> **i** Not all functions described in the user guide are available in all countries or from all network providers.

Overview

Handset

1 **Display**
2 **Status bar** (➔ p. 76)
Icons display current settings and operating status of the telephone
3 **Volume keys** (➔ p. 15)
for **receiver/headset**, **ringtone**, **handsfree mode** and **appointment** reminders
4 **Display keys** (➔ p. 15)
Various functions, depending on the operating situation

5 **End call key / On/off key**

End call; Cancel function; one level back	▶ Press **briefly**
Back to idle mode; Switch the handset on/off	▶ Press and **hold**

6 **Message key** (➔ p. 30)
Access to the call and message lists;
Flashes: new message or new call
7 **Profile key**
Switch between sound profiles
8 **Hash key**

Lock/unlock the keypad	▶ Press and **hold**
Toggle between upper/lower case and digits	▶ Press **briefly**

9 **USB connection socket**
For data exchange between the handset and PC
10 **Microphone**
11 **Star key**

Open special characters table	▶ Press **briefly**

12 **Headset connection** (2.5 mm jack)
13 **Key 1**

Select network mailbox	▶ Press and **hold**

14 **Recall key**

Consultation call (flash)	▶ Press **briefly**
Insert a dialling pause	▶ Press and **hold**

15 **Talk key** / **Handsfree key**

Accept call; dial number displayed; switch between earpiece mode and handsfree mode; send SMS; open the redial list	▶ Press **briefly**
Start dialling	▶ Press and **hold**

16 **Control key / Menu key** (➔ p. 14)
Open a menu; navigate in menus and entry fields; access functions

ⓘ If multiple functions are listed, the button function depends on the situation.

Subject to technical and visual modifications as part of the product improvement process.

Base station

A   Registration/paging key
Locate a handset (paging)   ▶ Press **briefly**
Register handset   ▶ Press and **hold**

Example: Switching Auto answer on/off

▶ ⬛ ▶ 🔘 ⚙ **Settings** ▶ **OK** ▶ 🔘 **Telephony** ▶ **OK** ▶ **Auto Answer** ▶
Change (☑ = activated)

Symbols	Meaning
▶	Every arrow initiates an action.
▶ ⬛	When in idle status press the **centre** of the control key. The main menu opens.
▶ 🔘 ⚙ ▶ **OK**	Navigate to the ⚙ icon using the control key 🔘. Select **OK** to confirm. The submenu **Settings** opens.
▶ 🔘 **Telephony** ▶ **OK**	Select the **Telephony** entry using the control key 🔘. Select **OK** to confirm. The submenu **Telephony** opens.
▶ **Auto Answer**	The function to switch Auto answer on/off appears as the first menu item.
▶ **Change**	Select **Change** to activate or deactivate. Function is activated ☑ /deactivated ⬛ .

Safety precautions

	Read the safety precautions and the user guide before use.
	The device cannot be used in the event of a power failure. In case of a power failure it is also **not** possible to make **emergency calls**. Emergency numbers **cannot** be dialled if the **keypad/display lock** is activated!

	Use only **rechargeable batteries** that correspond to the **specification** (see list of permitted batteries ➡ www.gigaset.com/service). Never use a conventional (non-rechargeable) battery or other battery types as this could result in significant health risks and personal injury. Rechargeable batteries, which are noticeably damaged, must be replaced.
	The handset must not be operated if the battery cover is open. Ensure that the batteries can not be short-circuited by objects in the battery compartment.
	Do not use the devices in environments with a potential explosion hazard (e.g. paint shops).
	The devices are not splashproof. For this reason do not install them in a damp environment such as bathrooms or shower rooms.
	Use only the power adapter indicated on the device. Whilst charging, the power socket must be easily accessible.
	Remove faulty devices from use or have them repaired by our Service team, as these could interfere with other wireless services.
	Do not use the device if the display is cracked or broken. Broken glass or plastic can cause injury to hands and face. Send the device to our Service department to be repaired.
	Do not hold the rear of the handset to your ear when it is ringing or when speaker mode is activated. Otherwise you risk serious and permanent damage to your hearing. The phone may cause interference in analogue hearing aids (humming or whistling) or cause them to overload. If you require assistance, please contact the hearing aid supplier.
	Keep small cells and batteries, which can be swallowed, out of the reach of children. Swallowing a battery can lead to burns, perforation of soft tissue and death. Severe burns can occur within 2 hours of swallowing. In the case of a swallowed cell or battery, seek medical care immediately.
	Using your telephone may affect nearby medical equipment. Be aware of the technical conditions in your particular environment, e.g. doctor's surgery. If you use a medical device (e.g. a pacemaker), please contact the device manufacturer. They will be able to advise you regarding the susceptibility of the device to external sources of high frequency energy (for the specifications of your Gigaset product see "Technical data").

Getting started

Contents of the package

- One **base station**,
- One power adapter for the base station,
- One phone cable,
- One **handset**,
- One battery cover,
- Two batteries,
- One belt clip,
- One user guide

Models with multiple handsets, per handset:

- One handset,
- One charging cradle incl. power adapter,
- Two batteries, one battery cover and one belt clip

> The base station and charging cradle are designed for use in closed, dry rooms within a temperature range of +5 °C to +45 °C.
>
> Position the base on a level, non-slip surface at a central point in the flat or house. The device's feet do not usually leave any marks on surfaces. However, due to the multitude of different varnishes and polishes used on furniture, contact marks on the surfaces cannot be completely ruled out.
>
> Never expose the telephone to heat sources, direct sunlight or other electrical devices.
>
> Protect your telephone from moisture, dust, corrosive liquids and vapours.

Connecting the base station

▸ Insert the phone cable into the connection socket 1 at the rear of the base station and feed under the cable protection.

▸ Insert the power cable for the power adapter into the connection socket 2 at the rear of the base station and rotate the right-angle plug under the cable protection.

▸ **First** connect the power adapter 3.

▸ **Then** connect the phone jack 4.
> ❗ The network cable must **always be connected** in order to function, as the phone will not operate without a power supply.
>
> Only use the **supplied** network cable and phone cable. The pin connections on phone cables may vary (➡ pin connection can be found in the appendix).

Handset

Connecting the charging cradle (if included)

▸ Connect the flat plug of the power adapter 1.

▸ Plug the power adapter into the power socket 2.
To remove the plug from the charging cradle again:

▸ Disconnect the power adapter from the mains power supply.

▸ Press the release button 3.

▸ Pull out the plug 4.

Setting up the handset for use

The display is protected by a plastic film. ▶ **Please remove the protective film!**

Inserting the batteries

> ⚠ Only use rechargeable batteries, as this could otherwise result in significant health risks and personal injury. For example, the outer casing of the batteries could be destroyed or the batteries could explode. The device could also malfunction or be damaged as a result of using batteries that are not of the recommended type.
▶ Insert the batteries (for correct +/- direction, see diagram).

▶ Fit the battery cover from the top.

▶ Press the cover until it clicks into place.

To re-open the battery cover:

▶ Insert a fingernail behind the notch at the top of the cover and slide it downwards.

Charging the batteries

▶ Charge the batteries fully prior to first use in the base station/charging cradle or using a standard USB mains adapter.

The batteries are fully charged when the power icon ⚡ disappears from the display.
> ⓘ The battery may heat up during charging. This is not dangerous.
>
> After a time, the charge capacity of the battery will decrease for technical reasons.
>
> Handsets contained in the package have already been registered to the base station. In the event that a handset is not registered however, (indicated by **Please register handset**), register the handset manually (➔ p. 55).

Attaching the belt clip

The handset has notches on each side for attaching the belt clip.

• Attaching the belt clip: ▶ Press the belt clip onto the back of the handset so that the tabs on the belt clip click into place in the notches.

• Removing the belt clip: ▶ Press the centre of the belt clip firmly with your right thumb. ▶ Push the nail of your left thumb up between the clip and the casing. ▶ Slide the clip upwards to remove.

Changing the display language

You can change the display language if the phone is set to a language not required.

▶ Press the centre of the control key ■.

▶ Press the keys 9 and 5 **slowly** and successively . . . the language settings display appears, the set language (e. g. **English**) is highlighted (◯ = selected).

▶ To select a different language: ▶ Press the control key 🔼 until the desired language is highlighted on the display, e. g. **Francais** ▶ press the key on the right directly underneath the display to activate the language.

▶ To revert to idle status: ▶ Press and **hold** the End call key 🔟

Example

Deutsch	◯
English	◉
Francais	◯

11

Setting the date and time

Set the date/time so that the correct date and time can be assigned to incoming calls and to enable the alarm to be used.

▶ Press the display key **Set Time**

or, if the date and time have already been set:

▶ ▢ ▶ ⬚ ⚙ **Settings** ▶ **OK** ▶ **Date/Time** ▶ **OK**

Calls	Set

The active input position flashes.

Change input position: ▶ ⬚

To switch between the entry fields: ▶ ⬚

Enter date:

▶ ⬚ enter the day, month and year in 8-digit format.

Enter time:

▶ ⬚ enter hours and minutes in 4-digit format.

Save settings:

▶ Press the display key **Save**. . . . **Saved** is shown in the display and a confirmation tone sounds.

Return to idle status:

▶ Press and **hold** the End call key ☎

The telephone is now ready for use.

Date/Time

Date:
15.08.2022
Time:
00:00

Back	Save

Connecting the headset

▶ Connect the headset with 2.5 mm jack to the left side of the handset ⬚ .

The headset volume corresponds with the setting for the receiver volume (➔ p. 63).

Connecting the USB data cable

For data exchange between the handset and PC:

▶ Connect the USB data cable with micro-USB plug into the USB socket at the bottom of the handset [1].

ⓘ Connect the handset **directly** to the PC, **not** via a USB hub.

Using the telephone
Getting to know your telephone

Switching the handset on/off

Switch on: ▶ Press and **hold** the End call key 🔴 on the handset when switched off

Switch off: ▶ When the telephone is in idle status, press and **hold** the End call key 🔴

Locking/unlocking the keypad

The keypad lock prevents any accidental use of the telephone.

