number is dialled approximately 3 seconds after the last digit is entered} \)

Dialling a number from the local directory

- Use \( \text{ } \) to open the directory \( \text{ } \) Use \( \text{ } \) to select an entry \( \text{press the Talk key} \)

If multiple numbers are entered:

- Use \( \text{ } \) to select the number \( \text{press the Talk key} \) \( \text{the number is dialled} \)

For fast access (quick dial): Assign numbers from the directory to the digit or display keys.

Dialling from a public/central directory

Depending on the base to which the handset is connected, you can dial from a public directory, the Gigaset.net directory (e.g. Gigaset GO-Box 100) or a central directory on a CAT-iq base.

- Press and hold \( \text{ } \)

Further information \( \text{in the detailed user guide for your telephone} \)

Dialling from the redial list

The redial list contains the 20 numbers last dialled with the handset.

- Briefly press the Talk key \( \text{ } \) the redial list opens \( \text{ } \) Use \( \text{ } \) to select an entry \( \text{press the Talk key} \)

If a name is displayed:

- View \( \text{ } \) the number is displayed \( \text{ } \) Use \( \text{ } \) to browse numbers if necessary \( \text{ } \) when the required number is reached press the Talk key \( \text{ } \)
Managing entries in the redial list

- Briefly press the Talk key \[phone] \(. . .\) the redial list opens \(\[phone]\) . . . use \[phone] \(\) to select an entry \(\)

Options \(\) . . . possible options:

- Copy an entry to the directory: \(\[phone]\) Copy to Directory \(\) OK
- Copy the number to the display:
  \(\)[phone] \(\) Display number \(\) OK \(\) . . . use \[phone] \(\) to edit or add numbers if necessary \(\) . . . use \[phone] \(\) to save as a new entry in the directory
- Delete the selected entry: \(\)[phone] \(\) Delete entry \(\) OK
- Delete all entries: \(\)[phone] \(\) Delete List \(\) OK

Dialling from the call list

The call lists (\(\Rightarrow\) p. 21) contain the most recent accepted, outgoing and missed calls.

- \(\)[phone] \(\) . . . use \[phone] \(\) to select \(\) Call Lists \(\) OK \(\) . . . use \[phone] \(\) to select a list \(\) OK \(\) . . . use \[phone] \(\) to select an entry \(\) press the Talk key \(\)[phone]

The call lists can be displayed directly by pressing the display key Calls if the relevant function has been assigned to the display key.

The Missed calls list can also be opened by pressing the Message key \(\) .

Incoming calls

An incoming call is indicated by ringing, by a display on the screen and by the flashing Talk key \(\)[phone] . Accepting a call:

- Press the Talk key \(\)[phone]
- If Auto Answer is activated: \(\) Remove the handset from the charging cradle
- Forward to the answer machine: \(\)[phone] \(\) \(\) \(\) \(\) \(\) \(\) \(\) \(\) \(\) \(\) \(\) \(\) \(\)

Switch off ringtone: \(\) Silence \(\) . . . the call can be accepted for as long as it is shown on the display

During a conversation

Handsfree mode

Activating/deactivating handsfree mode during a call, when establishing a connection and when listening to the answer machine:

- Press the handsfree key \(\)
Making calls

Call volume
Applies to the current mode, handsfree mode or handset (or headset when the handset has a headset connection):

- Use to set the volume - Save

The setting is automatically saved after around 3 seconds, even if Save is not pressed.

Muting the microphone
When the microphone is switched off, callers will no longer hear you.
Switch the microphone on/off during a call: Press .

Local answer machine
(only on Gigaset bases with local answer machine)

Switching the answer machine on/off:

- Use to select Answer Machine - OK - OK - use to select an answer machine (if there are several) - Change - use to select On or Off - Save

Playing back messages:

- Press the Message key - use to select an answer machine (if there are messages for several answer machines) - OK

Recording a personal announcement/advisory message:

- Use to select Answer Machine - OK - Announcements - OK - use to select Record Announcement or Rec. Advisory Msg. - OK - use to select an answer machine (if there are several) - OK - OK - record an announcement (at least 3 seconds) ... possible options

Complete the recording and save: End ... the announcement is played back for you to check
Cancel the recording: Press the End call key or Back
Resume the recording: OK
Repeat the recording: New
Local handset directory

The local directory is unique to the handset. However, it is possible to send entries to other handsets.

