User guide online on your smartphone or tablet:
Download the Gigaset Help app
Gigaset HX – the universal handset

With your Gigaset HX handset, you have purchased a high-quality, multifunctional and future-proof device.

You can use your handset with several different DECT bases.

On a Gigaset base

Connect your HX handset to a Gigaset base and use the many features with the quality you would expect from Gigaset.

If your Gigaset base is IP-compatible, you can also make broadband calls using your HX handset with the highest voice quality (HDSP).

In this guide, all functions that are available for your HX handset are detailed/described. The complete functionality with Gigaset bases is described in the guide relevant to your Gigaset system.

All Gigaset user guides can be found at www.gigaset.com/manuals or online on your smartphone or tablet:

- download the Gigaset Help app from App Store or Google Play.

On a DECT/GAP telephone or router from another manufacturer

The handset also functions with DECT/GAP telephones from other manufacturers, of course, as well as DECT routers. Additional information can be found at www.gigaset.com/compatibility.

On DECT routers with CAT-iq 2.0

Your Gigaset HX handset is certified in accordance with the DECT/CAT-iq 2.0 standard. As a result, operation with a DECT router with CAT-iq functionality is possible.

Handset functions on a CAT-iq router (amongst others):

- full access to the central directory on the router as well as the local directory integrated in the handset,
- convenient calling and using of call lists,
- using several lines and call numbers *),
- enjoy broadband calls in guaranteed/certified HD-Voice™ quality.

Details can be found in the relevant user guide for your router.

Additional information regarding your HX handset can be found at www.gigaset.com/hx

Details regarding the functionality of the handset on various bases and routers can be found at www.gigaset.com/compatibility

*) The relevant scope of the function is dependent on the country, network and router

Procedures

Example: Switching Auto answer on/off

- ![Settings](image) ![OK](image) ![Telephony](image) ![OK](image) ![Auto Answer](image) ![Change](image) ( = on)

Step | Follow this procedure

- ![Center](image) When in idle status press the centre of the control key. The main menu opens.
- ![Control key](image) ![OK](image) Navigate to the icon using the control key. Select OK to confirm. The submenu Settings opens.
- ![Telephony](image) ![OK](image) Select the Telephony entry using the control key. Select OK to confirm. The submenu Telephony opens.
- ![Auto Answer](image) The function to switch Auto answer on/off appears as the first menu item.
- ![Change](image) Select Change to activate or deactivate. Function is activated / deactivated.
Safety precautions

Safety precautions

Read the safety precautions and the user guide before use.

The device cannot be used in the event of a power failure. In case of a power failure it is also not possible to make emergency calls.

Emergency numbers cannot be dialled if the keypad/display lock is activated!

Use only rechargeable batteries that correspond to the specification (see list of permitted batteries www.gigaset.com/service). Never use a conventional (non-rechargeable) battery or other battery types as this could result in significant health risks and personal injury. Rechargeable batteries, which are noticeably damaged, must be replaced.

The handset must not be operated if the battery cover is open.

Do not use the devices in environments with a potential explosion hazard (e.g. paint shops).

The base and charger are not splashproof. For this reason do not install them in a damp environment such as bathrooms or shower rooms.

Use only the power adapter indicated on the device.

Whilst charging, the power socket must be easily accessible.

Remove faulty devices from use or have them repaired by our Service team, as these could interfere with other wireless services.

Do not use the device if the display is cracked or broken. Broken glass or plastic can cause injury to hands and face. Send the device to our Service department to be repaired.

Do not hold the rear of the handset to your ear when it is ringing or when speaker mode is activated. Otherwise you risk serious and permanent damage to your hearing.

The phone may cause interference in analogue hearing aids (humming or whistling) or cause them to overload. If you require assistance, please contact the hearing aid supplier.

Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment, e.g. doctor’s surgery. If you use a medical device (e.g. a pacemaker), please contact the device manufacturer. They will be able to advise you regarding the susceptibility of the device to external sources of high frequency energy (for the specifications of your Gigaset product see “Technical data”).
Getting started

Contents of the package

- One handset,
- One charging cradle incl. power adapter,
- One battery cover (rear cover for the handset),
- One locking disc for the battery cover,
- Two batteries,
- One belt clip,
- One rubber cover for the headset socket,
- One user guide

The charging cradle is designed for use in enclosed, dry rooms within a temperature range of +5 °C to +45 °C.
The device's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on furniture, contact marks on the surfaces cannot be completely ruled out.
Never expose the telephone to heat sources, direct sunlight or other electrical devices.
Protect your telephone from moisture, dust, corrosive liquids and vapours.

Connecting the charging cradle

- Connect the flat plug of the power adapter [1].
- Plug the mains unit into your power socket [2].

To remove the plug from the charging cradle again:
- Disconnect the power adapter from the mains power supply.
- Press the release button [3].
- Pull out the plug [4].
Getting started

Setting up the handset for use
The display is protected by a plastic film. ➤ Please remove the protective film!

Inserting the batteries

- Insert the batteries (for correct +/- direction, see diagram 1).
- Hold the battery cover at a slight angle and insert the bottom into the casing first 2.
- Press the cover 3 until it clicks into place.
- Insert the locking disc as shown (at an angle of approx. 20°) 4. Pay attention to the arrow markings.

- Turn locking disc clockwise to the end stop 5. The locking disc is closed once the markings on the disc are aligned with those on the cover 6.

Re-opening the battery cover

- Turn the locking disc anti-clockwise to the end stop 7 (approx. 20°) and remove 8.
- Place your fingernail in the notch on the side between the cover and the casing 9. ➤ Remove the cover 10.

Charging the batteries

- Charge the batteries fully prior to first use in the charging cradle.

The batteries are fully charged when the power icon disappears from the display.

Batteries may heat up during charging. This is not dangerous.

After a time, the charge capacity of the battery will decrease for technical reasons.

Availability and operation of the functions may differ on your telephone.
Getting started

Attaching the belt clip

The handset has notches on each side for attaching the belt clip.

- Attaching the belt clip:  
  Press the belt clip onto the back of the handset so that the tabs on the belt clip click into place in the notches.

- Removing the belt clip:  
  Press the centre of the belt clip firmly with your right thumb.  
  Push the nail of your left thumb up between the clip and the casing.  
  Slide the clip upwards to remove.

Changing the display language

You can change the display language, if the telephone has been set to an incomprehensible language.

- Press the centre of the control key .
- Press the keys  and  slowly and successively . . . the language settings display appears, the set language (e. g. English) is highlighted ( = selected).
- To select a different language:  
  Press the control key  until the desired language is highlighted on the display, e. g. Francais  
  press the key on the right directly underneath the display to activate the language.
- To revert to idle status:  
  Press and hold the End call key .

Registering the handset (depending on the base)

| Registration must be initiated on the base station and on the handset.  
| Both must be carried out within 60 secs. |

On the base / router

Gigaset base:  
- Press and hold the Registration/Paging key on the base station (approx. 3 sec.).