Lock/unlock the keypad: ▶ ⌗ Press and **hold**

Keypad lock activated: the symbol 🔑 appears in the display.

> **ⓘ** If a call is indicated on the handset, the keypad automatically unlocks and you can accept the call. It then locks again when the call is finished.
>
> It is not possible to call emergency numbers either when keypad lock is activated.

Control key

The control key enables you to navigate the menus and input fields, and also to call up certain functions depending on the situation.

In the description below, the side of the control key (up, down, right, left) that you have to press in the different operating situations is marked in black, e.g. ▶ for "press right on the control key" or ■ for "press the centre of the control key".

In idle status

Open the directory	⬇ Press **briefly**
Open the list of available online directories	⬇ Press and **hold**
Open the main menu	■ or ▶
Open the list of handsets	◀

In submenus, selection and entry fields

Confirm a function   ■

During a conversation

|	
Open the directory	
Open the list of available online directories	Press and **hold**
Mute the microphone	
Initiate an internal consultation call	
Adjust the loudspeaker volume for receiver and handsfree mode	

Volume keys

Set volume for **receiver/headset**, **ringtone**, **handsfree mode** and indicating **appointments:** ▶ Press the volume keys ☐ / ☐ on the right side of the handset

Display keys

The display keys perform a range of functions depending on the operating situation.

Back Save	Current display key functions
	Display keys
Display key icons ➡ p. 76

ℹ️ The display keys have a function preset by default in idle status. Changing the assignment: ➡ p. 66

Menu guidance

The functions of your telephone are displayed in a menu that consists of several levels.

Select/confirm functions

|		
Confirm selection using	**OK** or press the centre of the control key ■	
One menu level back using	**Back**	
Change to idle display using	☐ Press and **hold**	
Switch function on/off using	**Change**	on ☑ / off ■
Activate/deactivate option using	**Select**	activated ◉ / not activated ◉

Main menu

In idle status: ▶ Press the **centre** of the control key ▇ ▶ use
the control key ✛ to select a submenu ▶ **OK**

The main menu functions are shown in the display as icons. The
icon for the selected function is highlighted in colour and the
name of the associated function appears in the display header.

Example

🆖	🎵	★
⤴	✉	📼
🗂	📖	⚙
Back		OK
Submenus

The functions in the submenus are displayed as lists.

To access a function: ▶ use the control key ◌ to select a
function ▶ **OK**
Return to the previous menu level:

▶ Press the display key **Back**

or

▶ **Briefly** press the End call key 📵

Returning to idle status

▶ Press and **hold** the End call key 📵

Example

Settings
Date/Time
Audio Settings
Display + Keypad
Language
Registration
⌄
Back   OK

ⓘ If no key is pressed, the display will **automatically** change to idle status after around
2 minutes.

Entering text
Input position

▶ Use ☐ to select an entry field. A field is activated when the cursor is blinking inside it.

▶ Use ☐ to move the position of the cursor.

Correcting incorrect entries

- Delete **characters** to the left of the cursor: ▶ **< C** Press **briefly**
- Delete **words** to the left of the cursor: ▶ **< C** Press and **hold**

Entering letters/characters

Multiple letters and numbers are assigned to each key between ☐2 and ☐9 and the ☐0 key. As soon as a key is pressed, the possible characters are displayed at the bottom of the display. The selected character is highlighted.

- Selecting letters/digits: ▶ Press the key **briefly** several times in succession
- Switch between lower case, upper case and number entry mode: ▶ Press the hash ☐#☐ key
  When editing a directory entry, the first letter and each letter following a space is automatically in upper case.
- Entering special characters: ▶ Press the star key ☐*☐ ▶ use ☐ to navigate to the desired character ▶ **Insert**

ⓘ   The availability of special characters depends on the language setting.

Making calls

Making calls

▶ ⊞ enter the number ▶ **briefly** press the Talk key 📞

or

▶ Press and **hold** the Talk key 📞 ▶ ⊞ enter the number

Cancel dialling: ▶ Press the End call key 📞

ⓘ Information for Calling Line Identification: ➡ p. 24

If the display backlight is deactivated, you can reactivate it by pressing any key. **Digit keys** that are pressed appear in the display for pre-dialling, **other keys** have no further function.

Dialling from the directory

▶ 🔽 open the directory ▶ 🔼 select an entry ▶ press the Talk key 📞

If multiple numbers are entered:
▶ ◀▶ select a number ▶ press the Talk key 📞 . . . the number is dialled
ⓘ For fast access (quick dial): Assign numbers from the directory to the digit or display keys.

Dialling from the redial list

The redial list contains the 20 numbers last dialled with the handset.

▶ **Briefly** press the Talk key 📞 . . . the redial list is opened ▶ 🔼 select an entry ▶ press the Talk key 📞

If a name is displayed:

▶ **View** . . . the number is displayed ▶ ◀▶ browse numbers if necessary ▶ when the desired number is reached press the Talk key 📞

Managing entries in the redial list

▶ **Briefly** press the Talk key ⌒ . . . the redial list is opened ▶ ⬚ select an entry ▶ **Options**
. . . possible options:

Copy an entry to the directory:

▶ ⬚ **Copy to Directory** ▶ **OK**

Copy the number to the display:

▶ ⬚ **Display Number** ▶ **OK** ▶ Use as required ◀C to change or
add ▶ ➡️ save as a new entry in the directory

Delete the selected entry:

▶ ⬚ **Delete Entry** ▶ **OK**

Delete all entries: ▶ ⬚ **Delete List** ▶ **OK**

Set automatic line seizure:

▶ ⬚ **Automatic Redial** ▶ **OK** . . . the dialled number is automati-
cally dialled at fixed intervals (at least every 20 secs). The handsfree
key flashes, "open listening" is activated.
The participant answers: ▶ Press the Talk key ⌒ . . . the function
is terminated

The participant does not answer: The call is interrupted after
around 30 secs. The function is terminated after pressing any key
or after ten unsuccessful attempts.

Dialling from the call list

The call lists (➡ p. 29) contain the most recent accepted, outgoing and missed calls.

▶ ▮ ▶ ⬚⬚ ⤿ **Call Lists** ▶ **OK** ▶ ⬚ select a list ▶ **OK** ▶ ⬚ select an entry ▶ press the
Talk key ⌒

ⓘ   The call lists can be displayed directly by pressing the display key **Calls** if the relevant
function has been assigned to the display key.

The **Missed Calls** list can also be opened by pressing the Message key ✉ .

One touch call

A saved number is dialled by pressing **any** key. This allows children who are not yet able to enter a number to call a certain number, for example.

Activate one touch call mode:

▶ ▶ ▶ ★ **Additional Features** ▶ **OK** ▶ **One Touch Call** ▶ **OK** ▶ activate **Activation** ▶ **Call to** ▶ enter the number ▶ **Save** . . . the active one touch mode is shown in the idle display

Make a one touch call: ▶ Press any key . . . the saved number is dialled

Cancel dialling: ▶ Press the End call key

End one touch call: ▶ Press and **hold** the End call key

Example

07:15
INT 1   22 Feb

OneTouchCall active
0891234567
Off
Enter a dial pause when dialling

▶ Press and hold the hash key. A P is shown on the display

Incoming calls

An incoming call is indicated by ringing, by a display on the screen and by the flashing Talk / Handsfree key (/).

Accept a call:

• Press the Talk key
• If **Auto Answer** is activated: ▶ Remove the handset from the charging cradle
• Accept a call on the headset

Switch off ringtone: ▶ **Silence** . . . the call can be accepted for as long as it is shown on the display

Information about the caller

The caller's number is sent (➔ p. 24).

The caller's phone number is displayed.

If the caller's number is saved in the local directory, the name is displayed.

Accepting/rejecting call waiting

A call waiting tone indicates a call during an external call. The number or the name of the caller is displayed if the phone number is transferred.

• Reject a call: ▶ **Options** ▶ **Reject waiting call** ▶ **OK**
• Accept a call: ▶ **Accept** ▶ speak to the new caller. The previous call is placed on hold.
• End the call, resume the on-hold call: ▶ Press the End call key .

Making internal calls

Multiple handsets have been registered to the base station (➔ p. 55).

▶ ⬜ Press **briefly** . . . the handset list is opened, this handset is indicated by < ▶ 🔼 select handset or **Call All** (group call) ▶ Press the Talk key 📞

Fast access for group call:

▶ ⬜ Press **briefly** ▶ [*]

or ▶ ⬜ press and **hold**

ℹ️ Internal calls to other handsets registered to the same base station are free of charge.

You hear the busy tone if:

- There is already an internal connection
- The handset being called is not available (deactivated, outside of range).
- The internal call is not accepted within 3 minutes.

Internal consultation call/Internal transfer

Call an **external** participant and transfer the call to an **internal** participant or hold a consultation call with him or her.

▶ ⬜ . . . the list of handsets is opened ▶ 🔼 select a handset or **Call All** ▶ **OK** . . . the internal participant(s) are called . . . possible options:

Hold a consultation call:

▶ Speak to the internal participant

Return to the external call:

▶ **Options** ▶ 🔼 **End Active Call** ▶ **OK**

Transfer the external call when the internal participant has answered:

▶ Announce an external call ▶ Press the End call key 📵

Transfer the external call before the internal participant answers:

▶ Press the End call key 📵 . . . the external call is forwarded immediately. If the internal participant does not answer or the line is busy, the external call will automatically return to you.

End the internal call if the internal participant does **not** answer or the line is busy:

▶ **End** . . . You return to the external call

Accepting/rejecting call waiting

An external call arriving during an internal call is indicated with a call waiting tone. If the number is transferred, you will see the number or the name of the caller on the display.

• Rejecting a call: ▶ **Reject**

The call waiting tone is turned off. The call continues to be indicated on the other registered handsets.

• Accepting a call: ▶ **Accept** . . . Speak to the new caller, the previous call is placed on hold.

Internal call waiting during an external call

If an internal participant attempts to call you while you are involved in an external or internal call, this call is shown on the display (**Call Waiting**).