Information about online directories (e.g. on a Gigaset GO-Box 100) or central directories on CAT-iq bases ➞ user guide of the base.

Opening the directory

Briefly press in idle status

Directory entries

Number of entries: up to 200
Information: First name and surname, up to three telephone numbers, anniversary with alert, VIP ringtone with VIP icon
Length of the entries: Numbers: max. 32 digits
First name, surname: max. 16 characters

Creating an entry

<New Entry> ➤ OK

Name:
➤ ... Use to toggle between the entry fields First Name/Surname ➤ Use to enter the first and/or last name

Numbers:
➤ Tel.1 - Type ➤ ... Use to select a number type (Home, Office or Mobile) ➤ ➤ ... Use to enter a number

Enter more numbers: ➤ Use to toggle between the entry fields Tel.1 - Type/Tel.2 - Type/Tel.3 - Type

Anniversary:
➤ ... use to activate/deactivate Anniversary ➤ ... use to enter date and time ➤ ... use to select type of alert (Visual only or a ringtone)

Caller Melody (VIP):
➤ ... use to select the ringtone that will indicate a call from the participant ➤ ... if a Caller Melody (VIP) has been assigned, the entry will appear in the directory with the VIP icon.

Save entry: ➤ Save

The entry is only valid if it contains at least one number.

Availability and operation of the functions may differ on your telephone.
Local handset directory

Searching for/selecting a directory entry

- . . . use to browse searched names

or

- . . . use to enter initial letters (max. 8 letters) . . . the display jumps to the first name starting with these initial letters . . . use to continue browsing to the desired entry, if needed

Scroll through directory: Press and hold

Displaying/changing an entry

- . . . use to select entry . . . use to select the field to be changed . . . Edit

or

- . . . use to select an entry . . . Options . . . Edit entry . . . OK

Deleting entries

Delete the selected entry: . . . use to select an entry . . . Options . . . Delete entry . . . OK

Delete all entries: . . . Options . . . Delete all . . . OK . . . Yes

Setting the order of the directory entries

Directory entries can be sorted by first name or surname.

- Options . . . Sort by Surname / Sort by First Name

If no name was entered, the default telephone number is shown in the surname field. These entries appear at the beginning of the list, regardless of how the entries are sorted.

The sort order is as follows:

Space | Digits (0-9) | Letters (alphabetically) | Other characters.

Displaying the number of entries available in the directory

- Options . . . Available Memory . . . OK

Copying number to the directory

Copy numbers to the directory:

- From a list e.g. the call list or the redial list
- When dialling a number

The number is displayed or highlighted.

- Press the display key or Options . . . Copy to Directory . . . OK . . . possible options:

  Create a new entry:

  - <New Entry> . . . OK . . . use to select number type . . . OK . . . complete entry . . . Save
Local handset directory

Add number to an existing entry:

- . . use to select an entry
- OK
- . . use to select number type
- OK
- . . the number is entered or a prompt to overwrite an existing number is displayed
- . . if required, answer the prompt with Yes/No
- Save

Copying an entry/directory

The sending and receiving handset must both be registered to the same base station.
The other handset and the base station are able to send and receive directory entries.

An external call interrupts the transfer.

Sounds are not transferred. Only the date is transferred for an anniversary.

Both handsets support vCards:

- No entry with the name is available: a new entry is created.
- An entry with the name is already available: The entry is expanded to include the new numbers. If the entry contains more numbers than allowed by the recipient handset, a second entry is created with the same name.

The recipient handset does not support vCards:

A separate entry is created and sent for each number.

The sending handset does not support vCards:

A new entry is created on the receiving handset and the transferred number is added to the Phone (Home) field. If an entry with this number already exists, the copied number is discarded.

Copying individual entries

- . . use to select the desired entry
- Options
- Copy Entry
- OK
- to Internal
- OK
- . . use to select the receiving handset
- OK
- . . the entry is copied

Copy the next entry after successful transfer: Press Yes or No

Copying the entire directory

- Options
- Copy All
- OK
- to Internal
- OK
- . . use to select the receiving handset
- OK
- . . the entries are copied one after the other
Message lists

Notifications about missed calls, messages on the answer machine/network mailbox and missed alarms are saved in the messages list.

As soon as a new message arrives, an advisory tone will sound. The Message key also flashes (if activated). Activation from the handset is only possible on Gigaset bases. Use the web interface as required for CAT-iq routers. Information → user guide of the base/router.

Icons for message types and the number of new messages are shown on the idle display.