Other base station/router:  
- Information regarding the registration procedure ➤ Documentation regarding your base/your router

On the handset

-  ➤  . . . use ➤ to select ➤ Settings ➤ OK ➤ ➤ Registration ➤ OK ➤ Register Handset ➤ OK . . . an available base is sought ➤ . . . if required: enter system PIN (default setting on Gigaset bases: 0000) ➤ OK

Once registration is complete, the handset returns to idle status. The internal number of the handset appears in the display, e.g. INT 1. If not, repeat the procedure.

Availability and operation of the functions may differ on your telephone.
Getting started

A handset can be registered to up to four base stations.

Change of base:  
- Select Base  \(\rightarrow\) OK  \(\rightarrow\) use \(\uparrow\) to select base or Best Base  \(\rightarrow\) Select

Best Base: The handset chooses the base station with the best reception as soon as it loses connection to the current base station.

De-registering the handset (depending on the base):  
- De-register Handset  \(\rightarrow\) OK  \(\rightarrow\) the handset being used is selected  \(\rightarrow\) use \(\uparrow\) to select another handset if required  \(\rightarrow\) OK

If the handset is still registered to other bases, it switches to the base with the best reception (Best Base).

Setting the date and time

Set the date/time so that the correct date and time can be assigned to incoming calls, and to enable the alarm to be used.

Date and time are set using the base. The date and time can also be set on an IP-compatible base via a time server on the network.

If the base permits it, you can set the date and time manually using the handset.

- Press the display key Time

or, if the date and time have already been set:

- use \(\uparrow\) to select Settings  \(\rightarrow\) OK  \(\rightarrow\) Date/Time  \(\rightarrow\) OK

The active cursor position flashes  \(\rightarrow\) change cursor position with \(\uparrow\)  \(\rightarrow\) switch between cursor positions with \(\uparrow\)

Enter date:
- using \(\uparrow\) enter the day, month and year in 8-digit format.

Enter time:
- using \(\uparrow\) enter hours and minutes in 4-digit format.

Save settings:
- Press the display key Save.  \(\rightarrow\) Saved is shown in the display and a confirmation tone sounds.

Return to idle status:
- Press and hold the End call key

The telephone is now ready for use.
Connecting the headset

- Connect the headset with 2.5 mm jack to the back of the telephone.
- If you do not wish to connect a headset:
  - Insert the rubber cover provided to guarantee the unit is splashproof.

For information on recommended headsets, see the relevant product page at www.gigaset.com.
Getting to know your telephone

Using the telephone

Getting to know your telephone

Switching the handset on/off
Switch on: Press and hold the End call key on the handset when switched off
Switch off: When the telephone is in idle status, press and hold the End call key

Locking/unlocking the keypad
The keypad lock prevents any accidental use of the telephone.
Lock/unlock the keypad: Press and hold
Keypad lock activated: the symbol appears in the display.

If a call is indicated on the handset, the keypad automatically unlocks and you can accept the call. It then locks again when the call is finished.

It is not possible to call emergency numbers either when keypad lock is activated.
Getting to know your telephone

Control key

The control key enables you to navigate the menus and input fields, and also to call up certain functions depending on the situation.

In the description below, the side of the control key (up, down, right, left) that you have to press in the different operating situations is marked in black, e.g. "press right on the control key" or "press the centre of the control key".

In idle status

Open the directory  
Press briefly

Open the list of available online directories (Gigaset GO-Box 100) or central directory of the base (e.g. CAT-iq base)  
Press and hold

Open the main menu  
or

Open the list of handsets

In submenus, selection and entry fields

Confirm a function

During a conversation

Open the directory

Open the list of available online directories (Gigaset GO-Box 100) or central directory of the base (e.g. CAT-iq base)  
Press and hold

Mute the microphone

Initiate an internal consultation call

Adjust the loudspeaker volume for receiver and handsfree mode

Volume keys

Set volume for receiver/headset, ringtone, handsfree mode and indicating appointments:

Press the volume keys + / - on the right side of the handset

Display keys

The display keys perform a range of functions depending on the operating situation.

Display key icons ➔ p. 50.
Getting to know your telephone

Menu guidance
The functions of your telephone are displayed in a menu that consists of several levels.

The menu guidance depends on the base. Depending on the number and type of available functions, these may be provided in different menus, e.g. at top level or in a submenu.

Examples: Audio Settings may be in the top-level menu or in the Settings submenu, while Calendar may be in the Organizer menu or the Additional Features menu.

Select/confirm functions
- Confirm selection using OK or press the middle of the control key.
- One menu level back using Back
- Change to idle status by Press and hold
- Switch function on/off using Change on / off
- Activate/deactivate option using Select activated / not activated

Main menu
In idle status: Press the centre of the control key . . . use the control key to select a submenu . . . OK

The main menu functions are shown in the display as icons. The icon for the selected function is highlighted in colour and the name of the associated function appears in the display header.

Submenus
The functions in the submenus are displayed as lists.
To access a function: . . . use the control key to select a function . . . OK
Return to the previous menu level:
- Press the display key Back
or
- Briefly press the End call key

Returning to idle status
- Press and hold the End call key

If no key is pressed, the display will automatically change to idle status after around 2 minutes.
Entering text

Input position
- Use \( \text{ } \) to select an entry field. A field is activated when the cursor is blinking inside it.
- Use \( \text{ } \) to move the position of the cursor.

Correcting incorrect entries
- Delete characters to the left of the cursor: \( \text{ } \) Press briefly
- Delete words to the left of the cursor: \( \text{ } \) Press and hold

Entering letters/characters
Multiple letters and numbers are assigned to each key between \( \text{ } \) and \( \text{ } \) and the \( \text{ } \) key. As soon as a key is pressed, the possible characters are displayed at the bottom of the display. The selected character is highlighted.
- Selecting letters/digits: \( \text{ } \) Press the key briefly several times in succession
- Switch between lower case, upper case and number entry mode: \( \text{ } \) Press the hash \( \text{ } \) key
When editing a directory entry, the first letter and each letter following a space is automatically in upper case.
- Entering special characters: \( \text{ } \) Press the star key \( \text{ } \) . . . use \( \text{ } \) to navigate to the desired character \( \text{ } \) Insert

The availability of special characters depends on the character set of the handset.
Making calls

Making calls

Making a call

- . . . use \( \text{[ ]} \) to enter the number \( \uparrow \text{briefly press the Talk key } \)\( \text{[ ]} \)
  or
- press and \( \text{hold} \) the Talk key \( \text{[ ]} \) . . . use \( \text{[ ]} \) to enter the number
Cancel dialling: \( \uparrow \) Press the End call key \( \text{[ ]} \)

On a Gigaset GO-Box 100 or another IP-compatible Gigaset base

The connection is selected via the send connection (line) set for the handset. To use another line:
- press and \( \text{hold} \) the Talk key \( \text{[ ]} \) . . . use \( \text{[ ]} \) to select the line \( \uparrow \text{Dial } \)
  . . . use \( \text{[ ]} \) to enter the number . . . the number is dialled approximately 3 seconds after the last digit is entered

Dialling a number from the local directory

- . . . use \( \text{[ ]} \) to open the directory \( \uparrow \) . . . use \( \text{[ ]} \) to select an entry \( \uparrow \) press the Talk key \( \text{[ ]} \)
If multiple numbers are entered:
- . . . use \( \text{[ ]} \) to select the number \( \uparrow \) press the Talk key \( \text{[ ]} \) . . . the number is dialled

For fast access (quick dial): Assign numbers from the directory to the digit or display keys.