• End display: ▶ Press any key

• Accept the internal call: ▶ End your current call

The internal call is indicated in the usual way. You can accept the call.

Listening in to an external call

You are conducting an external call. An internal participant can listen in to this call and take part in the conversation (conference).

The **Listening In** function must be activated.

Activating/deactivating internal listening in

▶ ▮ ▶ 🔲 ⚙ **Settings** ▶ **OK** ▶ 🔲 **Telephony** ▶ **OK** ▶ 🔲 **Listening In** ▶
Change (☑ = activated)

Internal listening in

The line is engaged with an external call. Your screen will display information to that effect. You can listen in to the external call.

▶ Press and **hold** 📞 . . . all participants will hear a signal tone

Ending listening in

▶ Press 📞 . . . all participants will hear a signal tone

During a conversation

Handsfree mode

Activating/deactivating handsfree mode during a call and when establishing a connection:

▶ Press the handsfree key ▫️

Placing the handset in the charging cradle during a call:

▶ Press and hold down the handsfree key ▫️ ▶ Place the handset in the charging cradle ▶ hold ▫️ for a further 2 seconds

Call volume

Applies for the mode currently being used (handsfree, receiver or headset, when the handset has a headset connector):

▶ Press the volume keys ➕ / ➖ or ▫️ ▶ use ➕ / ➖ or ▫️ to set the volume ▶ **Save**

> The setting is automatically saved after around 3 seconds, even if **Save** is not pressed.

Muting the microphone

When the microphone is switched off, callers will no longer hear you.

Switch the microphone on/off during a call: ▶ Press ▫️.

or: ▶ **Briefly** press the Profile key ▫️

Provider-specific functions (network services)

Network services depend on the network (analogue fixed line network or IP telephony) and on the network provider (Service provider or phone system) and must be requested from that provider if required.

You will find a description of the features on your network provider's website or at one of their store branches.

If you require assistance, please contact your network provider.

> Requesting network services may incur **additional costs**. Please consult your network provider.

Network services fall into two distinct groups:

*   Network services that are activated when in idle status for the following call or all subsequent calls (for example, "calling anonymously"). These are activated/deactivated via the **⑤ Select Services** menu.
*   Network services that are activated during an external call, (for example, "consultation call", "swapping between two callers" (if available)). These are made available during an external call either as an option or by using a display key (e.g. **Ext. Call**).

> To activate/deactivate the features, a code is sent to the telephone network.
>
> ▸ After a confirmation tone from the telephone network, press 🔲.
>
> It is not possible to reprogram the network services.

Calling Line Identification

During a call, the caller's number is transferred (CLI = Calling Line Identification) and may be displayed on the recipient's display (CLIP = CLI presentation). If the caller's number is withheld, it will not be displayed to the recipient. The call is made anonymously (CLIR = CLI Restriction).

Caller display for incoming calls

Calling Line Identification

The caller's phone number is displayed. If the caller's number is saved in the directory, the name is displayed.

No Calling Line Identification

Instead of name and number, the following is displayed:

*   **External**: No number has been transferred.
*   **Withheld**: Caller has withheld Calling Line Identification.
*   **Unavailable**: Caller has not authorised Calling Line Identification.

Calling Line Identification for outgoing calls

Switching Calling Line Identification on/off for all calls

These settings apply to all registered handsets.

▸ ▉ ▸ ⬚⬚ ⬚ **Select Services** ▸ **OK** ▸ ⬚ **All Calls Anonym.** ▸ **Change** (⬛ = activated)

Deactivating Calling Line Identification for the next call

▸ ▉ ▸ ⬚⬚ ⬚ **Select Services** ▸ **OK** ▸ ⬚ **Next Call Anonym.** ▸ **OK** ▸ ⬚ enter the
number ▸ **Dial** . . . the connection is established without Calling Line Identification

Call waiting during an external call

During an **external** call, a call waiting tone indicates another
external caller. If the number is being transferred, you will see the
number or the name of the caller on the display.

Reject waiting caller:

▸ **Options** ▸ ⬚ **Reject waiting call** ▸ **OK** . . . the waiting
caller hears the busy tone

Accept the waiting call:

▸ **Accept**

Once you have accepted the waiting call, you can switch
between the two callers (**Call swapping** → p. 27) or speak to
both simultaneously ("**Conference**" → p. 28).

```
           Call Waiting

             (↔)

        1234567

Accept              Options
```

Activating/deactivating call waiting

▸ ▉ ▸ ⬚⬚ ⬚ **Select Services** ▸ **OK** ▸ ⬚ **Call Waiting** ▸ **OK** . . . then

Switch on/off: ▸ **Status:** ⬚ select **On** or **Off**

Activate: ▸ **Send**

Call waiting is activated or deactivated for all registered handsets.

Ringback (if available)

If busy/no answer

If a call recipient is unavailable, you can initiate a ringback.

• **If busy:** The ringback takes place as soon as the participant in question terminates the
current call.

• **If no answer:** The ringback takes place as soon as the participant in question has made
another call.

Initiate ringback

▸ **Options** ▸ ⬚ **Ringback** ▸ **OK** ▸ Press the End call key ⬚

Cancelling ringback

▸ ■ ▸ ⬚ 🔲 **Select Services** ▸ **OK** ▸ ⬚ **Ringback Off** ▸ **OK** . . . You will receive a confirmation from the telephone network ▸ Press the End call key 📵

ⓘ You can only activate one ringback at a time. Activating a ringback will automatically cancel any ringback that is already active.

The ringback can only be received on the handset that activated the ringback.

If the ringback is indicated before you are able to cancel it: ▸ Press the End call key 📵

Call divert

When diverting a call, the call is forwarded to another connection.

▸ ■ ▸ ⬚ 🔲 **Select Services** ▸ **OK** ▸ ⬚ **Call Divert** ▸ **OK** . . . then

Switch on/off: ▸ **Status:** ⬚ select **On** or **Off**

Enter the number for call diverting:

▸ ⬚ **To Phone Number** ▸ ⬚ enter the number

Set the time for call divert:

▸ ⬚ **When** ▸ ⬚ select the time for call divert

All Calls: Calls are diverted immediately

No Answer: Calls are diverted if no one accepts the call within several rings.

When Busy: Calls are diverted if the line is busy.

Activate: ▸ **Send**

A connection is established to the telephone network . . . a confirmation is sent from the telephone network ▸ Press the End call key 📵

❗ Diverting calls may incur **additional costs**. Please consult your network provider.

Calls with three participants (if available)

Consultation calls

Make another external call during an external call. The first call is placed on hold.

▶ **Ext. Call** ▶ ▦ enter the number of the second participant . . . the active call is placed on hold and the second participant is called
If the second participant does not answer: ▶ **End**

Ending a consultation call

▶ **Options** ▶ ⬍ **End Active Call** ▶ **OK** . . . the connection to the first caller is reactivated

or

▶ Press the End call key 📵 . . . a recall to the first participant is initiated

```
        Consultation

Call to:
12
On Hold:
        025167435

End              Options
```

Call swapping

Switching between two calls. The other call is placed on hold.

▶ During an external call, dial the number of a second participant (consultation call) or accept a waiting caller . . . the display shows the numbers and/or names of both call participants, the current participant is marked with ▰ .

▶ use the control key ⬍ to switch back and forth between participants

Ending a currently active call

▶ **Options** ▶ ⬍ **End Active Call** ▶ **OK** . . . the connection to the other caller is reactivated

or

▶ Press the End call key 📵 . . . a recall to the first participant is initiated

```
        Call Swap

        ( ↔ )

    1234567
    025167435
    08:15

Conference       Options
```

Conference

Speaking to both participants at the same time.

▶ During an external call, dial the number of a second participant (consultation call) or accept a waiting caller . . . then

Initiate conference call:

  ▶ **Confer.** . . . all callers can hear one another and hold a conversation with one another

Return to call swapping:

  ▶ **End Conf.** . . . You will be reconnected to the participant with whom the conference call was initiated

End call with both participants:

▶ Press the End call key 🔳

Each of the participants can end their participation in the conference call by pressing the End call key 🔳 or hanging up.

Call lists

The telephone saves different types of calls (missed, accepted and outgoing calls) in lists.

List entry

The following information is displayed in the list entries::

Example

- The list type (in the header)
- Icon for the type of entry:

  ![icon] **Missed Calls**

  ![icon] **Accepted Calls**

  ![icon] **Outgoing Calls** (redial list)

- Caller's number. If the number is stored in the directory, the name and number type (![icon] **Phone (Home)**, ![icon] **Phone (Office)**, ![icon] **Phone (Mobile)**) are shown instead. In the event of missed calls, the number of missed calls from this number is also shown in square brackets.

- Date and time of call (if set)

Message lists

Notifications about missed calls, messages on the network mailbox, missed SMS messages and missed alarms are saved in the messages list and can be shown on the handset display.

As soon as a **new message** arrives, an advisory tone will sound. The Message key 🔲 also flashes (if activated).

Icons for message types and the number of new messages are shown on the idle display.

Notification for the following message types is available:

Example

🔲 on the network mailbox

🔲 in the missed calls list

🔲 in the SMS message list

🔲 in the missed alarms list

> The icon for the network mailbox is always displayed, provided the number is stored in the telephone. The other lists are only displayed if they contain messages.

Display messages:

▶ Press the Message key 🔲 . . . Messages lists that contain messages are displayed, **Mailbox:** is always displayed

An entry is marked in **bold**: new messages are available. The number of new messages is shown in brackets.

An entry is **not** marked in bold: no new messages. The number of old messages is shown in brackets.

▶ 🔲 Select a list ▶ **OK** . . . the calls or messages are listed

Network mailbox: The network mailbox number is dialled.

> The message list contains an entry for every answering machine assigned to the handset, such as a network mailbox.

Example

Back	OK

Activating/deactivating Message key flashing

Receipt of new messages is displayed by a flashing message key on the handset. This type of alert can be activated/deactivated for each message type.