Notification for the following message types is available:
- on the answer machine/network mailbox
- in the missed calls list
- in the missed alarms list

The icon for the network mailbox is always displayed, provided the number is stored in the telephone. The other lists are only displayed if they contain messages.

Display messages:
- Press the Message key. Messages lists that contain messages are displayed, Mailbox: is always displayed
  The number of new messages is shown in brackets.
  Display green: new messages
  Display white: old messages.
- ... use to select a list OK ... the calls or messages are listed
  Network mailbox: The network mailbox number is dialled.

The message list contains an entry for every answer machine assigned to the handset, e.g. for the local answer machine on a Gigaset base / CAT-iq router or for a network mailbox.
Call lists

The telephone saves different types of calls (missed, accepted and outgoing calls) in lists.

List entry

The following information is displayed in the list entries:

- The list type (in the header)
- Icon for the type of entry:
  - Missed calls,
  - Accepted calls,
  - Outgoing calls,
  - Call on the answer machine
- Caller’s number. If the number is stored in the directory, the name and number type (Phone (Home), Phone (Office), Phone (Mobile)) are shown instead. In the event of missed calls, the number of missed calls from this number is also shown in square brackets.
- Connection by which the call was received/made
- Date and time of call (if set)

Opening the call list

Via the display key:

Calls ➤... use  to select the list ➤ OK

Via the menu:

➤... use  to select Call Lists ➤ OK ➤... use  to select the list ➤ OK

Via the Message key (missed calls):

➤ Press the Message key ➤ Missed Calls: ➤ OK

Calling back a caller from the call list

➤... use  to select Call Lists ➤ OK ➤... use  to select list ➤ OK ➤... use  to select entry ➤ Press the Talk key ➤

Additional options

➤... use  to select Call Lists ➤ OK ➤... use  to select list ➤ OK... possible options:

View an entry: ➤... use  to select entry ➤ View
Copy the number to the directory:

➤... use  to select entry ➤ Options ➤ Copy to Directory

Additional functions

The functions actually available on your telephone and how they are operated depends on the base/router to which the handset is registered.

The following description applies to a Gigaset GO-Box 100. The procedure required for your telephone may differ from the procedures described here.

Additional information

Regarding the telephone system, if the handset is connected to a Gigaset base:

→ User guide for your Gigaset telephone

Regarding the telephone system, if the handset is connected to another base/router:

→ Documentation regarding your base/your router

You can obtain all Gigaset user guides in PDF format: → www.gigaset.com/manuals

online: → Gigaset Help app for your smartphone or tablet

Calendar

You can remind yourself of up to 30 appointments.

In the calendar, the current day is outlined in white; on days with appointments, the numbers are displayed in colour. When a day is selected, it will be outlined in colour.

Saving appointments to the calendar

⚠️ Date and time have been set.

Switch on/off:

→ Activation: ... use ⬅️ to select On or Off

Enter date:

→ Date ... the selected day has been pre-set ⬅️ ... use ⬅️ to enter new date

Availability and operation of the functions may differ on your telephone.
Calendar

Enter time:  
Press the display key "Time"  
... use the keys to enter hours and minutes of the appointment

Set name:  
Press the display key "Text"  
... use the keys to enter a description of the appointment (e.g. evening meal, meeting)

Set alarm tone:  
Press the display key "Signal"  
... use the keys to select the melody of the reminder alarm or deactivate the acoustic signal

Enter information for the appointment:

... use the keys to successively select Date, Time, Text and Signal  
... use the keys or "OFF" to set the relevant value  
Save

If an appointment has already been entered:  
Press the display key "<New Entry>"  
OK  
... Then enter information for the appointment.

Notification of appointments/anniversaries

Anniversaries are transferred from the directory and displayed as an appointment. An appointment/anniversary is displayed in idle status and the selected ringtone plays for 60 seconds as a notification.

- Acknowledge and stop the reminder:  
Press the display key "OFF"

During a call, a reminder is indicated on the handset once with an advisory tone on the handset.

Displaying missed appointments/anniversaries

The following appointments and anniversaries are saved in the Missed Alarms list:
- The appointment/anniversary call was not acknowledged.
- The appointment/anniversary was notified during a phone call.
- The handset was switched off at the time of the appointment/anniversary.

The last 10 entries are stored. The icon and the number of new entries are shown in the display. The most recent entry appears at the top of the list.