Dialling from a public/central directory

Depending on the base to which the handset is connected to, you can dial from a public directory, the Gigaset.net directory (e.g. Gigaset GO-Box 100) or a central directory on a CAT-iq base.
- press and \( \text{hold} \) \( \text{[ ]} \)
Further information \( \Rightarrow \) in the detailed user guide for your telephone

Dialling from the redial list

The redial list contains the 20 numbers last dialled with the handset.
- Briefly press the Talk key \( \text{[ ]} \) . . . the redial list opens \( \uparrow \) . . . use \( \text{[ ]} \) to select an entry \( \uparrow \) press the Talk key \( \text{[ ]} \)
If a name is displayed:
- View . . . the number is displayed \( \uparrow \) . . . use \( \text{[ ]} \) to browse numbers if necessary \( \uparrow \) . . . when the required number is reached press the Talk key \( \text{[ ]} \)

Availability and operation of the functions may differ on your telephone.
Making calls

Managing entries in the redial list

- Briefly press the Talk key \(\text{Talk} \) ... the redial list opens
- ... use \(\text{E} \) to select an entry

Options ... possible options:

- Copy an entry to the directory: \(\text{Copy Directory} \) \(\text{OK}\)
- Copy the number to the display:
  - \(\text{Display number} \) \(\text{OK}\)
  - ... use \(\text{K} \) to edit or add numbers if necessary...
  - use \(\text{M} \) to save as a new entry in the directory
- Delete the selected entry: \(\text{Delete entry} \) \(\text{OK}\)
- Delete all entries: \(\text{Delete List} \) \(\text{OK}\)

Dialling from the call list

The call lists (\(\rightarrow\) p. 24) contain the most recent accepted, outgoing and missed calls.

- \(\text{Call Lists} \) \(\text{OK}\) ... use \(\text{K} \) to select a list
- \(\text{OK}\) ... use \(\text{K} \) to select an entry
- press the Talk key \(\text{Talk} \)

Example

<table>
<thead>
<tr>
<th>All calls</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Frank</strong></td>
</tr>
<tr>
<td>14.02.17, 15:40</td>
</tr>
<tr>
<td><strong>089563795</strong></td>
</tr>
<tr>
<td>13.02.17, 15:32</td>
</tr>
<tr>
<td><strong>Susan Black</strong></td>
</tr>
<tr>
<td>11.02.17, 13:20</td>
</tr>
</tbody>
</table>

The call lists can be displayed directly by pressing the display key **Calls** if the relevant function has been assigned to the display key.

The **Missed calls** list can also be opened by pressing the Message key \(\text{M} \).

Incoming calls

An incoming call is indicated by ringing, by a display on the screen and by the flashing Talk key \(\text{Talk} \). Accepting a call:

- Press the Talk key \(\text{Talk} \)
- If **Auto Answer** is activated: \(\rightarrow\) Remove the handset from the charging cradle
- Forward to the answer machine: \(\rightarrow\) **MD**
- Accept a call on the headset

Switch off ringtone: \(\rightarrow\) **Silence** ... the call can be accepted for as long as it is shown on the display

Switch Easy Acceptance on/off

Press the Talk key \(\text{Talk} \) or press the keys \(\text{0} \) \(\rightarrow\) \(\text{9} \) \(\rightarrow\) \(\text{*} \) \(\rightarrow\) \(\# \) \(\rightarrow\) **MD** to accept the call.

- \(\rightarrow\) ... use \(\text{K} \) to select **Settings** \(\text{OK}\)
- **Telephony** \(\text{OK}\)
- **Easy Acceptance** \(\text{Edit} (\text{MD} = \text{activated})\)

Changes are only saved permanently in **Profile Personal**.

Availability and operation of the functions may differ on your telephone.
Making calls

During a conversation

Handsfree mode
Activating/deactivating handsfree mode during a call, when establishing a connection and when listening to the answer machine:
➤ Press the handsfree key.

Placing the handset in the charging cradle during a call:
➤ Press and hold down the handsfree key ➤ . . . Place the handset in the charging cradle ➤ . . . hold for a further 2 seconds

Call volume
Applies to the current mode, handsfree mode or handset (or headset when the handset has a headset connection):
Press the volume keys / or ➤ . . . Use / or ➤ to set the volume ➤ Save

The setting is automatically saved after around 3 seconds, even if Save is not pressed.

Muting the microphone
When the microphone is switched off, callers will no longer hear you.
Switch the microphone on/off during a call: ➤ Press .
Local answer machine

(only on Gigaset bases with local answer machine)

Switching the answer machine on/off:

- use \( \rightarrow \) to select \( \square \) Answer Machine \( \rightarrow \) OK \( \rightarrow \) Activation \( \rightarrow \) OK \( \rightarrow \) use \( \rightarrow \) to select an answer machine (if there are several) \( \rightarrow \) Change \( \rightarrow \) use \( \rightarrow \) to select On or Off \( \rightarrow \) Save

Playing back messages:

- Press the Message key \( \rightarrow \) \( \rightarrow \) use \( \rightarrow \) to select an answer machine (if there are messages for several answer machines) \( \rightarrow \) OK

Recording a personal announcement/advisory message:

- use \( \rightarrow \) to select \( \square \) Answer Machine \( \rightarrow \) OK \( \rightarrow \) Announcements \( \rightarrow \) OK \( \rightarrow \) use \( \rightarrow \) to select Record Announcement or Rec. Advisory Msg. \( \rightarrow \) OK \( \rightarrow \) use \( \rightarrow \) to select an answer machine (if there are several) \( \rightarrow \) OK \( \rightarrow \) OK \( \rightarrow \) record an announcement (at least 3 seconds) \( \rightarrow \) possible options
  - Complete the recording and save:
  - Cancel the recording:
  - Resume the recording:
  - Repeat the recording:

Complete the recording \( \rightarrow \) End \( \rightarrow \) the announcement is played back for you to check
Cancel the recording: \( \rightarrow \) Press the End call key \( \rightarrow \) or Back
Resume the recording: \( \rightarrow \) OK
Repeat the recording: \( \rightarrow \) New
Local handset directory

The local directory is unique to the handset. However, it is possible to send entries to other handsets (p. 22).

Information about online directories (e.g. on a Gigaset GO-Box 100) or central directories on CAT-iq bases user guide of the base.