In idle status:

▶ ■ ▶ Press keys ✳ #→ 0 ⌴ 5 #→ . . . the number 9 appears in the display ▶ use 📱 to select the message type:

Messages on the network mailbox   ▶ 7 4

missed calls   ▶ 7 5

new SMS   ▶ 7 6

The number 9 followed by the entry (e.g. 975) is displayed, the current setting for the select message type flashes in the entry field (e.g. 0) ▶ use 📱 to set the action for the arrival of new messages:

The Message key flashes   ▶ 0 ⌴

The Message key does not flash   ▶ 1 ∞

▶ Confirm selected setting with **OK**

or

▶ return to idle display without making changes: ▶ **Back**

```
                System

975 SET:
[0]

Back              OK
```
Network mailbox

Enter number
‣ 🔲 ▶ 📳 📼 **Voice Mail** ▶ **OK** ▶ 📳 **Network Mailbox** ▶ **OK**

‣ 📱 enter or amend the network mailbox number ▶ **Save**

> 🛈 To activate/deactivate the network mailbox use the phone number and a function code of your network provider. Please contact the network provider if you require any further information.

Playing back messages

‣ Press and **hold** 1 ∞

or

‣ Press the Message key 📧 ▶ **Network Mailbox** ▶ **OK**

or

‣ 🔲 ▶ 📳 📼 **Voice Mail** ▶ **OK** ▶ **Play Messages** ▶ **OK**

Listen to announcement out loud: ▶ Press the handsfree key 🔊

Directory

The local directory is unique to the handset. However, it is possible to send entries to other handsets.

Opening the directory

▶ **Briefly** press 🔲 in idle status

or

▶ ■ ▶ 🔄 🎹 **Directory** ▶ **OK**

Directory entries

Number of entries:	up to 500
Information:	First name and surname, up to three telephone numbers, e-mail address, anniversary with alert, VIP ringtone with VIP icon, CLIP-picture
Length of the entries:	Numbers: max. 32 digits First name, surname: max. 16 characters E-mail address: max. 64 characters

Creating an entry

▶ 🔲 ▶ 🔄 **<New Entry>** ▶ **OK** ▶ 🔄 switch between the entry fields and enter data for an entry:

Example

New Entry

First Name :
Robert

Surname :

Phone (Home):
Abc

‹ C   Save

Names/numbers:

▶ 📱 enter first names and/or surnames, at least one number (personal, office, or mobile) and an e-mail address, if applicable

Anniversary:

▶ 🔄 activate/deactivate **Anniversary** ▶ 📱 enter date and time ▶ 🔄 select type of alert (**Optical only** or a ringtone)

Caller Melody (VIP) :

▶ 🔄 select the ringtone that will indicate a call from the participant . . . if a **Caller Melody (VIP)** has been assigned, the entry will appear in the directory with the **VIP** icon.

Caller Picture :

▶ 🔄 select a picture that is to be displayed during a call from the participant (➜ Resource Directory).

Save entry: ▶ **Save**

ⓘ   The entry is only valid if it contains at least one number.

> For **Caller Melody (VIP)** and **Caller Picture :** the telephone number of the caller must be supplied.

Searching for/selecting a directory entry

▶ ☐ ▶ ☐ browse searched names

or

▶ ☐ ▶ ▦ enter initial letters (max. 8 letters) . . . the display jumps to the first name starting with these initial letters ▶ ☐ continue browsing to the desired entry, if needed

Scroll through directory: ▶ ☐ ▶ Press and **hold** ☐

Displaying/changing an entry

▶ ☐ ▶ ☐ select entry ▶ **View** ▶ ☐ select the field to be changed ▶ **Edit**

or

▶ ☐ ▶ ☐ select an entry ▶ **Options** ▶ **Edit Entry** ▶ **OK**

Deleting entries

Delete the **selected** entry:

▶ ☐ ▶ ☐ select an entry ▶ **Options** ▶ ☐ **Delete Entry** ▶ **OK**

Delete **all** entries: ▶ ☐ ▶ **Options** ▶ ☐ **Delete All** ▶ **OK** ▶ **Yes**

Setting the order of the directory entries
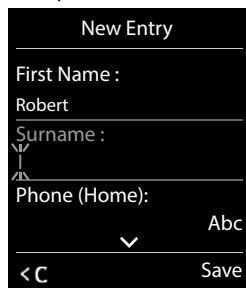

Directory entries can be sorted by first name or surname.

▶ ☐ ▶ **Options** ▶ ☐ **Sort by Surname** / **Sort by First Name**

If no name was entered, the default telephone number is shown in the surname field. These entries appear at the beginning of the list, regardless of how the entries are sorted.

The sort order is as follows:

Space **|** Digits (0-9) **|** Letters (alphabetically) **|** Other characters.

Displaying the number of entries available in the directory

▶ ☐ ▶ **Options** ▶ ☐ **Available Memory** ▶ **OK**

Copying number to the directory

Copy numbers to the directory:

* From a list e.g. the call list or the redial list
* From the text of an SMS
* When dialling a number

The number is displayed or highlighted.

▶ Press the display key ➡🌓 or **Options** ▶ 📳 **Copy to Directory** ▶ **OK** . . . possible options:

Create a new entry:

▶ **<New Entry>** ▶ **OK** ▶ 🔲 select number type ▶ **OK** ▶ complete entry ▶ **Save**

Add number to an existing entry:

▶ 📳 select an entry ▶ **OK** ▶ 🔲 select number type ▶ **OK** . . . the number is entered or a prompt to overwrite an existing number is displayed ▶ if required, answer the prompt with **Yes**/**No** ▶ **Save**

Copying an entry/directory

> The sending and receiving handset must both be registered to the same base station.
>
> The other handset and the base station are able to send and receive directory entries.

> An external call interrupts the transfer.
>
> Caller pictures and sounds are not transferred. Only the date is transferred for an anniversary.
>
> **Both handsets support vCards**
>
> * No entry with the name is available: a new entry is created.
> * An entry with the name is already available: The entry is expanded to include the new numbers. If the entry contains more numbers than allowed by the recipient handset, a second entry is created with the same name.
>
> **The recipient handset does not support vCards**
>
> A separate entry is created and sent for each number.
>
> **The sending handset does not support vCards**
>
> A new entry is created on the receiving handset and the transferred number is added to the **Phone (Home)** field. If an entry with this number already exists, the copied number is discarded.

Copying individual entries

▶ 🔲 ▶ 📳 select the desired entry ▶ **Options** ▶ 📳 **Copy entry** ▶ **OK** ▶ 📳 **to Internal** ▶ **OK** ▶ 📳 select the receiving handset ▶ **OK** . . . the entry is copied

Copy the next entry after successful transfer: ▶ Press **Yes** or **No**

> Use **vCard via SMS** to send a directory entry in vCard format by SMS.

Copying the entire directory

▸ ☐ ▸ **Options** ▸ ☐ **Copy all** ▸ **OK** ▸ ☐ **to Internal** ▸ **OK** ▸ ☐ select the receiving handset ▸ **OK** . . . the entries are copied one after the other

Synchronising the phonebook with the PC address book (Gigaset QuickSync)

The Gigaset QuickSync programme has been installed on the computer.

The handset is connected via a USB data cable to the computer.

Free download and further information at ➡ www.gigaset.com/quicksync

Additional functions

Sound profiles

The telephone has sound profiles for adapting the handset to the environmental conditions: **Profile Loud, Profile Silent, Profile Personal.**

▶ 🔔 switch between the profiles … the profile is changed straight away without a prompt

The profiles are set as follows by default:

Default setting		Profile Loud	Profile Silent	Profile Personal
Ringtone		On	Off	On
Ringtone volume	Internal	5	Off	5
	External	5	Off	5
Handset volume	Receiver	5	3	3
	Handsfree	5	3	3
Advisory tones	Key click	Yes	No	Yes
	Battery tone	Yes	Yes	Yes
	Confirmation tone	Yes	No	Yes

Activate alert tone for an incoming call for **Profile Silent**: ▶ after switching to **Profile Silent** press the display key **Beep** … the icon 🔔 appears in the status bar

ℹ️ The set profile remains set when switching the phone off and back on.

Changes to the settings listed in the table:

- apply in the **Profile Loud** and **Profile Silent** profiles as long as the profile is not changed.
- are permanently saved in **Profile Personal** for this profile.

Calendar

You can remind yourself of up to **30 appointments**.

In the calendar, the current day is outlined in white; on days with appointments, the numbers are displayed in colour. When a day is selected, it will be outlined in colour.

June 2022						
Mo	Tu	We	Th	Fr	Sa	Su
				01	02	03
04	05	06	07	08	09	10

Saving appointments to the calendar

Date and time have been set.

▸ ■ ▸ ⬚ 🗓 **Organizer** ▸ **OK** ▸ ⬚ **Calendar** ▸ **OK** ▸ ⬚ select desired day ▸ **OK** . . . then

Switch on/off: ▸ **Activation:** ⬚ select **On** or **Off**

Enter date: ▸ ⬚ **Date** . . . the selected day has been pre-set ▸ ⬚ enter new date

Enter time: ▸ ⬚ **Time** ▸ ⬚ enter hours and minutes of the appointment

Set name: ▸ ⬚ **Text** ▸ ⬚ enter a description of the appointment (e.g. evening meal, meeting)

Set alarm tone: ▸ ⬚ **Signal** ▸ ⬚ select the melody of the reminder alarm or deactivate the acoustic signal

Save appointment: ▸ **Save**

> If an appointment has already been entered: ▸ ⬚ **<New Entry>** ▸ **OK** ▸ then enter information for the appointment.

Notification of appointments/anniversaries

Anniversaries are transferred from the directory and displayed as an appointment. An appointment/anniversary is displayed in idle status and the selected ringtone plays for 60 seconds as a notification.

Acknowledge and stop the reminder: ▸ Press the display key **Off**

Respond with SMS: ▸ Press the display key **SMS** . . . the SMS menu is displayed

Permanently modify the ringtone volume: ▸ Press the volume keys ⊞ / ⊟ during the reminder

> During a call, a reminder is indicated on the handset **once** with an advisory tone on the handset.