Opening the list

Press the Message key "Missed Alarms"  
OK  
... use the keys to browse through the list of any appointments

or

Press the Message key  
... use the keys to select Additional Features  
OK  
Missed Alarms  
OK

Each entry is displayed with the number or name, date and time. The most recent entry appears at the top of the list.
- Delete an appointment/anniversary:  
Press the display key "Delete"

Availability and operation of the functions may differ on your telephone.
Alarm clock

Displaying/changing/deleting stored appointments

- Use  to select Additional Features  → OK  → Calendar  → OK  ← . . . Use  to select day  → OK . . . The appointment list is displayed . . . Use  to select date . . . Possible options:
- Display appointment details:
  - View . . . The appointment settings are displayed
- Change appointment:
  - View  → Edit  or  → Options  →  Edit entry  → OK
- Activate/deactivate appointment:
  - Options  →  Activate/Deactivate  → OK
- Delete appointment:
  - Options  →  Delete entry  → OK
- Delete all appointments for a day:
  - Options  →  Delete all Appointments  → OK  → Yes

Alarm clock

Date and time have been set.

Activating/deactivating the alarm clock and setting the wake-up time

- Use  to select Additional Features  → Calendar  → Alarm Clock  → OK  ←
- Then
  - Switch on/off:
    - Activation: . . . Use  to select On or Off
  - Setting the wake-up time:
    - Time  ← . . . Use  to enter hours and minutes
    - Occurrence  ← . . . Use  to switch between Monday-Friday and Daily
  - Set the volume:
    - Volume  ← . . . Use  to set volume in 5 levels or select crescendo (increasing volume)
  - Set alarm:
    - Melody  ← . . . Use  to select a ringtone for the alarm
  - Enter alarm data:
    - . . . Use  to successively select Time, Occurrence, Volume and Melody  ← . . . Use  or  to set the relevant value  → Save
  - Save settings:
    - Save

When the alarm clock is activated, the icon  and the wake-up time are displayed in idle display.

Availability and operation of the functions may differ on your telephone.
Baby monitor

Alarm
An alarm is shown on the display and indicated by the selected ringtone melody. The alarm sounds for 60 seconds. If no key is pressed, the alarm is repeated after 5 minutes. After the second repetition, the alarm call is deactivated for 24 hours.

During a call, the alarm is only indicated by a short tone.

Switching off /repeating the alarm after an interval (snooze mode)
Deactivate the alarm: Press OFF
Repeat the alarm (snooze mode): Press Snooze or any key... the alarm is switched off and repeated after 5 minutes.

Baby monitor
When the baby monitor is switched on, the stored (internal or external) destination number is called as soon as a defined noise level is exceeded in the vicinity of the handset. The alarm to an external number is cancelled after approximately 90 seconds.

You can answer the alarm using the Two Way Talk function. This function is used to switch the loudspeaker of the handset located in the baby's room on or off.

In baby monitor mode, incoming calls are only indicated on the display (without ringtone). The display backlight is reduced to 50%. Advisory tones are deactivated. All keys are locked, with the exception of the display keys and the ability to press the centre of the control key.

If you accept an incoming call, the baby monitor mode is suspended for the duration of the call, but the function remains activated. The baby monitor mode is not deactivated by switching the handset off and on again.

The handset should be positioned 1 to 2 metres away from the baby. The microphone must point towards the baby.

Activating the function reduces the operating time of your handset. For that reason, place the handset in the charging cradle if necessary.

The baby monitor is activated 20 seconds after switching on.

The answer machine for the destination number must be switched off.

After switching on:
- Test sensitivity.
- Test the connection, if the alarm is being forwarded to an external number.
Baby monitor

Activating and setting the baby monitor

- Use to select Additional Features OK
- Then

Switch on/off:
- Use to select On or Off

Enter destination:
- Use to select Internal

External: Use to select number
- or select a number from the directory:

Internal: Use to select the handset
- OK

Activate/deactivate two-way talk:
- Use to select On or Off

Set microphone sensitivity:
- Use to select High or Low

Save settings:
- Save

The destination number is displayed in idle display when the baby monitor is activated.

Deactivate baby monitor / cancel alarm

Deactivate the baby monitor:
- In idle status press the display key OFF

Cancel the alarm:
- Press the End call key during an alarm

Deactivate the baby monitor remotely

- Accept alarm call
- Press keys 9 #

The baby monitor is deactivated and the handset is in idle status. The baby monitor settings on the handset (e.g. no ringtone) will remain activated until you press the display key OFF.