Opening the directory

Briefly press \( \downarrow \) in idle status

Directory entries

Number of entries: up to 200
Information: First name and surname, up to three telephone numbers, anniversary with alert, VIP ringtone with VIP icon
Length of the entries: Numbers: max. 32 digits
First name, surname: max. 16 characters

Creating an entry

New Entry > OK > ... use \( \uparrow \) to switch between the entry fields and enter data for an entry:

Names/numbers:

... use \( \uparrow \) to enter first names and/or surnames, at least one number (personal, office, or mobile) and an e-mail address, if applicable

Anniversary:

... use \( \uparrow \) to activate/deactivate Anniversary > ... use \( \uparrow \) to enter date and time > ... use \( \uparrow \) to select type of alert (Visual only or a ringtone)

Caller Melody (VIP):

... use \( \uparrow \) to select the ringtone that will indicate a call from the participant ... if a Caller Melody (VIP) has been assigned, the entry will appear in the directory with the VIP icon.

Save entry: Save

The entry is only valid if it contains at least one number.
Local handset directory

Searching for/Selecting a directory entry

- Press and hold \( \text{ } \) to browse searched names

or

- Use \( \text{ } \) to enter initial letters (max. 8 letters) ... the display jumps to the first name starting with these initial letters

... use \( \text{ } \) to continue browsing to the desired entry, if needed

Scroll through directory: \( \text{ } \) Press and hold \( \text{ } \)

Displaying/Changing an entry

- Use \( \text{ } \) to select entry \( \text{View} \) ... use \( \text{ } \) to select the field to be changed \( \text{Edit} \)

or

- Use \( \text{ } \) to select an entry \( \text{Options} \) \( \text{Edit entry} \) \( \text{OK} \)

Deleting entries

Delete the selected entry: \( \text{ } \) \( \text{Options} \) \( \text{Delete entry} \) \( \text{OK} \)

Delete all entries: \( \text{ } \) \( \text{Options} \) \( \text{Delete all} \) \( \text{OK} \) \( \text{Yes} \)

Setting the order of the directory entries

Directory entries can be sorted by first name or surname.

- Use \( \text{ } \) \( \text{Options} \) \( \text{Sort by Surname} \) / \( \text{Sort by First Name} \)

If no name was entered, the default telephone number is shown in the surname field. These entries appear at the beginning of the list, regardless of how the entries are sorted.

The sort order is as follows:

Space | Digits (0-9) | Letters (alphabetically) | Other characters.

Displaying the number of entries available in the directory

- Use \( \text{ } \) \( \text{Options} \) \( \text{Available Memory} \) \( \text{OK} \)

Copying number to the directory

Copy numbers to the directory:

- From a list e.g. the call list or the redial list
- When dialling a number

The number is displayed or highlighted.

- Press the display key \( \text{ } \) or \( \text{Options} \) \( \text{Copy to Directory} \) \( \text{OK} \) ... possible options:

Create a new entry:

- \( \text{<New Entry>} \) \( \text{OK} \) ... use \( \text{ } \) to select number type \( \text{OK} \) ... complete entry \( \text{Save} \)

Add number to an existing entry:

- ... use \( \text{ } \) to select an entry \( \text{OK} \)... use \( \text{ } \) to select number type \( \text{OK} \)... the number is entered or a prompt to overwrite an existing number is displayed ... if required, answer the prompt with \( \text{Yes/No} \) \( \text{Save} \)

Availability and operation of the functions may differ on your telephone.
Local handset directory

Copying an entry/directory

An external call interrupts the transfer.
Caller pictures and sounds are not transferred. Only the date is transferred for an anniversary.

Both handsets support vCards:
- No entry with the name is available: a new entry is created.
- An entry with the name is already available: The entry is expanded to include the new numbers. If the entry contains more numbers than allowed by the recipient handset, a second entry is created with the same name.

The recipient handset does not support vCards:
A separate entry is created and sent for each number.

The sending handset does not support vCards:
A new entry is created on the receiving handset and the transferred number is added to the Phone (Home) field. If an entry with this number already exists, the copied number is discarded.

Copying individual entries

Options Copy Entry OK to Internal OK . . . use to select the desired entry Options Copy Entry OK to Internal OK . . . use to select the receiving handset OK . . . the entry is copied

Copy the next entry after successful transfer: Press Yes or No

Copying the entire directory

Options Copy All OK to Internal OK . . . use to select the receiving handset OK . . . the entries are copied one after the other

Availability and operation of the functions may differ on your telephone.
Message lists

Notifications about missed calls, messages on the answer machine/network mailbox and missed alarms are saved in the messages list.

As soon as a **new message** arrives, an advisory tone will sound. The Message key also flashes (if activated). Activation from the handset is only possible on Gigaset bases. Use the web interface as required for CAT-iq routers. Information → user guide of the base/router.

Icons for message types and the number of new messages are shown on the idle display.

Notification for the following message types is available:
- on the answer machine/network mailbox
- in the missed calls list
- in the missed alarms list

The icon for the network mailbox is always displayed, provided the number is stored in the telephone. The other lists are only displayed if they contain messages.

Display messages:
- Press the Message key . . . Messages lists that contain messages are displayed, **Mailbox**: is always displayed
  - An entry is marked in **bold**: new messages are available. The number of new messages is shown in brackets.
  - An entry is **not** marked in bold: no new messages. The number of old messages is shown in brackets.
- . . . use to select a list OK . . . the calls or messages are listed
  - Network mailbox: The network mailbox number is dialled.

The message list contains an entry for every answer machine assigned to the handset, e.g. for the local answer machine on a Gigaset base / CAT-iq router or for a network mailbox.
Call lists

The telephone saves different types of calls (missed, accepted and outgoing calls) in lists.

The base/router to which the handset is registered provides information on call numbers.
Detailed information can be found at www.gigaset.com/compatibility.

List entry
The following information is displayed in the list entries:
• The list type (in the header)
• Icon for the type of entry:
  - Missed calls
  - Accepted calls
  - Outgoing calls
  - Call on the answer machine
• Caller’s number. If the number is stored in the directory, the name and number type (Phone (Home), Phone (Office), Phone (Mobile)) are shown instead. In the event of missed calls, the number of missed calls from this number is also shown in square brackets.
• Connection by which the call was received/made
• Date and time of call (if set)

Opening the call list
Via the display key:
  - Calls . . . use to select the list . . . OK
Via the menu:
  - . . . use to select Call Lists . . . OK . . . use to select the list . . . OK
Via the Message key (missed calls):
  - Press the Message key Missed Calls: OK

Calling back a caller from the call list
  - . . . use to select Call Lists . . . OK . . . use to select list . . . OK . . . use to select entry . . . Press the Talk key

Additional options
  - . . . use to select Call Lists . . . OK . . . use to select list . . . OK . . . use to select entry . . . Options

View an entry: . . . use to select entry . . . View
Copy the number to the directory:
  - . . . use to select entry Options Copy to Directory
Delete an entry: . . . use to select entry Options Delete entry OK
Delete list: Options Delete List OK Yes
Additional functions

The functions actually available on your telephone and how they are operated depends on the base/router to which the handset is registered.