Displaying missed appointments/anniversaries

The following appointments and anniversaries are saved in the **Missed Alarms** list:

• The appointment/anniversary call was not acknowledged.

• The appointment/anniversary was notified during a phone call.

• The handset was switched off at the time of the appointment/anniversary.

The last 10 entries are stored. The ⬚ icon and the number of new entries are shown in the display. The most recent entry appears at the top of the list.

Opening the list

▶ Press the Message key ▭ ▶ ▭ **Missed Alarms:** ▶ **OK** ▶ ▭ browse through the list of any appointments

or

▶ ▬ ▶ ▭ ▭ **Organizer** ▶ **OK** ▶ ▭ **Missed Alarms** ▶ **OK**

Each entry is displayed with the number or name, date and time. The most recent entry appears at the top of the list.

Delete an appointment/anniversary: ▶ **Delete**

Compose an SMS: ▶ **SMS** (only if the list has been opened via the menu) . . . the SMS menu is opened

---

Displaying/changing/deleting stored appointments

Delete all appointments for a day:

▶ **Options** ▶ ▭ **Delete all Appoints.** ▶ **OK** ▶ **Yes**

Alarm clock

Date and time have been set.

Activating/deactivating the alarm clock and setting the wake-up time

▸ ▸ Organizer ▸ OK ▸ Alarm Clock ▸ OK . . . then

Switch on/off:	▸ Activation: select On or Off
Setting the wake-up time:	
	▸ Time ▸ enter hours and minutes
Set days:	▸ Occurrence ▸ switch between Monday-Friday and Daily
Set the volume:	▸ Volume ▸ set volume in 5 levels s or select crescendo (increasing volume)
Set alarm:	▸ Melody ▸ select a ringtone for the alarm
Save settings:	▸ Save

When the alarm clock is activated, the icon and the wake-up time are displayed in idle display.

Alarm

An alarm is shown on the display and indicated by the selected ringtone melody. The alarm sounds for 60 seconds. If no key is pressed, the alarm is repeated after 5 minutes. After the second repetition, the alarm call is deactivated for 24 hours.

During a call, the alarm is only indicated by a short tone.

Switching off/repeating the alarm after an interval (snooze mode)

Deactivate the alarm: ▸ Off

Repeat the alarm (snooze mode): ▸ Press Snooze or any key . . . the alarm is switched off and repeated after 5 minutes.

Baby monitor

When the baby monitor is switched on, the stored (internal or external) destination number is called as soon as a defined noise level is exceeded in the vicinity of the handset. The alarm to an external number is cancelled after approximately 90 seconds.

You can answer the alarm using the **Two Way Talk** function. This function is used to switch the loudspeaker of the handset located in the baby's room on or off.

In baby monitor mode, incoming calls are only indicated on the display (**without ringtone**). The display backlight is reduced to 50%. Advisory tones are deactivated. All keys are locked, with the exception of the display keys and the centre of the control key.

If you accept an incoming call, the baby monitor mode is suspended for the duration of the call, but the function **remains** activated. The baby monitor mode is not deactivated by switching the handset off and on again.

ⓘ The handset should be positioned 1 to 2 metres away from the baby. The microphone must point towards the baby.

Activating the function reduces the operating time of your handset. For that reason, place the handset in the charging cradle if necessary.

The baby monitor is activated 20 seconds after switching on.

The microphone of the handsfree device is always used, even if a headset is connected.

The answer machine for the destination number must be switched off.

After switching on:

▸ Test sensitivity.

▸ Test the connection, if the alarm is being forwarded to an external number.

Activating and setting the baby monitor

▸ ▤ ▸ ⊡ ★ **Additional Features** ▸ **OK** ▸ 🔄 **Baby Phone** ▸ **OK** . . . then

Switch on/off:

▸ **Activation:** ◀▶ select **On** or **Off**

Enter destination:

▸ 🔽 **Alarm to** ▸ ◀▶ select **External** or **Internal**
External: ▸ 🔽 **Number** ▸ 📱 select number or select a number from the directory: ▸ 📖
Internal: ▸ 🔄 **Handset** ▸ **Change** ▸ 🔄 select the handset ▸ **OK**

Activate/deactivate two-way talk:

▸ 🔽 **Two Way Talk** ▸ ◀▶ select **On** or **Off**

Set microphone sensitivity:

▸ 🔽 **Sensitivity** ▸ ◀▶ select **High** or **Low**

Save settings: ▸ **Save**

The destination number is displayed in idle display when the baby monitor is activated.

Baby Phone activated

07:15

INT 1   14 Oct

Baby Phone
0891234567

Off   Options
Deactivate baby monitor / Cancel alarm

Deactivate the baby monitor:

> ▶ In idle status press the display key **Off**

Cancel the alarm:

> ▶ Press the End call key 🔚 during an alarm

Deactivate the baby monitor remotely

The alarm is forwarded to an external destination number.

The receiving phone supports tone dialling.

▶ Accept alarm call ▶ Press keys 9 #

The baby monitor is deactivated and the handset is in idle status. The baby monitor settings on the handset (e.g. no ringtone) will remain activated until you press the display key **Off**.

The baby monitor cannot be reactivated remotely.

ECO DECT

The device range is set to maximum as default. This guarantees the best connection between the handset and the base station. In idle status, the handset will not function (as it is not transmitting). Only the base station will maintain contact with the handset via a low wireless signal. During a call, the transmission power automatically adapts to the distance between the base station and handset. The smaller the distance to the base, the lower the radiation.

To reduce the radiation further:

Reducing radiation by up to 80%

▶ ■ ▶ 🔀 ⚙ **Settings** ▶ **OK** ▶ 🔄 **ECO DECT** ▶ **OK** ▶ **Maximum Range** ▶ **Change** (■ = deactivated)

> ⓘ The range is also reduced with this setting.
>
> It is not possible to use a repeater to increase the range.

Deactivating radiation in idle status

▶ ■ ▶ 🔀 ⚙ **Settings** ▶ **OK** ▶ 🔄 **ECO DECT** ▶ **OK** ▶ 🔄 **No Radiation** ▶ **Change** (☑ = activated)

> ⓘ To benefit from the advantages of the setting **No Radiation**, all registered handsets must support this feature.
>
> If the setting **No Radiation** is activated and a handset is registered to the base that does not support this feature, **No Radiation** is automatically deactivated. As soon as this handset is de-registered, **No Radiation** will automatically be re-activated.
>
> The wireless connection will only be established for an incoming or outgoing call and the connection will be delayed by about 2 seconds.
>
> In order that a handset can establish a wireless connection with the base station more quickly for an incoming call, it must "listen" to the base station more often, i.e. scan the environment. This increases power consumption and reduces the standby and talk-time of the handset.
>
> When **No Radiation** is activated, there will be no range display/range alarm on the handset. Contactability can be tested by attempting to establish a connection.
>
> ▶ Press and **hold** the Talk key 📞 . . . the dialling tone sounds.

# Protection against unwanted calls

Time control for external calls

 Date and time have been set.

Enter a time period during which the handset should suspend ringing to indicate external calls e.g. during the night.

▶ ■ ▶ 🔄 ⚙ **Settings** ▶ **OK** ▶ 🔄 **Audio Settings** ▶ **OK** ▶ 🔄 **Ringtones (H/Set)** ▶ **OK** ▶ 🔄 **Time Control** ▶ **OK** . . . then

Switch on/off:	▶ 🔄 select **On** or **Off**	
Enter time:	▶ 🔄 switch between **Suspend ring. from** and **Suspend ring. until** ▶ 🔢 enter start and end in 4-digit format	
Save:	▶ **Save**	

Example

Time Control
For external calls:
On
Suspend ring. from:
22:00
Suspend ring. until:
07:00
Back   Save
🛈 The time control only applies to the handset for which the setting is configured.

The telephone will continue to ring for numbers that have been assigned to a VIP group in the directory.

Protection from anonymous callers

The handset will not ring if callers' numbers are not revealed. This setting can be applied to only one or to all registered handsets.

For one handset

▶ ■ ▶ 🔄 ⚙ **Settings** ▶ **OK** ▶ 🔄 **Audio Settings** ▶ **OK** ▶ 🔄 **Ringtones (H/Set)** ▶ **OK** ▶ 🔄 **Anon. Call Silenc.** ▶ **Edit** (☑ = activated) . . . the call is only signalled on the display

For all handsets

▶ ■ ▶ 🔄 ⚙ **Settings** ▶ **OK** ▶ 🔄 **Telephony** ▶ **OK** ▶ **Anonymous Calls** ▶ **Edit** (☑ = activated) ▶ 🔄 **Protection Mode**:

No Protection	Anonymous calls are indicated in the same way as identified numbers.
Silent Call	The telephone will not ring and the incoming call will only appear in the display.
Block Call	The telephone will not ring and the incoming call will not appear in the display. The caller will hear the busy tone.
Save settings:	▶ **Save**

Switch off ringtone when in charging cradle

The handset will not ring when placed in the charging cradle. The call is only indicated on the display.

▸ ▇ ▸ 🔲 ⚙ **Settings** ▸ **OK** ▸ 🔲 **Audio Settings** ▸ **OK** ▸ 🔲 **Ringtones (H/Set)** ▸ **OK** ▸ **Silent Charging** ▸ **Change** (☑ = ringtone is switched off when in charging cradle)

Black list

When the black list function is activated, calls from black list numbers are not indicated or are only indicated in the display. These settings apply to all registered handsets.

The black list is enabled when **Silent Call** or **Block Call** is selected as the protection mode.