Reactivate baby monitor with the same number:
- Use to switch back on (p. 26)

Availability and operation of the functions may differ on your telephone.
Protection against unwanted calls

Time control for external calls

Date and time have been set.

Enter a time period during which the handset should suspend ringing to indicate external calls e.g. during the night.

Example

<table>
<thead>
<tr>
<th>Time Control</th>
</tr>
</thead>
<tbody>
<tr>
<td>For external calls:</td>
</tr>
<tr>
<td>On</td>
</tr>
<tr>
<td>Suspend ring. from:</td>
</tr>
<tr>
<td>22:00</td>
</tr>
<tr>
<td>Suspend ring. until:</td>
</tr>
<tr>
<td>07:00</td>
</tr>
</tbody>
</table>

Save: Save

The time control only applies to the handset for which the setting is configured.
The telephone will continue to ring for numbers that have been assigned to a VIP group in the directory.

Protection from anonymous callers

The handset will not ring if callers' numbers are not revealed.

Example

<table>
<thead>
<tr>
<th>Time Control</th>
</tr>
</thead>
<tbody>
<tr>
<td>For external calls:</td>
</tr>
<tr>
<td>On</td>
</tr>
<tr>
<td>Suspend ring. from:</td>
</tr>
<tr>
<td>22:00</td>
</tr>
<tr>
<td>Suspend ring. until:</td>
</tr>
<tr>
<td>07:00</td>
</tr>
</tbody>
</table>

Save: Save

Availability and operation of the functions may differ on your telephone.
Setting the handset

Setting the handset

Changing the language

- Press the keys 1234567890 to select Settings OK Language OK
- Use 0 to select language

If the handset has been set to an incomprehensible language:

- Press the keys 65 slowly one after the other
- Use 0 to select the correct language
- Press the right display key

Display

Screensaver

A digital or analogue clock and info services can be selected to be displayed as a screensaver when in idle status.

- Use 0 to select Settings OK Display OK Screensaver
- Edit (on) then
- Switch on/off: Activation: 0 to select On or Off
- Select screensaver:
  - Selection 0 to select a screensaver
  (Digital Clock / Analog Clock / Info Services)
- View screensaver: View
- Save selection: Save

The screensaver is activated approx. 10 seconds after the display has changed to idle status.

End screensaver

- Press the End call key briefly . . . the display changes to idle status

Display of info services as screensaver

(only on a Gigaset GO-Box 100 or other Gigaset-IP base)

- Info Services are activated via the web configurator.
- The telephone is connected to the Internet.

Example: Enable weather service as screensaver

Enable info services as screensaver:

- Use 0 to select Settings OK Display OK Screensaver
- Edit . . . use 0 to select Activation: On
- Selection . . . select as screensaver with Info Services
- Save

Availabilty and operation of the functions may differ on your telephone.
Setting the handset

Select locations:

- . . . use to select Additional Features Info Centre Weather OK
- Add locations OK . . . specify location names with OK . . . a list of locations with this name is displayed . . . select location with OK Save

Multiple locations can be entered. Once you have entered all locations required: . . . Use ← to go back

Enable screensaver:

- . . . use to select Additional Features Info Centre Screensaver Weather OK . . . select location with Save

The type of info service available to your phone is set on the Internet on the Gigaset.net server.

If no information is currently available, the digital time (Digital Clock) is displayed instead until information is available again.

Switching Info Services on/off

(only on a Gigaset GO-Box 100 or other Gigaset-IP base)

The text information from the Internet that is set for the screensaver Info Services can be displayed as a scrolling message in idle status.

- . . . use to select Settings Display OK
- Info Ticker Edit ( = on)

The text appears as soon as the telephone changes to idle status. If a message is shown in idle status, the info text is not displayed.

Large font

Show text and icons in call lists and in the directory in a larger size in order to improve legibility. Only one entry is shown in the display and names are abbreviated if necessary. The number is displayed in large font when it is dialled.

- . . . Use to select Settings Display OK Large Font Change ( = activated)

Colour scheme

You can choose from a range of colour combinations for the display.

- . . . use to select Settings Display Colour Schemes OK . . . use to select the desired colour scheme Select ( = selected)
Setting the handset

Display backlight

The display backlight always illuminates when the handset is taken out of the base station/charging cradle or when a key is pressed. Any digit keys that are pressed appear on the display for pre-dialling.