The following description applies to a Gigaset GO-Box 100. The procedure required for your telephone may differ from the procedures described here.

Additional information

Regarding the telephone system, if the handset is connected to a Gigaset base:

➤ User guide for your Gigaset telephone

Regarding the telephone system, if the handset is connected to another base/router:

➤ Documentation regarding your base/your router

You can obtain all Gigaset user guides in PDF format:  ➤ www.gigaset.com/manuals

online:  ➤ Gigaset Help app for your smartphone or tablet
Sound profiles

The telephone has 3 sound profiles for adapting the handset to the environmental conditions: Profile Loud, Profile Silent, Profile Personal

- Use [ ] to switch between the profiles ... the profile is changed straight away without a prompt

The profiles are set as follows by default:

<table>
<thead>
<tr>
<th>Default setting</th>
<th>Profile Loud</th>
<th>Profile Silent</th>
<th>Profile Personal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Silent alert</td>
<td>On</td>
<td>Same as Profile Silent</td>
<td>Off</td>
</tr>
<tr>
<td>Ringtone</td>
<td>On</td>
<td>Off</td>
<td>On</td>
</tr>
<tr>
<td>Ringtone volume</td>
<td>Internal 5</td>
<td>Off</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>External 5</td>
<td>Off</td>
<td>5</td>
</tr>
<tr>
<td>Handset volume</td>
<td>Receiver 5</td>
<td>3</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Handsfree 5</td>
<td>3</td>
<td>3</td>
</tr>
<tr>
<td>LED light for a call</td>
<td>Yes</td>
<td>No</td>
<td>No</td>
</tr>

</tr>
<tr>
<td></td>
<td>Battery tone Yes</td>
<td>Yes</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Activate alert tone for an incoming call for Profile Silent: [ ] after switching to Profile Silent press the display key Beep ... the icon [ ] appears in the status bar

Changes to the settings listed in the table:
- apply in the Loud and Silent profiles as long as the profile is not changed.
- are permanently saved in Profile Personal for this profile.

The set profile remains set when switching the phone off and back on.

Availability and operation of the functions may differ on your telephone.
Spot LED

Use the telephone as a torch. The spot LED is located on the top of the handset (☞ p. 3).

Activating the torch function
- Press the display key Spot LED.

or
- ☞ use — to select Additional Features ≫ OK ☞ Spot LED ≫ OK

Deactivating the torch function
- Press the display key OFF

or: after 2 minutes the function is automatically deactivated.

Visual indication of incoming calls ☞ p. 37
Calendar

You can remind yourself of up to **30 appointments**.
In the calendar, the current day is outlined in white; on days with appointments, the numbers are displayed in colour. When a day is selected, it will be outlined in colour.

### Saving appointments to the calendar

- **Date and time have been set.**

  - Use 🔄 to select ⭐ Additional Features ➤ OK ➤ 📅 Calendar ➤ OK ➤ 🔄 to select desired day ➤ OK ➤ ... then
  - Switch on/off: ⚽️ Use 🔄 to select On or Off
  - Enter date: 📅 Use 🔄 to enter new date
  - Enter time: 🕒 Use 🔄 to enter hours and minutes of the appointment
  - Set name: 📔 Use 🔄 to enter a description of the appointment (e.g. evening meal, meeting)
  - Set alarm tone: ⏰ Use 🔄 to select the melody of the reminder alarm or deactivate the acoustic signal
  - Enter information for the appointment:
    - ⚽️ Use 🔄 to successively select Date, Time, Text and Signal ➤ ⚽️ Use 📔 or 📔 to set the relevant value ➤ Save
  - Save appointment: ⚽️ Save

If an appointment has already been entered: 🔄 <New Entry> ➤ OK ➤ ... Then enter information for the appointment.

### Notification of appointments/anniversaries

Anniversaries are transferred from the directory and displayed as an appointment. An appointment/anniversary is displayed in idle status and the selected ringtone plays for 60 seconds as a notification.

- Acknowledge and stop the reminder: ⚽️ Press the display key OFF
- Permanently modify the ringtone volume: ... Press the volume keys ➪ / ➫ during the reminder
During a call, a reminder is indicated on the handset **once** with an advisory tone on the handset.

**Displaying missed appointments/anniversaries**
The following appointments and anniversaries are saved in the Missed Alarms list:
- The appointment/anniversary call was not acknowledged.
- The appointment/anniversary was notified during a phone call.
- The handset was switched off at the time of the appointment/anniversary.

The last 10 entries are stored. The icon and the number of new entries are shown in the display. The most recent entry appears at the top of the list.

**Opening the list**
- Press the Message key  Missed Alarms: OK  . . . use to browse through the list of any appointments

or

-  . . . use to select Additional Features OK  Missed Alarms OK

Each entry is displayed with the number or name, date and time. The most recent entry appears at the top of the list.
- Delete an appointment/anniversary: **Delete**

**Displaying/changing/deleting stored appointments**
-  . . . use to select Additional Features OK  Calendar OK  . . . use to select day OK  . . . the appointment list is displayed  . . . use to select date  . . . possible options:

Display appointment details:
- View . . . The appointment settings are displayed

Change appointment:
- View  Edit
  or  Options  Edit entry  OK

Activate/deactivate appointment:
- Options  Activate/Deactivate  OK

Delete appointment:
- Options  Delete entry  OK

Delete all appointments for a day:
- Options  Delete all Appoints.  OK  Yes
Alarm clock

Activating/deactivating the alarm clock and setting the wake-up time

Switch on/off:
- Activation: ... use " to select On or Off
Setting the wake-up time:
- Time ... use " to enter hours and minutes
Set days:
- Occurrence ... use " to switch between Monday-Friday and Daily
Set the volume:
- Volume ... use " to set volume in 5 levels or select crescendo (increasing volume)
Set alarm:
- Melody ... use " to select a ringtone for the alarm
Enter alarm data:
- ... use " to successively select Time, Occurrence, Volume and Melody ... use " or " to set the relevant value ... Save
Save settings:
- ... Save

When the alarm clock is activated, the icon and the wake-up time are displayed in idle display.

Alarm

An alarm is shown on the display and indicated by the selected ringtone melody. The alarm sounds for 60 seconds. If no key is pressed, the alarm is repeated after 5 minutes. After the second repetition, the alarm call is deactivated for 24 hours.

During a call, the alarm is only indicated by a short tone.

Switching off/repeating the alarm after an interval (snooze mode)

Deactivate the alarm: ... OFF
Repeat the alarm (snooze mode): ... Press Snooze or any key ... the alarm is switched off and repeated after 5 minutes.
Baby monitor

When the baby monitor is switched on, the stored (internal or external) destination number is called as soon as a defined noise level is exceeded in the vicinity of the handset. The alarm to an external number is cancelled after approximately 90 seconds.

You can answer the alarm using the Two Way Talk function. This function is used to switch the loudspeaker of the handset located in the baby's room on or off.

In baby monitor mode, incoming calls are only indicated on the display (without ringtone). The display backlight is reduced to 50%. Advisory tones are deactivated. All keys are locked, with the exception of the display keys and the ability to press the centre of the control key.