Displaying/editing the black list

▸ ▇ ▸ 🔲 ⚙ **Settings** ▸ **OK** ▸ 🔲 **Telephony** ▸ **OK** ▸ 🔲 **Black List** ▸ **Edit** ▸ **Blocked Numbers** ▸ **OK** . . . the list of blocked numbers is displayed . . . possible options:

　　　　　　　　　　▸ **Options** ▸ **⬍ Edit** ▸ **OK** ▸ use **⬛** to edit text ▸ **Options** ▸
　　　　　　　　　　⬍ Forward ▸ **OK**

Forward SMS to recipient of your choice:

　　　　　　　　　　▸ **Options** ▸ **⬍ Forward** ▸ **OK**
Display text in a different character set:

　　　　　　　　　　▸ **Options** ▸ **⬍ Character Set** ▸ **OK** ▸ use **⬍** to select character
　　　　　　　　　　set ▸ **Select** (**◉** = selected)

Saving numbers from SMS text to the directory

If a telephone number in the SMS text is recognised, it is automatically highlighted.

- Save the number in the directory: ▶ 🔳🔳

  If the number is to also be used to send an SMS, save the number including the local area code (dialling code).
- Dial a number: ▶ Press the Talk key 🔳
- Select the next number, if an SMS contains multiple numbers: ▶ use 🔳 to scroll down until the first number has disappeared from the display.

> 🛈 The +-icon is not copied for international area codes.
>
> ▷ You should then enter "00" at the start of the number.

SMS with vCard

The vCard is an electronic business card. It is indicated by the 🔳 icon in the SMS text. A vCard can contain a name, home number, work number, mobile number and a birthday. Individual entries in a vCard can be saved to the directory one after the other.

When reading an SMS containing the vCard: ▶ **View** ▶ **Save**

The directory is opened automatically. The number and name are copied. If a birthday is entered on the vCard, the date is copied to the directory as an anniversary. If necessary, edit the entry in the directory and save it. You will return to the vCard automatically.

SMS notification

Receive notifications of **missed calls** and/or **new messages on the answer machine**.

- ▶ 🔳 ▶ 🔳 🔳 **SMS** ▶ **OK** ▶ 🔳 **Settings** ▶ **OK** ▶ 🔳 **Notification** ▶ **Change**
  (🔳 = activated) . . . then

Enter number:	▶	**To** : use 🔳 to enter the number to which the SMS should be sent
Missed calls:	▶	🔳 **Missed Calls** ▶ use 🔳 to select **On** or **Off**
Save settings:	▶	**Save**

> ❗ Do not enter your own fixed line network number for notification of missed calls. This can create an endless loop that will incur charges.
>
> **SMS notification** may incur **additional costs**.

SMS service centres

The number for at least one SMS service centre must be saved in the device to be able to send SMS messages. The SMS service centre number can be obtained from the service provider.

SMS messages are received from **every** entered SMS service centre as long as they are registered with their service provider.

Your SMS messages are sent via the SMS service centre that is entered as the active send centre. However, you can activate any other SMS service centre as the active send service centre to send a current message.

Entering/changing the SMS service centre, setting the send service centre

▸ ▣ ▸ 📳 ✉ **SMS** ▸ **OK** ▸ [☐] **Settings** ▸ **OK** ▸ [☐] **Service Centres** ▸ **OK** ▸ [☐] select SMS service centre (✓ = current send service centre) ▸ **Edit** . . . then

Activate send service centre:

                          ▸ **Active Send**: use 🔲 to select **Yes** or **No** (**Yes** = SMS messages are sent via the SMS service centre)

                              For the SMS service centres 2 to 4, the setting only applies to the next SMS.

Enter the number of the SMS service:

                          ▸ ☐ **SMS Service Centre Number** ▸ use 🔡 to enter the number

Save settings: ▸ **Save**

> ❗ If you have agreed a flat fixed line network rate, the chargeable numbers with dialling code 0900 are often blocked. If, in this case, a 0900 number is entered for the SMS service centre, you will not be able to send text messages from your phone.
>
> If the attempt to send fails, the SMS is saved in the incoming messages list and indicated as failed.

SMS to PABXs

• The **Call Line Identification** must be **forwarded** to the extension of the PABX (CLIP).

• If necessary, the access code/outside line code must be prefixed to the number of the SMS service centre (depending on your PABX). To test: Send an SMS to your own number, once with the access code and once without.

• If the SMS is sent without the extension number, it will not be possible for the recipient to answer directly.

Activating/deactivating first ring muting

Every incoming SMS is indicated by a single ring. If such a "call" is answered, the SMS is lost. To prevent this, mute the first ring for all external calls. In idle status:

▸ ▣ ▸ [✱] [#] [0] [5] [#] [1] [9] . . . the current setting flashes in the input field (e.g. **1**) . . . then

Do not mute the first ringtone: ▸ [0] ▸ **OK**

Mute the first ringtone (default setting):   ▸ [1] ▸ **OK**

SMS troubleshooting

E0   Calling Line Identification permanently withheld (CLIR) or Calling Line Identification not activated.

FE   Error occurred while sending SMS.

FD   Connection to SMS service centre failed, see self-help.

Self-help with errors

You cannot send messages

- You have not requested the CLIP service (Calling Line Identification Presentation).
  - ▶ Ask your network provider to enable the feature.
- SMS sending was interrupted (e.g. by a call).
  - ▶ Re-send the SMS.
- The network provider does not support this feature.
- No number or an incorrect one has been entered for the send service centre.
  - ▶ Enter the number (➡ p. 49).

SMS text is incomplete

- The phone's memory is full.
  - ▶ Delete old SMS messages.
- The network provider has not yet sent the rest of the SMS.

You have stopped receiving SMS messages

Call divert has been activated for **All Calls**.
  - ▶ Change call divert (➡ p. 26).

The SMS is played back

- The "display call number" service is not activated.
  - ▶ Ask the network provider to enable this feature (subject to a fee).
- Your mobile phone operator and SMS service provider are not working in partnership.
  - ▶ Obtain information from your SMS service provider.
- The phone is not registered with the SMS service provider.
  - ▶ Send an SMS to register the phone for receiving SMS.

Resource Directory

Sounds for ringtones and images that can be used as caller pictures (CLIP pictures) or as a screensaver are saved in the handset's resource directory. A range of monophonic and polyphonic sounds and pictures have been pre-set but further images and sounds can be downloaded using a PC (➜ Gigaset QuickSync).

Media types

Type		Format
Sound	Ringtones	Internal
	Monophonic	Internal
	Polyphonic	Internal
	Imported sounds	WMA, MP3, WAV
Picture		BMP, JPG, GIF
	CLIP-picture	128 x 86 pixels
	Screensaver	128 x 160 pixels

If insufficient memory is available, you must delete one or more pictures or sounds before others can be saved.

Managing images (for screensaver and CLIP) and sounds

Delete picture/sound:	
	▶ 🔼 **Screensavers / Caller Pictures / Sounds** ▶ **OK** ▶ 🔼 select sound/picture ▶ **Options** ▶ **Delete Entry** . . . the selected entry is deleted

ⓘ The relevant options are not available if a picture/sound cannot be deleted.

Check memory

Display the available memory for screensavers and CLIP-pictures.

▶ ⬛ ▶ 🔀 🖼 **Resource Directory** ▶ **OK** ▶ 🔽 **Capacity** ▶ **OK** . . . the percentage of available memory is displayed

Additional functions using the PC interface

The **Gigaset QuickSync** program has been installed on the computer.

Free to download at ➡ www.gigaset.com/quicksync

QuickSync functions:

- Sync the handset's directory with Microsoft® Outlook®
- Upload CLIP-pictures (.bmp) from the computer to the handset
- Upload pictures (.bmp) as screensavers from the computer to the handset
- Upload sounds (ringtone melodies) from the computer to the handset
- Update firmware
- Cloud synchronisation with Google™

▶ Connecting the handset with the computer via a USB data cable.

Connect the handset **directly** to the PC and **not** via a USB hub.

Transferring data

▶ Launch the **Gigaset QuickSync** program on the computer.

The message **Data transfer in progress** is shown on the display during data transfer between the handset and PC. During this time, it is not possible to enter any data using the keypad and incoming calls are ignored.

Carrying out a firmware update

▶ Connect the telephone and the PC using a **USB data cable** ▶ Launch **Gigaset QuickSync** ▶ Establish connection to the handset

▶ Start firmware update in **Gigaset QuickSync** . . . Information about this can be found in **Gigaset QuickSync** help feature

The update process may take up to 10 minutes (not including download time).

> **!**   Do not interrupt the process and do not remove the USB data cable.

The data are first downloaded from the online update server. The time required for this depends on Internet connection speed.

The display on your telephone is switched off, the Message key 🖂 and the Talk key 📞 flash.

Once the update is complete, your telephone will automatically restart.

Procedure in the event of an error

If the update procedure fails or the telephone no longer functions properly after the update, repeat the update procedure:

▶ End the **Gigaset QuickSync** program on the PC ▶ Remove the USB data cable from the telephone ▶ Remove the battery ▶ Re-insert the battery

▶ Carry out the firmware update again as described above

If the update procedure fails more than once or it is no longer possible to connect to the PC, carry out the **Emergency Update**:

▶ End the **Gigaset QuickSync** program on the PC ▶ Remove the USB data cable from the telephone ▶ Remove the battery

▶ Press and hold keys ⌊4⌋ and ⌊6⌋ at the same time with the forefinger and middle finger ▶ Replace the battery

▶ Release keys ⌊4⌋ and ⌊6⌋ . . . the Message key 🖂 and the Talk key 📞 will flash alternately

▶ Carry out the firmware update as described above

> **i**   Always save pictures and sounds uploaded onto the handset on the PC, as they are deleted during an **Emergency Update**.

Expanding the functionality of the telephone

Multiple handsets

Up to six handsets can be registered to the base station.

Each registered device is assigned an internal number (1 – 6) and an internal name (**INT 1** – **INT 6**). The number or name assigned can be changed.

If all internal numbers have already been assigned at the base station: ▶ de-register a handset that is no longer needed

Registering the handset

A handset can be registered on up to four base stations.

> Registration must be initiated on the base station **and** on the handset.
>
> Both must be carried out **within 60 secs**.