Switch the display backlight on/off when in idle status:

- Use → to select Settings → OK → Display → OK → Backlight → OK → then

  Backlight when in the charging cradle:
  - In Charger: ... use → to select On or Off

  Backlight when not in the charging cradle:
  - Out of Charger: ... use → to select On or Off

  Backlight during a call:
  - In Talk State: ... Use → to select On or Off

  Save selection:
  - Save

The handset's standby time may be significantly reduced if the display backlight is switched on.

Activating/deactivating Auto Answer

When set to Auto Answer, the handset accepts an incoming call as soon as it is removed from the charging cradle.

- → ... use → to select Settings → OK → Telephony → OK → Auto Answer → Change ( = on)

Regardless of the Auto Answer setting, the connection ends as soon as you place the handset back in the charging cradle.
Setting the handset

Changing the earpiece and handsfree volume
You can set the volume of the earpiece and speaker at 5 levels independently of each other.

During a conversation
- 🏷️ Handset Volume . . . use 🎧 to select volume 🡣 Save . . . the setting is saved

Without saving, the setting is automatically saved after around 3 seconds.

In idle status
- 🏷️ . . . use 🎧 to select 📲 Settings 🡣 OK 🡣 Audio Settings 🡣 OK 🡣 Handset Volume 🡣 OK . . . then
  - For the earpiece: 🎧 Earpiece: . . . use 🎧 to set the volume
  - For the speaker: 🎧 Speaker . . . use 🎧 to set the volume
  - Save settings: 🡣 Save

Earpiece and handsfree profile
Select a profile for the earpiece and handsfree mode in order to adapt the telephone as much as possible to the surroundings. Check which is the most comfortable profile for you and your caller.

- 🏷️ . . . use 🎧 to select 📲 Settings 🡣 OK 🡣 Audio Settings 🡣 OK 🡣 🎧 Acoustic Profiles 🡣 🎧 Earpiece Profiles / Handsfree Profiles 🡣 OK 🡣 . . . use 🎧 to select profile 🡣 Select ( = selected)

Earpiece Profiles: High or Low (default setting)
Handsfree Profiles: Profile 1 (default setting) or Profile 2

Availability and operation of the functions may differ on your telephone.
Setting the handset

Ringtones

Ringtone volume
Volume can be set at 5 levels or crescendo (increasing volume).

Example

<table>
<thead>
<tr>
<th>Volume</th>
</tr>
</thead>
<tbody>
<tr>
<td>For internal calls and alarms:</td>
</tr>
<tr>
<td>&lt;</td>
</tr>
<tr>
<td>External Calls:</td>
</tr>
<tr>
<td>Back</td>
</tr>
</tbody>
</table>

Ringtone melody
Set different ringtones for internal and external calls for every available receive connection of the telephone (Landline, IP1) or set the same ringtone for All calls.

Switching the ringtone on/off

Switching the ringtone off permanently

Switching the ringtone on permanently

Switching the ringtone off for the current call

Switching the alert tone (beep) on/off
Switch on an alert tone (beep) instead of the ringtone:

Switching off the alert tone:

Availability and operation of the functions may differ on your telephone.
Setting the handset

Switching advisory tones on/off
The handset notifies acoustically about different activities and statuses. These advisory tones can be switched on/off independently of each other.

- Use to select Settings > OK > Audio Settings > OK > Advisory Tones > OK > OK ... then

Tone when keys are pressed:
- Use to select Key Tones: ... use to select On or Off

Confirmation/error tone after making entries, advisory tone when a new message has been received:

- Use to select Confirmation ... use to select On or Off

Warning tone when there are fewer than 10 minutes of talktime remaining (every 60 seconds):
- Use to select Battery ... use to select On or Off

Warning tone when the handset is moved out of range of the base station:
- Use to select Out of Range ... use to select On or Off

Save settings:
- Use to select Save

There is no battery warning when the baby monitor is switched on.

Fast access to numbers and functions
Number keys: It is possible to assign a number from the directory to the keys to .
Display keys: The left and right display keys have a function preset by default, but the keys can be re-assigned.

You can then dial the number or start the function by simply pressing a key.

Assigning a number to digit keys (quick dial)

- Press and hold the digit key
  or
- Briefly press the digit key Press the display key QuickDial

The directory opens.
- Use to select an entry > OK > Use to select a number if necessary > OK ... the entry is saved to the digit key

If the entry in the directory is deleted later, this will not affect the assignment of the digit key.