If you accept an incoming call, the baby monitor mode is suspended for the duration of the call, but the function remains activated. The baby monitor mode is not deactivated by switching the handset off and on again.

The handset should be positioned 1 to 2 metres away from the baby. The microphone must point towards the baby.

Activating the function reduces the operating time of your handset. For that reason, place the handset in the charging cradle if necessary.

The baby monitor is activated 20 seconds after switching on.

The answer machine for the destination number must be switched off.

After switching on:
- Test sensitivity.
- Test the connection, if the alarm is being forwarded to an external number.

Activating and setting the baby monitor

- Select Additional Features > OK > Baby Monitor > OK

Switch on/off:
- Activation: Select On or Off

Enter destination:
- Send alarm to: Select External or Internal
  - External: Number
  - Internal: Handset Change

Activate/deactivate two-way talk:
- Two Way Talk

Set microphone sensitivity:
- Sensitivity

Save settings: Save

The destination number is displayed in idle display when the baby monitor is activated.

Availability and operation of the functions may differ on your telephone.
Baby monitor

Deactivate baby monitor / cancel alarm

Deactivate the baby monitor:  ▶ In idle status press the display key OFF

Cancel the alarm:  ▶ Press the End call key during an alarm

Deactivate the baby monitor remotely

The alarm is forwarded to an external destination number.
The receiving phone supports tone dialling.

▶ Accept alarm call  ◀ Press keys 9 #

The baby monitor is deactivated and the handset is in idle status. The baby monitor settings on the handset (e.g. no ringtone) will remain activated until you press the display key OFF.

Reactivate baby monitor with the same number:  ▶ . . . Activation to switch back on ( p. 31)  ▶

Save
Protection against unwanted calls

Time control for external calls

Date and time have been set.

Enter a time period during which the handset should suspend ringing to indicate external calls e.g. during the night.

Example

<table>
<thead>
<tr>
<th>Time Control</th>
</tr>
</thead>
<tbody>
<tr>
<td>For external calls:</td>
</tr>
<tr>
<td>On</td>
</tr>
<tr>
<td>Suspend ring. from:</td>
</tr>
<tr>
<td>Suspend ring. until:</td>
</tr>
</tbody>
</table>

The time control only applies to the handset for which the setting is configured.

The telephone will continue to ring for numbers that have been assigned to a VIP group in the directory.

Protection from anonymous callers

The handset will not ring if callers' numbers are not revealed. This setting can be applied to only one or to all registered handsets.

For one handset

For all handsets

(only on some Gigaset bases)

Save settings:

Availability and operation of the functions may differ on your telephone.
Protection against unwanted calls

Black list

(only on some Gigaset bases: ➔ www.gigaset.com/compatibility)
When the black list function is activated, calls from black list numbers are not indicated or are only indicated in the display. These settings apply to all registered handsets.

Displaying/editing the black list

- ➔ use ➔ to select ➔ Settings ➔ OK ➔ ➔ Telephony ➔ OK ➔ Black List ➔ Edit ➔ Blocked Numbers ➔ OK ... the list of blocked numbers is displayed ... possible options:
  Create an entry: ➔ New ➔ ... use ➔ to enter a number ➔ Save
  Delete an entry: ➔ ... use ➔ to select an entry ➔ Delete ... the entry is deleted

Transferring a number from a call list to the black list

- ➔ use ➔ to select ➔ Call Lists ➔ OK ➔ ... use ➔ to select Accepted calls/ Missed calls ➔ OK ➔ ... use ➔ to select entry ➔ Options ➔ Copy to Blacklist ➔ OK

Setting the protection mode

- ➔ use ➔ to select ➔ Settings ➔ OK ➔ ➔ Telephony ➔ OK ➔ ➔ Black List ➔ Edit ➔ Protection Mode ➔ OK ➔ ... use ➔ to select desired protection:
  No Protection All calls are indicated, including from callers whose numbers are on the black list.
  Silent Call The telephone will not ring and the incoming call will only appear in the display.
  Block Call The telephone will not ring and the incoming call will not appear in the display. The caller will hear the busy tone.

Save settings: ➔ Save
Adjusting the telephone settings

Handset

Changing the language

Press the keys 4 5 to select Settings OK Language OK 
... use to select language Select ( = selected)

If the handset has been set to an incomprehensible language:

Press the keys 6 5 slowly one after the other ... use to select the correct language press the right display key

Display

Screensaver

A digital or analogue clock, Info Services and a range of pictures can be selected to be displayed as a screensaver when in idle status.

Press the keys 4 5 to select Settings OK Display OK Screensaver Edit ( = on) ... then

Switch on/off: Activation: ... use to select On or Off
Select screensaver: Selection ... use to select a screensaver (Digital Clock / Analog Clock / Info Services /<Pictures>)

View screensaver: View
Save selection: Save

The screensaver is activated approx. 10 seconds after the display has changed to idle status.

End screensaver

Briefly press the End call key ... the idle display appears

Display of info services as screensaver

(only on a Gigaset GO-Box 100 or other Gigaset-IP base)

Info Services are activated via the web configurator.
The telephone is connected to the Internet.

Example: Enable weather service as screensaver

Enable info services as screensaver:

Press the keys 4 5 to select Settings OK Display OK Screensaver Edit ... use to select Activation: On Selection ... select as screensaver with Info Services Save

Availability and operation of the functions may differ on your telephone.
**Handset**

Select locations:

- Use to select Additional Features \[\] Info Centre \[\] Weather \[\]
- OK \[\] Add locations \[\] OK \[\] ... specify location names with \[\] OK ... a list of locations with this name is displayed \[\] ... select location with \[\] OK \[\] Save

Multiple locations can be entered. Once you have entered all locations required: ... Use \[\] to go back

Enable screensaver:

- Use to select Additional Features \[\] Info Centre \[\] Screensaver \[\] OK \[\] Weather \[\] OK ... select location with \[\] OK \[\] Save

The type of info service available to your phone is set on the Internet on the Gigaset.net server.

If no information is currently available, the digital time (Digital Clock) is displayed instead until information is available again.

**Switching Info Services on/off**

(only on a Gigaset GO-Box 100 or other Gigaset-IP base)

The text information from the Internet that is set for the screensaver Info Services can be displayed as a scrolling message in the idle display.

- Use to select Settings \[\] Display \[\] OK \[\] Info Ticker \[\] Edit ( = on)

The text appears as soon as the telephone changes to idle status. If a message is shown in the idle display, the info text is not displayed.

**Colour scheme**

You can choose from a range of colour combinations for the display.

- Use to select Settings \[\] Display \[\] Colour Schemes \[\] OK ... use to select the required colour scheme \[\] Select ( = selected)

**Display backlight**

The display backlight always illuminates when the handset is taken out of the base station/charging cradle or when a key is pressed. Any digit keys that are pressed appear on the display for pre-dialling.