On the base station

▶ Press and **hold** the Registration/Paging key on the base station (approx. 3 secs)

On the handset

▶ ▬ ▶ ◄►◢ ◙ **Settings** ▶ **OK** ▶ ◙ **Registration** ▶ **OK** ▶ **Register Handset** ▶ **OK** . . . an available base station is sought ▶ ▦ Enter system PIN (default setting: **0000**) ▶ **OK**

> ⓘ If the handset is already registered with four bases, select the base to be replaced by the new base.

Once registration is complete, the handset returns to idle status. The internal number of the handset appears in the display, e.g. **INT 1**. If not, repeat the procedure.

> ⓘ Maximum possible number of handsets registered to the base station (all internal numbers assigned): The handset with the highest internal number is replaced by the new one. If this is not possible, because a conversation is being held on this handset, for example, the message **No free Internal Number** is given. ▶ De-register a handset that is no longer required and repeat the registration procedure

Registering a handset to multiple base stations

Your handset can be registered to up to four base stations. The active base station is the base station to which the handset was last registered. The other base stations remain saved in the list of available base stations.

▶ ■ ▶ ⬚⬚ ⚙ **Settings** ▶ **OK** ▶ ⬚ **Registration** ▶ **OK** ▶ **Select Base** ▶ **OK** . . . possible options:

Change active base station:

> ▶ use ⬚ or **Best Base** to select base station ▶ **Select** (⬚ = selected)

> **Best Base:** The handset chooses the base station with the best reception as soon as it loses connection to the current base station.

Change name of a base station:

> ▶ use ⬚ to select a base station ▶ **Select** (⬚ = selected) ▶ **Name** ▶ change name ▶ **Save**

De-registering the handset

▶ ■ ▶ ⬚⬚ ⚙ **Settings** ▶ **OK** ▶ ⬚ **Registration** ▶ **OK** ▶ ⬚ **De-reg. Handset** ▶ **OK** . . . the handset being used is selected ▶ use ⬚ to select a different handset if desired ▶ **OK** ▶ enter system PIN if desired ▶ **OK** ▶ confirm de-registration with **Yes**

If the handset is still registered to other bases, it switches to the base with the best reception (**Best Base**).

Locating a handset (Paging)

▶ **Briefly** press the Registration/paging key on the base station.

All handsets will ring at the same time (paging), even if ringtones are switched off. **Exception:** handsets on which the baby monitor is activated.

Ending the search

▶ **Briefly** press the registration/paging key on the base station

or ▶ Press the End call key ⌒ on the handset

or ▶ Press the display key **Silence** on the handset

or ▶ No action. After approx. 30 seconds, the paging call will end automatically.

Paging

Silence
Changing the handset name and internal number

When registering multiple handsets, they will automatically be assigned the names **INT 1**, **INT 2** etc. Each handset will automatically be assigned the lowest unassigned internal number. The internal number is shown as the name of the handset on the display e.g. **INT 2**. You can change the names and the numbers of handsets. The name must not exceed 10 characters in length.

▶ ⬛ . . . the list of handsets is opened, the current handset is highlighted with < ▶ use 🔼 to select a handset . . . possible options:

Edit name: ▶ **Options** ▶ 🔼 **Rename** ▶ **OK** ▶ use ◀C to delete the current name ▶ use 🔢 to enter a new name ▶ **OK**

Edit number: ▶ **Options** ▶ 🔼 **Edit Handset No.** ▶ **OK** ▶ use ◀▶ to select a number ▶ **Save**

Repeater

A repeater increases the receiving range between the Gigaset handset and the base station.

The registration procedure for a repeater depends on the version of the repeater being used.

- Repeater without encryption, e.g. Gigaset repeater prior to Version 2.0
- Repeater with encryption, e.g. Gigaset repeater later than Version 2.0

Further information about the Gigaset repeater can be found in the repeater user guide and at ➜ www.gigaset.com.

Repeater without encryption

Activate Maximum Range/deactivate No Radiation

▶ ⬛ ▶ 🔀 ⚙ **Settings** ▶ **OK** ▶ 🔼 **ECO DECT** ▶ **OK** ▶ **Maximum Range** ▶ **Change** (☑ = activated) ▶ 🔽 **No Radiation** ▶ **Change** (◼ = deactivated)

Disabling encryption

▶ ⬛ ▶ 🔀 ⚙ **Settings** ▶ **OK** ▶ 🔼 **System** ▶ **OK** ▶ 🔼 **Encryption** ▶ **Change** (◼ = deactivated)

Registering a repeater

▶ Connect the repeater to the mains power supply ▶ Press and **hold** the Registration/paging key on the telephone base station (min. 3 secs) . . . the repeater is automatically registered

It is possible to register more than one Gigaset repeater.

Repeater with encryption

Encryption is activated (default setting).

Registering a repeater

▶ Connect the repeater to the mains power supply ▶ Press and **hold** the Registration/paging key on the telephone base station (min. 3 secs) . . . the repeater is automatically registered

Up to 2 repeaters may be registered.

The ECO DECT function **Maximum Range** is activated and the **No Radiation** function is deactivated. The settings cannot be changed whilst the repeater is registered.

As soon as a repeater is registered, it will appear in the repeater list under

Settings ▶ System ▶ Repeater
De-registering a repeater

▶ ▇ ▶ ⬚ ⚙ **Settings ▶ OK ▶** ⬚ **System ▶ OK ▶** ⬚ **Repeater ▶ OK ▶** use ⬚ to select repeater ▶ **De-reg. ▶ Yes**

Operation with a router

When operating on the analogue connection of a router, any **echoes** that may occur can be reduced by activating **XES mode 1** (XES = e**X**tended **E**cho **S**uppression).

If the **XES mode 1** does not sufficiently suppress the occurring echoes: activate **XES mode 2**.

▶ ▇ ▶ [✱] [# ↪] [0 ↵] [5] [# ↪] [7] [0 ↵] ▶ press one of the following keys

[0 ↵] ▶ **OK** Normal mode

[1 ∞] ▶ **OK** XES mode 1

[2] ▶ **OK** XES mode 2

If there are no problems with echoes, the normal mode (factory settings) should be activated.

Operation with a PABX

To find out which settings are required for a PABX, please refer to the PABX user guide.

You cannot send or receive SMS messages on PABXs that do not support Calling Line Identification.

Setting the flash time

▸ ■ ▸ ⬚ ⚙ **Settings** ▸ **OK** ▸ ⬚ **Telephony** ▸ **OK** ▸ ⬚ **Recall** ▸ **OK** . . . possible flash times are listed ▸ use ⬚ to select flash time ▸ **Select** (◉ = selected)

Saving an access code (outside line code)

Setting the access code (e.g. "0") for dialling using the fixed line network.
▸ ■ ▸ ⬚ ⚙ **Settings** ▸ **OK** ▸ ⬚ **Telephony** ▸ **OK** ▸ ⬚ **Access Code** ▸ **OK** . . . then

Fixed line network: ▸ **Access external line with:** use ▦ to enter or change access code, max. 3 digits

Rule: ▸ ⬚ **For** ▸ use ◂▸ to select when the access code should be dialled

       Call Lists: The access code will only prefix numbers from a list (list of answered calls, list of missed calls, SMS list).

       All Calls: The access code prefixes all numbers dialled.

       Off: The access code is deactivated and does not prefix any telephone number.

Save: ▸ **Save**

ⓘ   The access code never prefixes any SMS service centre numbers.

Setting pauses

▶ ▣ ▶ [*] [# ••] [0 ⌴] [5] [# ••] . . . then

Confirmation/error tone after making entries, advisory tone when a new message has been received:

▶ 🔲 **Confirmation** ▶ use 🔲 to select **On** or **Off**

Warning tone when there are fewer than 10 minutes of talktime remaining (every 60 seconds):

▶ 🔲 **Battery** ▶ use 🔲 to select **On** or **Off**

Warning tone when the handset is moved out of range of the base station:

▶ 🔲 **Out of Range:** use 🔲 to select **On** or **Off**

Save settings: ▶ **Save**
ℹ There is no battery warning when the baby monitor is switched on.

Fast access to numbers and functions

Assigning a number to digit keys (quick dial)

It is possible to assign a **number from the directory** to the keys 0⌴ and 2 to 9 .

✔ A number has not been assigned to the digit key.

▶ Press and **hold** the digit key

or

▶ **Briefly** press the digit key ▶ Press the display key **QuickDial**

The directory opens.

▶ use 🔲 to select an entry ▶ **OK** ▶ use 🔲 to select a number if necessary ▶ **OK** … the entry is saved to the digit key

$\mathbf{i}$ If the entry in the directory is deleted later, this will not affect the assignment of the digit key.

Dialling a number

▶ Press and **hold** the digit key . . . the number is dialled immediately

or

▶ **Briefly** press the digit key . . . the number/name (possibly in abbreviated form) is shown on the left display key ▶ press the display key . . . the number is dialled

Changing the digit key assignment

▶ **Briefly** press the digit key ▶ **Change** . . . the directory is opened . . . possible options:

Change the assignment:

         ▶   select an entry ▶ **OK** ▶ select a number if required ▶ **OK**

Delete the assignment:

         ▶   **Clear Key**

Assigning display keys / Changing assignments

The left and right display keys have a **function** preset by default when in idle mode. The key can be re-assigned.

▶ Press and **hold** the left or right display key in idle status . . . the list of possible key assignments is opened ▶   select the function ▶ **OK** . . . The assignment of the display key is changed

Possible functions: **Alarm Clock**, **Redial**, **Handset Directory** . . . More functions are available in **More Functions...**

Starting a function

With the telephone in idle status: ▶ **Briefly** press . . . the assigned function is executed

Resetting a handset

Reset any individual settings and changes that you have made.

▶ ▮ ▶ **Settings** ▶ **OK** ▶ **System** ▶ **OK** ▶ **Handset Reset** ▶ **OK** ▶ **Yes** . . . the handset's settings are reset

$\mathbf{i}$ The following settings are **not** affected by a reset

- Registration of the handset to the base station
- Date and time
- Directory entries and call lists
- SMS lists

System

Date and time

To ensure you have the correct time for incoming calls and to use the alarm clock and calendar, for example, the date and time must be set.