Availability and operation of the functions may differ on your telephone.
Setting the handset

Dialling a number
- Press and hold the digit key . . . the number is dialled immediately
or
- Briefly press the digit key . . . the number/name (possibly in abbreviated form) is shown on
the left display key . . . press the display key . . . the number is dialled

Changing the digit key assignment
- Briefly press the digit key  Change . . . the directory is opened . . . possible options:
  Change the assignment:
  - . . . use to select an entry  OK . . . select a number if
    required  OK
  Delete the assignment:
  -  Clear Key

Assigning display keys, changing assignments
- Press and hold the left or right display key in idle status . . . the list of possible key
  assignments is opened . . . use to select function  OK . . . possible options:

INT
Quick Dial
Baby Monitor
Alarm Clock
Calendar
Redial
Handset Directory
More Functions...
Call Lists
Withhold Number
Call Divert

The availability of options depends on the base.

Starting a function
With the telephone in idle status: Briefly press . . . the assigned function is executed
Setting the handset

Changing the name of a connection (line)
(only on a CAT-iq router)

› . . . use to select Settings OK Telephony OK
Connections OK . . . all available connections (lines) are displayed . . . use to select connection OK Connection Name OK . . . use to change the name of the connection Save

Assigning handsets to a connection (line)
(only on a CAT-iq router)

Multiple handsets can be assigned to a connection. Incoming calls to the number designated to a connection will be forwarded to all handsets assigned to the connection.

› . . . use to select Settings OK Telephony OK
Connections OK . . . use to select connection OK Assigned Handsets . . . all registered handsets are displayed . . . use to select handset
Change ( = handset is assigned)

Permit/prevent multiple calls
(only on a CAT-iq router)

If the function is activated, multiple calls can be made in parallel.

› . . . use to select Settings OK Telephony OK
Connections OK . . . use to select connection OK Multiple Calls
Change ( = on)

Permit/prevent internal listening in
(only on a CAT-iq router)

If the function is enabled, an internal party can listen in to an external call and take part in the conversation (conference).

› . . . use to select Settings OK Telephony OK
Connections OK . . . use to select connection Listening In OK
Change ( = on)
Setting the handset

Resetting the handset to the default settings
Reset any individual settings and changes that you have made.

- . . . use to select Settings ▶ OK ▶ System ▶ OK ▶ Handset Reset ▶ OK ▶ Yes . . . the handset's settings are reset

The following settings are not affected by a reset
- Registration of the handset to the base station
- Date and time
- Directory entries and call lists

Availability and operation of the functions may differ on your telephone.

Please have your proof of purchase ready when calling.

Please note that if the Gigaset product is not sold by authorised dealers in the national territory the product may not be fully compatible with the national telephone network. It is clearly specified on the box near the CE mark for which country/countries the equipment has been developed. If the equipment is used in a manner inconsistent with this advice or with the instructions of the manual and on the product itself, this may have implications on the conditions for warranty or guarantee claims (repair or exchange of product).

In order to make use of the warranty, the product purchaser is asked to submit a receipt which proves the date of purchase (date from which the warranty period starts) and the type of goods that have been purchased.

Guarantee Certificate - United Kingdom and Ireland

Without prejudice to any claim the user (customer) may have in relation to the dealer or retailer, the customer shall be granted a manufacturer's Guarantee under the conditions set out below:

• In the case of new devices and their components exhibiting defects resulting from manufacturing and/or material faults within 24 months of purchase, Gigaset Communications shall, at its own option and free of charge, either replace the device with another device reflecting the current state of the art, or repair the said device. In respect of parts subject to wear and tear (including but not limited to, batteries, keypads, casing), this warranty shall be valid for six months from the date of purchase.

• This Guarantee shall be invalid if the device defect is attributable to improper care or use and/or failure to comply with information contained in the user manuals. In particular claims under the Guarantee cannot be made if:
  • The device is opened (this is classed as third party intervention)
  • Repairs or other work done by persons not authorised by Gigaset Communications.
  • Components on the printed circuit board are manipulated
  • The software is manipulated
Service (Customer Care) - United Kingdom and Ireland