Switch the display backlight on/off when in idle status:

- Use to select Settings \[\] Display \[\] Backlight \[\] OK ... then

  Backlight when in the charging cradle:

  - In Charger: ... use to select On or Off

  Backlight when not in the charging cradle:

  - Out of Charger ... use to select On or Off

  Save selection: ... Save

Availability and operation of the functions may differ on your telephone.
Handset

The handset's standby time may be significantly reduced if the display backlight is switched on.

Activating/deactivating Auto Answer
When set to Auto Answer, the handset accepts an incoming call as soon as it is removed from the charging cradle.

- Press the keys to select Settings OK Telephony OK Auto Answer

Regardess of the Auto Answer setting, the connection ends as soon as you place the handset back in the charging cradle. Exception: Press and hold the handsfree key for a further 2 seconds while placing the handset in the charging cradle.

Activating/deactivating visual call signal
Visual indication of incoming calls via the spot LED (e.g. in noisy environments).

- Press the keys to select Settings OK Telephony OK LED Call Signal Change

Changes are only saved permanently in Profile Personal.

Changing the earpiece and handsfree volume
You can set the volume of the earpiece and speaker at 5 levels independently of each other.

Changes are only saved permanently in Profile Personal.

During a conversation
- Press the volume keys / on the right side of the handset

or
- Handset Volume . . . use to select volume Save . . . the setting is saved

Without saving, the setting is automatically saved after around 3 seconds.

In idle status
- Press the keys to select Settings OK Audio Settings OK Handset Volume OK

For the earpiece:
- Earpiece: . . . use to set the volume

For the speaker:
- Speaker . . . use to set the volume

Save settings: Save

Availability and operation of the functions may differ on your telephone.

    - Withhold phone number identification for next call
  - **Call Divert**
    - Activate/deactivate Call Divert

The availability of options depends on the base.

Starting a function

With the telephone in idle status: \(\text{briefly}\) press . . . the assigned function is executed

Changing the name of a connection (line)

(only on a CAT-iq router)

- \(\text{p} \text{p}\) . . . use \(\text{ok}\) to select \(\text{ok}\) **Settings** \(\text{ok}\) **Telephony** \(\text{ok}\) **Connections** \(\text{ok}\) . . . all available connections (lines) are displayed . . . use \(\text{ok}\) to select connection \(\text{ok}\) **Connection Name** \(\text{ok}\) . . . use \(\text{ok}\) to change the name of the connection \(\text{ok}\) **Save**

Assigning handsets to a connection (line)

(only on a CAT-iq router)

Multiple handsets can be assigned to a connection. Incoming calls to the number designated to a connection will be forwarded to all handsets assigned to the connection.

- \(\text{p} \text{p}\) . . . use \(\text{ok}\) to select \(\text{ok}\) **Settings** \(\text{ok}\) **Telephony** \(\text{ok}\) **Connections** \(\text{ok}\) . . . use \(\text{ok}\) to select connection \(\text{ok}\) **Assigned Handsets** . . . all registered handsets are displayed . . . use \(\text{ok}\) to select handset \(\text{ok}\) **Change** \(\text{ok}\) = handset is assigned

Availability and operation of the functions may differ on your telephone.
Handset

Permit/prevent multiple calls
(only on a CAT-iq router)
If the function is activated, multiple calls can be made in parallel.

- Select Settings → Telephony → OK → Multiple Calls → OK
- Change (on)

Permit/prevent internal listening in
(only on a CAT-iq router)
If the function is enabled, an internal party can listen in to an external call and take part in the conversation (conference).

- Select Settings → Telephony → OK → Multiple Calls → OK
- Change (on)

Handset update
The handset supports firmware updating via the DECT radio link to the base/router (SUOTA = Software Update Over The Air).

- The base/router to which the handset is registered must also support this function (www.gigaset.com/compatibility)

If new firmware is available for the handset a message to this effect will be displayed.

- Start the firmware update with Yes.

Start the firmware update manually:

- Select Settings → System → OK → Handset Update → OK → Update → OK → OK → OK (on)

The update process may take up to 30 minutes. During this time, only restricted handset use is available.

Availability and operation of the functions may differ on your telephone.
Resetting the handset to the default settings

Reset any individual settings and changes that you have made.

- Use to select Settings → OK → System → OK → Handset Reset → OK → Yes...the handset's settings are reset

The following settings are not affected by a reset
- Registration of the handset to the base station
- Date and time
- Directory entries and call lists

Please have your proof of purchase ready when calling.

Please note that if the Gigaset product is not sold by authorised dealers in the national territory the product may not be fully compatible with the national telephone network. It is clearly specified on the box near the CE mark for which country/countries the equipment has been developed. If the equipment is used in a manner inconsistent with this advice or with the instructions of the manual and on the product itself, this may have implications on the conditions for warranty or guarantee claims (repair or exchange of product).
In order to make use of the warranty, the product purchaser is asked to submit a receipt which proves the date of purchase (date from which the warranty period starts) and the type of goods that have been purchased.

Guarantee Certificate - United Kingdom and Ireland
Without prejudice to any claim the user (customer) may have in relation to the dealer or retailer, the customer shall be granted a manufacturer's Guarantee under the conditions set out below:

• In the case of new devices and their components exhibiting defects resulting from manufacturing and/or material faults within 24 months of purchase, Gigaset Communications shall, at its own option and free of charge, either replace the device with another device reflecting the current state of the art, or repair the said device. In respect of parts subject to wear and tear (including but not limited to, batteries, keypads, casing), this warranty shall be valid for six months from the date of purchase.
• This Guarantee shall be invalid if the device defect is attributable to improper care or use and/or failure to comply with information contained in the user manuals. In particular claims under the Guarantee cannot be made if:
  • The device is opened (this is classed as third party intervention)
  • Repairs or other work done by persons not authorised by Gigaset Communications.
  • Components on the printed circuit board are manipulated
  • The software is manipulated
  • Defects or damage caused by dropping, breaking, lightning or ingress of moisture. This also applies if defects or damage was caused by mechanical, chemical, radio interference or thermal factors (e.g.: microwave, sauna etc.)
Customer service & product warranty – Australia and New Zealand

- Devices fitted with accessories not authorised by Gigaset Communications
- This Guarantee shall not apply to or extend to services performed by the authorised dealer or the customer themselves (e.g. installation, configuration, software downloads). User manuals and any software supplied on a separate data medium shall be excluded from the Guarantee.
- The purchase receipt, together with the date of purchase, shall be required as evidence for invoking the Guarantee. Claims under the Guarantee must be submitted within two months of the Guarantee default becoming evident.
- Ownership of devices or components replaced by and returned to Gigaset Communications shall vest in Gigaset Communications.
- This Guarantee shall apply to new devices purchased in the European Union. For Products sold in the United Kingdom and in the Republic of Ireland the Guarantee is issued by: Gigaset Communications UK Limited, 2 White Friars, Chester, CH1 1NZ.
- Any other claims resulting out of or in connection with the device shall be excluded from this Guarantee. Nothing in this Guarantee shall attempt to limit or exclude a Customers Statutory Rights, nor the manufacturer’s liability for death or personal injury resulting from its negligence.
- The duration of the Guarantee shall not be extended by services rendered under the terms of the Guarantee.
- Insofar as no Guarantee default exists, Gigaset Communications reserves the right to charge the customer for replacement or repair.
- The above provisions do not imply a change in the burden of proof to the detriment of the customer.