If the date and time have not yet been set on the handset, the display key **Set Time** appears.

▸ Press the display key **Set Time**

or

▸ ▆ ▸ ▚▚ ▓ **Settings** ▸ **OK** ▸ ▚ **Date/Time** ▸ **OK** . . . then

Set the date:	▸	**Date**: use ▚ to enter the day, month and year in 8-digit format
Set the time:	▸	▙ **Time** ▸ ▚ enter hours and minutes in 4-digit format
Save settings:	▸	**Save**

Own area code

Your area code (international and local area code) must be saved on the phone before you can transfer phone numbers (e.g. in vCards).

Some of these numbers are already preset.

▸ ▆ ▸ ▚▚ ▓ **Settings** ▸ **OK** ▸ ▚ **Telephony** ▸ **OK** ▸
▚ **Area Codes** ▸ **OK** ▸ Check (pre-)set area code

Edit the number:

▸ ▚ select/switch entry field ▸ ▚▚ change entry position ▸
◂ C delete digit if desired ▸ ▚ enter digit ▸ **Save**

Example

Area Codes
International Code**:**
00 - 49
Local Area Code:
0   - [8ᐟ   ]
◂ C   Save
Activating/deactivating music on hold

▸ ▆ ▸ ▚▚ ▓ **Settings** ▸ **OK** ▸ ▚ **Audio Settings** ▸ **OK** ▸ ▚ **Music on hold** ▸
Change (☑ = activated)

Changing the system PIN

Secure the telephone's system settings with a system PIN. You must enter the system PIN when, for example, (de)registering a handset or resetting to the default settings.

Change the telephone's 4-digit system PIN (default setting: **0000**):

▸   ▸ ⬛ ▸ 🔳 ⚙ **Settings** ▸ **OK** ▸ 🔼 **System** ▸ **OK** ▸ 🔼 **System PIN** ▸ **OK** ▸ use 🔢 to enter the current PIN (if other than 0000) ▸ **OK** ▸ use 🔢 to enter new system PIN ▸ **Save**

Resetting system PIN

Resetting the base station to the original PIN **0000**:

▸ Unplug the network cable from the base station ▸ Press and hold the Registration/Paging key on the base station ▸ At the same time reconnect the network cable to the base station ▸ Press and hold the key for at least 5 secs . . . the base station is reset and the system PIN is set to **0000**

ⓘ   All handsets are de-registered and must be re-registered. All settings are returned to default settings.

Restoring the phone to default settings

▸   ▸ ⬛ ▸ 🔳 ⚙ **Settings** ▸ **OK** ▸ 🔼 **System** ▸ **OK** ▸ 🔼 **Base Reset** ▸ **OK** ▸ use 🔢 to enter system PIN ▸ **OK** ▸ **Yes** . . . the base station is restarted. The restart takes around 10 seconds

ⓘ   When the settings are reset

• the date and time are retained,

• handsets are still registered,

• the system PIN is retained,

• **Maximum Range** is activated and **No Radiation** is deactivated.

Appendix

Customer Service & Assistance

Do you have any questions? As a Gigaset customer, you can find help quickly in this User Manual and in the service section of our Gigaset online portal www.gigaset.com/service.

In our constantly updated online service you can find:

- Extensive information about our products
- FAQ compilations
- Keyword search to help find topics quickly
- Compatibility database: Find out which base stations and handsets can be combined.
- Product comparison: Compare the features of several products with each other.
- Downloads for user manuals and current software updates
- E-mail contact form for customer service

In order to contact our customer service via email, please use the email contact form from our Gigaset online portal after selecting your home country.

Our representatives are also available on the telephone hotlines for consultation.

Guarantee certificate

Exclusion of liability

Your handset's display consists of pixels. Each pixel consists of three sub-pixels (red, green, blue).

It may be the case that a sub-pixel is missing or has a colour deviation.

A warranty claim is only valid if the maximum number of permitted pixel errors is exceeded.

Description	Maximum number of permitted pixel errors
Colour illuminated sub-pixels	1
Dark sub-pixels	1
Total number of coloured and dark sub-pixels	1

> **(i)** Signs of wear on the display and casing are excluded from the warranty.

Manufacturer's advice

Authorisation

This device is intended for analogue phone lines in your network.

Country-specific requirements have been taken into consideration.

Hereby, Gigaset Communications GmbH declares that the radio equipment type is in compliance with Directive 2014/53/EU and the Radio Equipment Regulations 2017:
Gigaset PREMIUM 100 / PREMIUM 100HX

The full text of the EU and UK declaration of conformity is available at the following internet address: www.gigaset.com/docs.

This declaration could also be available in the "International Declarations of Conformity" or "European Declarations of Conformity" files.

Therefore please check all of these files.

Data protection

We at Gigaset take the protection of our customers' data very seriously. It is precisely for this reason that we are ensuring all our products feature "Privacy by Design" as standard. All information we collect is used to make our products as good as possible. In the process, we ensure your details are protected and only used for the purposes of making available to you a product or service. We know which path your data takes through the company and ensure this happens in line with data protection specifications in a secure and protected manner.

The full text of the privacy policy is available from: www.gigaset.com/privacy-policy

Environment

Environmental management system

Gigaset Communications GmbH is certified pursuant to the international standards ISO 14001 and ISO 9001.

ISO 14001 (Environment): Certified since September 2007 by TÜV SÜD Management Service GmbH.

ISO 9001 (Quality): Certified since 17/02/1994 by TÜV SÜD Management Service GmbH.

Disposal

Batteries should not be disposed of in general household waste. Observe the local waste disposal regulations, details of which can be obtained from your local authority.

All electrical and electronic equipment must be disposed of separately from general household waste using the sites designated by local authorities.

If a product displays this symbol of a crossed-out rubbish bin, the product is subject to European Directive 2012/19/EU.

UK: The Waste Electrical and Electronic Equipment Regulations 2013.

The appropriate disposal and separate collection of used equipment serve to prevent potential harm to the environment and to health. They are a precondition for the re-use and recycling of used electrical and electronic equipment.

For further information on disposing of your used equipment, please contact your local authority or your refuse collection service.

Care

Wipe the device with a **damp** cloth or an antistatic cloth. Do not use solvents or microfibre cloths.

Never use a dry cloth; this can cause static.

In rare cases, contact with chemical substances can cause changes to the device's exterior. Due to the wide variety of chemical products available on the market, it was not possible to test all substances.

Impairments in high-gloss finishes can be carefully removed using display polishes for mobile phones.

Contact with liquid ⚠

If the device comes into contact with liquid:

1 Unplug all cables from the device.
2 **Remove the batteries and leave the battery compartment open.**
3 Allow the liquid to drain from the device.
4 Pat all parts dry.
5 Place the device in a dry, warm place **for at least 72 hours** (**not** in a microwave, oven etc.) with the battery compartment open and the keypad facing down (if applicable).
6 **Do not switch on the device again until it is completely dry.**

When it has fully dried out, you will normally be able to use it again.

Technical data

Batteries

Technology:	2 x AAA NiMH
Voltage:	1.2 V
Capacity:	750 mAh

Handset operating times/charging times

The operating time of your Gigaset depends on the capacity of the battery, its age and the way it is used. (All times are maximum possible times.)

Standby time (hours)	300/180 *
Talktime (hours)	12
Operating time with 1.5 hours of calls per day (hours)	120/90 *
Charging time in base station (hours)	5
Charging time in charging cradle (hours)	7

* With **No Radiation** function disabled / with **No Radiation** function enabled, with no display lighting when the phone is idle and during a call

Power consumption of the handset in the charging cradle (if included)

When charging:	approx. 1.50 W
To maintain the charge status:	approx. 0.50 W

Base power consumption

Standby:	Handset in the charging cradle	approx. 1.20 W
	Handset away from the charging cradle	approx. 0.55 W
During a call:	approx. 0.65 W	

General specifications

DECT standard	Supported
GAP standard	Supported
No. of channels	60 duplex channels
Radio frequency range	1880-1900 MHz
Duplex mode	Time division multiplexing, 10 ms frame length
Repetition frequency of the transmission pulse	100 Hz
Duration of the transmission pulse	370 μs
Channel grid	1728 kHz
Bit rate	1152 kbit/s
Modulation	GFSK

Language code	32 kbit/s
Transmission power	10 mW average power per channel, 250 mW pulse power
Range	Up to 50 m indoors, up to 300 m outdoors
Base station power supply	230 V ~/50 Hz
Environmental conditions for operation	+5 °C to +45 °C; 20% to 75% relative humidity
Dialling mode	DTMF (tone dialling)

Pin connections on the telephone jack

Display icons

The following icons are displayed depending on the settings and the operating status of your telephone.

Icons in the status bar

Icon	Meaning
	Signal strength (**No Radiation** off)
	1% -100%
	white, if **Maximum Range** on;
	green, if **Maximum Range** off
	Red: no connection to the base station
	No Radiation activated:
	white, if **Maximum Range** on;
	green, if **Maximum Range** off
	Profile Silent activated (Ringtone switched off)
	"Beep" ringtone activated
	Keypad lock activated
Icon	Meaning
	Battery charge status:
	White: between 11% and 100% charged
	Red: less than 11% charged
	Flashes red: battery almost empty (approx. 5 minutes of talktime left)
	Battery is charging (current charge status):
	0% - 100%

Display key icons

Icon	Meaning
	Last number redial
	Delete text
	Open the directory

Icon	Meaning
	Copy number to the directory

Display icons to indicate . . .

Icon	Meaning
	External call
	Internal call
	Establishing a call (outgoing call)
	Connection established
	No connection established/ connection terminated
	Reminder for appointment

Icon	Meaning
	Reminder for anniversary
	Alarm call
	Countdown timer

Other display icons

Icon	Meaning
	Alarm clock is activated, display with alarm time
	Timer switched on, display with countdown
	Action complete (green)
	Action failed (red)

Icon	Meaning
	Information
	(Security) prompt
	Please wait ...