- Defects or damage caused by dropping, breaking, lightning or ingress of moisture. This also applies if defects or damage was caused by mechanical, chemical, radio interference or thermal factors (e.g.: microwave, sauna etc.)
- Devices fitted with accessories not authorised by Gigaset Communications
- This Guarantee shall not apply to or extend to services performed by the authorised dealer or the customer themselves (e.g. installation, configuration, software downloads). User manuals and any software supplied on a separate data medium shall be excluded from the Guarantee.
- The purchase receipt, together with the date of purchase, shall be required as evidence for invoking the Guarantee. Claims under the Guarantee must be submitted within two months of the Guarantee default becoming evident.
- Ownership of devices or components replaced by and returned to Gigaset Communications shall vest in Gigaset Communications.
- This Guarantee shall apply to new devices purchased in the European Union. For Products sold in the United Kingdom and in the Republic of Ireland the Guarantee is issued by: Gigaset Communications UK Limited, 2 White Friars, Chester, CH1 1NZ.
- Any other claims resulting out of or in connection with the device shall be excluded from this Guarantee. Nothing in this Guarantee shall attempt to limit or exclude a Customer's Statutory Rights, nor the manufacturer's liability for death or personal injury resulting from its negligence.
- The duration of the Guarantee shall not be extended by services rendered under the terms of the Guarantee.
- Insofar as no Guarantee default exists, Gigaset Communications reserves the right to charge the customer for replacement or repair.
- The above provisions do not imply a change in the burden of proof to the detriment of the customer.

To invoke this Guarantee, please contact the Gigaset Communications helpdesk. This number is also to be found in the accompanying user guide.

Exclusion of liability
Your handset’s display consists of pixels. Each pixel consists of three sub-pixels (red, green, blue).
It may be the case that a sub-pixel is missing or has a colour deviation.
A warranty claim is only valid if the maximum number of permitted pixel errors is exceeded.

<table>
<thead>
<tr>
<th>Description</th>
<th>Maximum number of permitted pixel errors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colour illuminated sub-pixels</td>

</tr>
<tr>
<td>Dark sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Total number of coloured and dark sub-pixels</td>
<td>1</td>
</tr>
</tbody>
</table>

Signs of wear on the display and casing are excluded from the warranty.
Manufacturer's advice

Authorisation
This device is intended for use worldwide. Use outside the European Economic Area (with the exception of Switzerland) is subject to national approval. Country-specific requirements have been taken into consideration. Hereby, Gigaset Communications GmbH declares that the radio equipment type Gigaset C570HX is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.gigaset.com/docs. This declaration could also be available in the "International Declarations of Conformity" or "European Declarations of Conformity" files. Therefore please check all of these files.

Environment

Environmental management system
Gigaset Communications GmbH is certified pursuant to the international standards ISO 14001 and ISO 9001.
ISO 14001 (Environment): Certified since September 2007 by TÜV SÜD Management Service GmbH.
ISO 9001 (Quality): Certified since 17/02/1994 by TÜV SÜD Management Service GmbH.

Disposal
Batteries should not be disposed of in general household waste. Observe the local waste disposal regulations, details of which can be obtained from your local authority. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

This crossed-out wheeled bin symbol on the product means the product is covered by the European Directive 2012/19/EU. The correct disposal and separate collection of your old appliance will help prevent potential negative consequences for the environment and human health. It is a precondition for reuse and recycling of used electrical and electronic equipment.

For more detailed information about disposal of your old appliance, please contact your local council refuse centre or the original supplier of the product.
Manufacturer's advice

Care
Wipe the device with a damp cloth or an antistatic cloth. Do not use solvents or microfibre cloths. **Never** use a dry cloth; this can cause static.
In rare cases, contact with chemical substances can cause changes to the device's exterior. Due to the wide variety of chemical products available on the market, it was not possible to test all substances. Impairments in high-gloss finishes can be carefully removed using display polishes for mobile phones.

Contact with liquid
If the device comes into contact with liquid:
1. **Disconnect the power supply.**
2. **Remove the batteries and leave the battery compartment open.**
3. Allow the liquid to drain from the device.
4. **Pat all parts dry.**
5. Place the device in a dry, warm place for at least **72 hours** (not in a microwave, oven etc.) with the battery compartment open and the keypad facing down (if applicable).
6. **Do not switch on the device again until it is completely dry.**
When it has fully dried out, you will normally be able to use it again.
Technical data

Batteries
Technology: 2 x AAA NiMH
Voltage: 1.2 V
Capacity: 750 mAh

Handset operating times/charging times
The operating time of your Gigaset depends on the capacity of the battery, its age and the way it is used. (All times are maximum possible times.)