Exclusion of liability
Your handset’s display consists of pixels. Each pixel consists of three sub-pixels (red, green, blue). It may be the case that a sub-pixel is missing or has a colour deviation. A warranty claim is only valid if the maximum number of permitted pixel errors is exceeded.

<table>
<thead>
<tr>
<th>Description</th>
<th>Maximum number of permitted pixel errors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colour illuminated sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Dark sub-pixels</td>
<td>1</td>
</tr>
<tr>
<td>Total number of coloured and dark sub-pixels</td>
<td>1</td>
</tr>
</tbody>
</table>

Signs of wear on the display and casing are excluded from the warranty.

Customer service & product warranty – Australia and New Zealand

IMPORTANT
Please retain your sales receipt as proof of the date of purchase.

Customer Service
If you require assistance in operating this product please contact us
AUS: +61 1300 780 878 or by e-mail at the Customer Care section of our website at www.gigaset.com.
NZ: 0800 780 878 or by e-mail at the Customer Care section of our website at www.gigaset.com.
If you are trying to access a Network Service and require assistance specifically related to the network service or would like to subscribe to the service, contact your service provider.
Customer service & product warranty – Australia and New Zealand

Product Warranty

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a repair or replacement for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Subject to the conditions stated in this Product Warranty Section, this product, excluding battery and accessory devices, is guaranteed against any defect in materials or workmanship under conditions of normal use for a period of 12 months from date of purchase (Product Warranty).

The benefits conferred by this warranty are in addition to other warranties and remedies that are implied under the Australian Trade Practices Act and similar Country, State and Territory laws (Statutory Rights). For New Zealand customers, this warranty is in addition to statutory rights observed under New Zealand Legislation.

Subject to your Statutory Rights, the goods will not be eligible for service under this warranty if:

1. Proof of purchase cannot be provided;
2. The defect was caused by an accident, misuse, abuse, improper installation or operation, vermin infestation, lack of reasonable care, unauthorised modification, loss of parts, tampering or attempted repair by a person not authorised by Gigaset; or
3. The product has been damaged by lightning or a mains power surge.
4. The Phone was not imported into Australia by Gigaset Communications GmbH.

To obtain service during the terms of this warranty and/or to claim warranty call the Information Line on AUS: +61 1300 780 878 or by e-mail at the Customer Care section of our website at www.gigaset.com.

NZ: 0800 780 878

If it is necessary to have the product serviced, the customer service representative will inform you of the product return process. If it is necessary to have the product serviced under warranty in both Australia and New Zealand you will need to return the product to your place of purchase. If this is not possible please call the relevant Technical Support line listed in this document whereby the customer service representative will inform you of the product return process. Except as explicitly stated in this document, all other expenses with regard to claiming Product Warranty shall be borne by you.

Please ensure that:

1. You provide proof of purchase;
2. Your product is suitably packaged; and
3. You have included all components from the original purchase.

In Australia and New Zealand the product will be serviced within ten business days after the defective product is received by the authorised agent.

Any and all warranty services referred to under this Product Warranty will be provided

- **In Australia** by CommPlus Distribution, Unit 3a, 100 Station Street, Nunawading, Victoria, 3131 Phone: +61 1300 780 878, and by PBAX warehouse, Unit 20/28 Barcoo Street, Roseville 2069 Phone: 1300 768 548, and
- **in New Zealand** by Atlas Gentech (NZ) Limited, 76 Carbine Road, Mt Wellington, Auckland 1741 Phone: 0800 780 878.

Subject to your Statutory Rights:

1. Any claim under this warranty is limited to the cost of repair or replacement of the product; and
2. If the goods are found to be in sound working order by the authorised service centre, you may be charged a fee for service and for any other direct costs associated with having the product delivered for service.

Replacement or repair services are only offered for products purchased in Australia and New Zealand that bear RCM or Telepermit markings respectively.

Please have your proof of purchase ready when calling.
Manufacturer's advice

IMPORTANT NOTICE:
Under power failure conditions, this telephone may not operate. 
Please ensure that a separate telephone, not dependent upon local power, is available for emergency use.

Manufacturer's advice

Authorisation
This device is intended for use worldwide. Use outside the European Economic Area (with the exception of Switzerland) is subject to national approval.
Country-specific requirements have been taken into consideration.
Hereby, Gigaset Communications GmbH declares that the radio equipment type Gigaset E630HX is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address: www.gigaset.com/docs.
This declaration could also be available in the "International Declarations of Conformity" or "European Declarations of Conformity" files.
Therefore please check all of these files.

Environment

Environmental management system
Gigaset Communications GmbH is certified pursuant to the international standards ISO 14001 and ISO 9001.

ISO 14001 (Environment): Certified since September 2007 by TÜV SÜD Management Service GmbH.
ISO 9001 (Quality): Certified since 17/02/1994 by TÜV SÜD Management Service GmbH.

Disposal
Batteries should not be disposed of in general household waste. Observe the local waste disposal regulations, details of which can be obtained from your local authority.
All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

This crossed-out wheeled bin symbol on the product means the product is covered by the European Directive 2012/19/EU.
The correct disposal and separate collection of your old appliance will help prevent potential negative consequences for the environment and human health. It is a precondition for reuse and recycling of used electrical and electronic equipment.
For more detailed information about disposal of your old appliance, please contact your local council refuse centre or the original supplier of the product.
Manufacturer's advice

Care
Wipe the device with a damp cloth or an antistatic cloth. Do not use solvents or microfibre cloths. Never use a dry cloth; this can cause static. In rare cases, contact with chemical substances can cause changes to the device's exterior. Due to the wide variety of chemical products available on the market, it was not possible to test all substances. Impairments in high-gloss finishes can be carefully removed using display polishes for mobile phones.

Contact with liquid
Your handset is splash proof. If it comes into contact with water, knock the water out of the microphone opening and remove any water on the handset with an absorbent cloth. Your handset is ready for use.
If your handset comes into contact with a larger amount of liquid take the following steps:
1. Disconnect the power supply.
2. Remove the batteries and leave the battery compartment open.
3. Allow the liquid to drain from the device.
4. Pat all parts dry.
5. Place the device in a dry, warm place for at least 72 hours (not in a microwave, oven etc.) with the battery compartment open and the keypad facing down (if applicable).
6. Do not switch on the device again until it is completely dry.
When it has fully dried out, you will normally be able to use it again.
# Technical data

## Batteries
- **Technology:** 2 x AAA NiMH
- **Voltage:** 1.2 V
- **Capacity:** 750 mAh

## Handset operating times/charging times
The operating time of your Gigaset depends on the capacity of the battery, its age and the way it is used. (All times are maximum possible times.)

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
